

Garibaldi at the Fenestron—A Contrast.

(An Original Poem, from the Globe.)
Ashes to ashes! 'tis the hero laid
Beneath the gray old temple's portals shade.

PARNELL, THE LADIES AND THE BISHOPS.

Review of the Week's Work on Irish Affairs.

ADDRESS OF THE IRISH BISHOPS.

A London cablegram, dated Sunday, says: The interest of Londoners during the week has been divided between Asot and Westminster.

A democratic meeting was held in Hyde Park this afternoon to protest against the Repression Bill. Thirty thousand people were present.

RIVERS OF OIL.

Extraordinary Developments in the New Oil Fields.

A Novel Steam Engine.

Spokes of master mechanics, manufacturers, inventors, engineers and others were present.

OVER THE FALLS.

Thrilling and Fatal Accident to a Woman.

A Quebec telegram of last Sunday says: One of the most thrilling accidents which has occurred in this district for many years past.

The Woman Carried the Jury.

A woman in New York was recently seized for the price of a dress.

The Fruit Market.

The box fruit of the steamer Siskiwit was sold in Boston at auction.

A Courier from Patrick County, Va.

Arrived in Danville for said. He reports that thousands of people are starving in that county.

Colored children in Putnam County, Fla.

found put a little child in a hole, covered it with earth, and forgot all about it.

It was decided yesterday to invite the Governor-General and the Princess Louise to open the Montreal Exhibition about the middle of September.

The latest addition to the Allan fleet arrived at Montreal yesterday.

At Mme. Murrietta's dance in London the other night over \$2,000 was spent on the presents or favors for the cotillon.

A MONTREAL BLAZE.

A One Million Dollar Fire—Wholesale Buildings Destroyed.

A Montreal despatch dated last (Tuesday) night says: A fire broke out this evening at 10:30 in the upper flat of the large warehouse of Robert Miller & Co.

THE LAND OF BONDAGE.

Another Outbreak Feared—Reinforcements to Protect the Europeans—The Late Riots—The Emperated Feeling.

Cairo advices of yesterday's date say: An Italian corvette has arrived at Alexandria.

A Spanish war vessel has been sent to Alexandria for the protection of Spaniards.

The Mediterranean squadron at Toulon has been ordered to get ready to proceed to Alexandria.

Owing to the sending of reinforcements to Alexandria, only 200 cavalry and half a regiment of artillery are left at Cairo.

The Khedive and Dervish went to Alexandria in the morning.

The Khedive and Dervish have arrived at the Rosetta Palace, which can be protected by the guns of the fleet.

A Cairo despatch says the work of exciting the populace is complete.

Papers have been distributed summoning the people to be ready at any moment.

The Italian Consul has notified all Italians to quit the country.

A correspondent at Cairo telegraphs that unless there is an overwhelming Turkish force at Alexandria before Sunday there will be a worse outbreak than last Sunday.

He says the prestige of Dervish Pasha has disappeared.

Among the victims of the riots are six Englishmen, one German, three Italians.

The Khedive drove through the Arab and European quarters at Alexandria to-day.

He expressed his regret at the British Ambassador's regret at the affray in Alexandria, especially at the wounding of the British Consul and the killing of the engineer of the Superb.

All last night prayers were said before crowds of fanatics and the tombs of the dead.

Europeans were in the streets, and the natives were much excited.

A proclamation, signed by all the consuls, is posted in the city, informing the Europeans that order has been established by the army, advising them to avoid disputes with the Arabs, and compelling them to carry arms.

The Governor has imprisoned between two and three hundred Arabs who took an active part in the riot.

Several Europeans are still missing. To-morrow over a thousand Europeans will leave Egypt.

An officer of the American ship Galena was dangerously wounded.

DEATH OF THE LATE LONDON CITY CHURCHMEN.

A last (Friday) night's London despatch says: Mr. John Brown, late City Treasurer, died this afternoon at 3 o'clock.

From the pistol-shot wound inflicted upon himself ten days ago.

Mr. Brown was a native of the north of Ireland, and came to this country about sixty years ago.

He first embarked in business in the hardware line in Montreal.

Not succeeding very well in this, he came to Toronto in company with Mr. now Sir Francis.

He stayed in Toronto a short time, and then returned to Montreal.

He was about fifty years ago, and what is now the metropolis of western Ontario was then only a little post village with a population of scarcely two hundred inhabitants.

He entered into the mercantile business here in partnership with the late Mr. Jennings.

The firm opened a branch in St. Thomas, of which Mr. Brown took charge.

He was in that place on the breaking out of the rebellion in '37, and subsequently moved to London, where, in 1854, he was appointed City Chamberlain.

He leaves a widow and three sons. He will be buried with Masonic honors on Sunday afternoon.

During the thunderstorm of Thursday.

Madame Estner Anger, wife of Narcisse Cote, was instantaneously killed by the electric fluid at St. Jean Deschamps, Que.

Deceased was 54 years of age.

The Protestant teachers of Montreal are out with a circular in which they take up the gauntlet for the school commissioners.

