Bowling Club Concert.

Those who failed to hear the Stares' Concert Company, Hamilton, in the Music Hall last Thursday evening certainly missed a treat. Both Miss Gertrude and Miss Victoria Stares were perfect in their respective numbers and the audience, although small, signified their appreciation in a very hearty manner. Mr. Brethour's cornet playing was a unique feature of the evening and quite a treat to a Jarvis audience while the dancing of of Mr. Gordon Flett contributed largely to the success of a most enjoyable evening. No doubt should this Company return they would be greeted with a very much larger audience.

Death of Mrs. Park.

Deep and general regret was felt in town last week over the death of Mrs. Ezra Park, which took place at her home in Hagersville on Wednesday of last week. Very few knew of her serious illness and her death came as a surprise to many. Mrs. Park had only been ill a few days with that dread disease, pneumonia, and from the first it was known she could not recover, thus she waited her end which came very peacefully.

Mrs. Park spent a few days here about three weeks ago, and no one thought at the time that, that would be her last visit among us, but truly the old adage is verified when we say, "In the midst of life we are in death." Her partner in life predeceased her about five years. About one year ago she sold her residence in Jarvis and moved to Hagersville. During her residence here she was much esteemed, was a good kind friend and neighbor, hospital and generous, and her death will be very much regretted by all. She was in her 70th year. She leaves to mourn her loss one daughter, Mrs. Simons of Hagersville, and one son, Bender, Niagara Falls. The funeral took place on Friday last to the Hagersville cemetery, services being conducted by Rev. Mr. Kelly, pastor of the Methodist church, of which deceased was a member.

A Handsome Christmas Box

The great advantage of the purchase of Canadian Government Annuities for their children should appeal to all parents, for the annual payments are so small that provision for their future may be made with little, if any, present sacrifice. For example, an Annuity of $100 payable at 60 may be secured for a boy who was five last birthday for an annual payment of only $4.75, or less than 10 cents a week, or for a total sum paid in of $261.25. In the event of the death of the child before he was 60, all the money that had been paid in with 3% compound interest would be refunded to his heirs. When the boy arrived at the age when he was earning for himself, he could carry his own contract to completion at a rate far below what he could have obtained at his then age. It is the custom of many parents to spend on their children at Christmas time amounts which at other times of the year they feel they could not afford, and too frequently are the purchases made of no lasting or permanent benefit. Would it not be a better plan to start each child on the road to the purchase of a Canadian Government Annuity, and continue the "Box" every Christmas until he was able to carry it for himself? The child if he lived would remember with gratitude Santa Claus' visits.

The following extract from a letter received from the Manager of one of Canada's leading Insurance Companies shows what he thinks of the Annuities propositions.

"In discussing the system of Government Annuities with my friends from time to time I have always frankly stated that in my opinion the benefits offered for the rates charged are exceedingly liberal, and that I do not know of any institution which would possibly afford to offer terms so advantageous. If the general working population of Canada were able to realize the favorable basis on which Annuities could be secured from the Government, there would be very few among the thrifty and thoughtful who would not take advantage thereof."

Information as to how the purchase may be made and of the cost at any age will be supplied you at the Post Office, or by the Superintendent of Annuities, Ottawa.
