THREE MONTHS' SCHOOL AGRICULTURE & HOME ECONOMICS

Held at Jarvis From November 29th 1927, to February. 24th, 1928

In this era of progress young men and women realize that it is necessary to take advantage of every opportunity of farm and home education such as the above Course brings to the heart of the Jarvis community. Last year the Course was held in Dunnville. Fred Newman of Dunnville, was one of the 59 young men who attended the School. After the Course was over he expressed his opinion as to the value of the School in an essay on "What I Learned at the Class in Agriculture in Dunnville."—

"The classes in Agriculture in Dunnville have been most instructive. I have received much benefit from them. In Farm Mechanics, I have learned the working of different kinds of deep well and shallow well pumps, the uses of force pumps and pressure tanks, the value of a convenient farm water supply system, how an inexpensive kitchen system of hot and cold water can be installed, the value of steam heating and the proper heating system and ventilation of the home. the value of a septic tank, how it operates and how to install one. I also learned the fluxes to be used in soldering the different metals and how to solder them. the difference in pipe fittings and how to order them, how to sharpen and use all kinds of farm tools, how to lace belts and to make the different rope splices."

The above is only one paragraph from a 3-page essay on what this young man learned at the School. This goes to show that young men cannot afford to let this opportunity pass by without taking advantage of it. Therefore, decide to attend the School and mail your name and address to the Agricultural Offire at Cayuga.

Similar extracts could be quoted from essays written by students of the Home Economics Class, but time and space will not permit.

The total enrolment up to November 9th is 52 students—28 girls and 24 boys. Their names appear elsewhere in this issue.

ROBINSON BUSINESS COLLEGE NEWS

At Waterford

Hart Van Loon of Boston resumed his studies at the College last Monday, entering our Stenographic Department.

Alice Persall of Bealton entered on the same date for both Commercial and Shorthand Courses, and Helen Ewing began a Secretarial Course.

Miss Helen Camfield, an ex-student, after spending a month in Mr. Robinson's office, has accepted a good position with General Motors, Ltd., of Hamilton.

We have lost Ross Smith for a period of three or four weeks as he has gone to act as Junior Assistant in the Niagara Business College during the absence of a teacher through illness.

Mr. E. S. B. Moore, Photographer of Simcoe, recently took a splendid picture of this year's class, and most of the students are placing their orders for them.

Great preparations are being made for the Annual Robinson "At Home" to be held for the students of all six Robinson Schools on Friday afternoon and evening, November 25, in the Arcade Building, Brantford. A special L. E. & N. car is being chartered for all those desiring to attend from Simcoe and Waterford. The evening's entertainment will open at 8:30 for the public.

New students may enter our College on any school day. Do not wait for any special announcement, but come just as soon as you can. Telephone 98, or communicate with the Principal, O. U. Robinson.

JUNIOR FARMERS' VISIT WILL NOT BE DULL

A Crowded Program Faces Youths Who Will Visit Royal Fair as Guests of Goversment

Three days that are brimful and flowing over with interest and entertainment are in prospect for the five hundred Ontario farm boys, ten of them from this county, who are to visit the Royal Winter Fair and the city of Toronto as the guests of the Ontario Department of Agriculture. Entertainment, but not merely that; everything on the crowded program that has just been announced by R. S. Duncan, Director of Agricultural Representatives, who is supervising the arrangements for the trip, is there for a purpose. At the Royal Fair the boys will see, for one thing, the "Jubilee of Agriculture" exhibit which the Dominion Government and the different Provinces are staging to show in a striking way the progress that has been made in the Dominion's greatest industry since 1867, and to demonstrate the amazing variety of high quality live stock and farm produce raised in Canada today. In the show ring they will watch judges of international reputation place pure-bred animals from nine Provinces and many States. It will give them lasting ideals of the types that the foremost breeders are striving for, ideals that will influence their own plans for the home farms.

Live stock, grain and seeds, fruit and vegetables, poultry, rabbits and foxes, dairy produce and honey—they will see them all. On the first night they will pass in review before Lord Willingdon, Governor-General of Canada, who will open the Fair, and for the rest of the evening they will watch horses from the finest stables on the continent take the jumps under skilled riders.

More than all this, they will have