They ask the parents to exert their influence to prevent the prolongation of the holidays.

The French barquette captain Armande, of 200 tons register, Captain Germane, master, was lost on Saturday night on Dog-Island, near St. Pierre.

The barquette was returning from the cod fishery on the Grand Banks and had on board 900 quintals of cod.

The cargo, as well as the ship, is a total loss.

The night was dark and foggy, but the water was fortunately not rough, so that the ship's company escaped in their boats without accident.

The man Gilbert Meyer, who was arrested on Friday morning at Staatsville, near St. John, by Detective Flynn, of the G. T. R., for attempted train wrecking, has been sent to the insane asylum, it being evident that his mind is affected.

He made three distinct attempts, in a culvert, the second time he tied a piece of iron to the rail; and the third time he placed three ties across the track, and fastened them down with a telegraph wire.

A man named Collins was badly clabbet at Caniffon, near Belleville, on Sunday night by one Lindsay, a relative, who accused Collins of having seduced his wife.

Lindsay afterwards paraded the streets with a rifle, defying arrest, but was captured yesterday by G. McKimmon.

A colored man named Isaac McKenzie is in custody at St. John, N. B., for attempting to shoot his son.

He fired six shots at him because the boy took his mother's part in a family difficulty.

The intended victim escaped unhurt.

The French column under Gen. Jamsis has been obliged to retire from the Tripoli frontier in consequence of the failure of the water supply.

This has given an opportunity for fresh disorders between friendly Arabs and insurgents, and many have been killed on both sides.

Prince Henry, son of the Crown Prince Frederick William of Prussia, will be on October proceed on board the corvette Olga to the West Indies and America.

Seventy girls from Glasgow arrived at the Marchmont House, Belleville, Saturday night.

James Stevenson, of Tilsonburg, was killed by lightning at Austin, Sanabria county, Mich., on Saturday.

Three men standing near him at the time were shocked severely.

On Thursday night a man named Gao, their, of St. Albans, Vermont, who has been some time ill, died in the care between the stations of Grandville and Deschambault, Que.

LIFE IN MANITOBA.

A Westworth Farmer's Experiences on the Prairie.

I have delayed writing you longer than I expected in consequence of the floods that have stopped the mail from this place until about a week ago.

The Souris River was so high that the ferry could not be worked, but we are in communication with the outside world again.

We have had rather a rough time of it from first to last, but it is a new country and we must not expect all easy times.

The winter was very fair; I did not suffer with the cold although on the road most of the time.

The thermometer went to 35° below, but about 9 o'clock the sun would warm the atmosphere so that I could travel quite comfortably.

I think the winters will be very fair to live in here, as we can get wood, all go long journeys, and be sure of good sleighing all the time from November to April 15th; no mud as in Ontario.

We commenced breaking on the 1st of May, and some of the people sowed their grain, but we have had more rain than I expected from the reports of this country in Ontario.

The trails, as the route are called, are very soft yet, and as reports say we are to have rain in June, we may expect soft trails for some time.

Any person coming here should come so as to arrive here about the month of June, as the pasture will be good and the weather mill. I have paid as high as \$18 per ten for the best of the country.

It is not to be had at any price. With a large tent two or more persons can commence ploughing, and it is best for two to take a section and live together in a tent.

In the month of July the hay is to be secured, and all the breaking that is not done by the first of June.

Not having any harvest the first year, they can give their attention to building for the winter.

The roads will be hard, and they can go long distances for lumber and logs, as some will have to do.

I have five miles to go from my location. I have twenty miles for lumber—\$20 to \$25 per thousand; potatoes, \$1.75, wheat, \$1.00, the same, and to go thirty miles for them.

In so far as the climate and the soil are concerned, I rather like it, and I think with the addition of plenty of coal, we could live very well west.

I hope we will have good before many years, as the soil is very rich, and the water is good.

Horses are dear and scarce, \$200 to \$250 for a pair of oxen. The rush of emigrants is still coming in.

On Appleton district, and some land north of the Turtle Mountain district has been taken up to range 28 to 29, with a view of settling there.

The Moose Mountain is reached. In some parts of the prairie there are a great number of ponds of water, sometimes such that people who took their homesteads in the winter are leaving them.

Joseph Clarke, Langley, Man., May 21st, 1882.

THE INTRODUCTION OF DR. WHEELER'S COMPOUND.

Phosphates and Galvanic are a popular remedy has given great satisfaction on account of its perfect reliability in restoring the feeble to health, and absolute freedom from any dangerous properties.

It is said by physicians and chemists to be the finest preparation in the world, and is agreeable to the most delicate stomachs.

It is the most precious child of a virtuous adult, and no one takes it without benefit on account of its exciting the functions of nutrition.

Can you see the lady in the house? "Well, yes, you can if you ain't blind!" snapped the woman who had answered the bell.

"Oh, beg pardon, madam, you are the lady of the house?"

"Yes, I am 'Squire'—d'yer take me for?" Did you think I was the gentleman of the house, or the next door neighbor, or one of the farm hands, or the cat, or the ice-chest?"

