Introductory

It is with pleasure that we present to our readers and advertisers our first issue of the JARVIS RECORD nnder the new management, and we take this opportunity to invite your co-operation in making the RECORD second to none in Haldimand county.

Our aim is to publish a clean, breezy, up-to-date weekly newspaper that will be welcomed in every household. However, in order to accomplish this we must have YOUR support. And since this enterprise is backed by local finances we feel confident it will be your desire as well as pleasure to render every assistance possible in making the RECORD a success.

We want more subscribers, we want more advertisers, and that little motto—DO IT NOW—ought to appeal to you if not already a paid up subscriber.

A word to the merchants! Do not let it be said of you like the storekeeper who complained to Mark Twain that he found a spider in his newspaper, to which Mark Twain replied: Very likely the spider knew you did not advertise and intended making his web on your front door. Good clean, snappy adversising pays, and the merchant who doesn't use our advertising columns may find the spider weaving his web across his front door.

You ask—what's going to be the policy of the RECORD? First and foremost is to print clean news of local and nearby interests. Our political policy will be strictly independent, supporting candidates of known integrity, both nationally and locally, at the same time supplying our readers with current political discussion from time to time.

We have a column devoted to local happenings and we earnestly invite you to supply us with data that will be of interest in the community; or should you hear of anything worthy of publishing do not hesitate to notify us. We'll gladly print it if truthful.

You understand that this newspaper is published for you—our subscribers—and it is our desire to make the RECORD, through your co-operation, the leading weekly in the county, hence our appeal for support, not only as a subscriber but as a so-worker. The population of Jarvis and surrounding country ought to rally to this splendid opportunity because much good can be done through the columns of the JARVIS RECORD, as it will bring us closer together by keeping all of us in touch with current events—commercial and political.

Show us your heart is in the right place and that you're a booster for Jarvis and the RECORD by sending in your subscription at once—to-day is a good time.

Caledonia is re-organizing their baseball team for the coming season and are desirous of forming a league composed of Cayuga, Hagersville, Caledonia and Jarvis. This would make a compact league, and, though a little early, we have no doubt Jarvis would be willing.

Boost your town, boost your friend, boost the lodge which you attend, boost the street on which you are dwelling, boost the goods that you are selling, boost the people round about you; they can get along without you, but success will quicker find them if they know you're behind them. Boost for every forward movement, boost for every new improvement, boost the man for whom you labor, boost the dweller and the neighbor, cease to be a chronic knocker, cease to be a progress blocker; if you'd make old Jarvis better, boost it to the final letter. Just Boost.