"I didn't know, madam, but you might be the 'Squire's' daughter."

"Oh, did you? That was natural, too," replied the lady of the house.

"What d'ye want, sir?"

"Then the pedler displayed his wares, and when he left the door-step half an hour later his face was full of pleasure and his pockets were full of money.

He understood human nature and had made a good sale.

A timid Cincinnati woman whose husband was at the hospital sick with the cholera, through the telephone, for fear of catching the disease, and made a person at the central office do it for her because he was a man, and "it isn't so awful for a man to catch the small-pox."

According to the Rev. Dr. Talmage, heaven will be a mere continuation of earth, and men and women will continue to follow the pursuits to which they were addicted in this life.

Many a good square man loads round the corners till he goes home at rye tangles.

It is probable the militia camps will not be held until September.

Mr. Dwight L. Moody, the evangelist will remain during this month in Glasgow where his son is at school.

Mr. Sankey is now travelling in Germany with his son, for the benefit of the latter's health.

Yesterday afternoon several Russian agents made a disturbance at the Relief Office, New York, charging the society with stealing money donated for them.

A policeman attempted to eject the Jews, when they assaulted him. The policeman clubbed two of them severely, arresting a third.

Delegations from the Italian societies of New York have memorialized yesterday at the old house where Garibaldi lived, at Clifton, L. I. Fred. Bachman, brewer, who owned the house and grounds, made a present of them to the Italian societies, on condition that Menotti Garibaldi, a former partner in the candle-making business, who now occupies them, shall not be disturbed by no means.

The Italian societies are greatly delighted with Bachman's action.

The most talked of matrimonial engagement of the season in Washington is that of Archibald Forbes, the noted English correspondent, to Miss Lulu Meigs, the only unmarried daughter of the recently retired quartermaster general.

Mr. Forbes is a martial looking fellow, with Auburn hair, keen grey eyes and a deal of dash about him, and his affianced is tall and slender, with Auburn hair and brown eyes.

In his sermon of Sunday morning Henry Ward Beecher said: "Early marriages are the salvation of young men, and if a young woman doesn't love you enough to go down and live humbly with you and help you to work your way up she doesn't love you—leave the torments to somebody else."

We hear of a remarkable search that has been made in the interest of the West Shore Railroad. The strip of land wanted at the usual price per acre, came to the sum of one dollar, while the clerk's fees for making the search amounted to forty-two dollars.

Try a wet towel to the back of the neck when sleepless.

While playing a game at the Island bowling alley at Hanlan's Point, Toronto, on Saturday, a man named Nelson Martin slipped and broke his leg below the knee.

ONTARIO BOARD OF HEALTH.

New Facts as to the Prevalence of Certain Diseases.

The Ontario Board of Health met Tuesday afternoon at 2 o'clock in the Parliament Buildings, Toronto.

Present: Dr. W. O. Wright, Chairman, and Drs. W. C. Government, J. J. Cassidy, J. B. Shaw, and Dr. P. H. Bryce, Secretary.

The visitors were Dr. John Avery, delegate from the Michigan State Board of Health, and Dr. T. E. White, Secretary of the Ontario Medical Association.

A disease report scheme was discussed as to length, the object of the scheme being to collect, as possible, weekly reports from doctors in different parts of Ontario containing first, a list of the cases attended by them and the diseases treated, and second, the severity of the disease, and third, its prevalence.

It was also agreed that a weekly compilation of the reports be made by the Secretary of the Board, and that the communication with medical men for the purpose of securing their co-operation in the scheme.

A diagram was exhibited, showing the effect that ozone—oxygen—had upon certain diseases, both as to their frequency and severity.

It was shown that the frequency of cases of diarrhoea, while the maximum of cases of pneumonia, diphtheria and other throat and lung diseases were shown to occur under such atmospheric conditions as showed an excess of ozone.

This is entirely different from the opinion generally entertained in reference to diphtheria, which was supposed to be benefited by the presence of active oxygen in the air.

The subject of the inspection of emigrants in order to guard against the introduction of smallpox and other contagious diseases into cities was discussed, but was deferred until the next meeting.

Dr. W. O. Wright, Chairman, said: "I have yesterday seen a wretched tied a tin kettle to the tail of a Fallon dog. The dog started off with the kettle about 3 feet from the ground, and after running up to Park City, where he was to be put, came back in the evening without the kettle, and very much fatigued. The guests at the Cliff House extended their consolation to the dog, who was manifestly in need of sympathy.

Everything went well with the dog until about 3 o'clock, when a lady from Jubah was going to play 'The Irish Patrol' on the piano. She played the faint, weird music of the opening bars, when the dog began to prick up his ears.

The girl strolled by degrees into the heavier staccato passages which indicate the near approach of the advance guard, and with a wailing cry of alarm, she ran through the window, taking cash, pants and all, under the peculiar impression that the tin kettle was upon her, and upon him from the rear. The dog ran into the Jordan and strolled by drowning.—Salt Lake Tribune.
