The news has spread rapidly over the surrounding counties, and it is thought that the little church will not be able to hold the congregation. Mr. Pridgins is thought by some to be very eccentric, but is considered by his neighbors one of the smartest men in the county. He has been a minister of the gospel for many years and is extremely popular in his neighborhood. His mind is perfectly clear on all subjects, and he is unusually well informed for a country preacher. He desires that the press reporters be present at the funeral to occupy seats in the amen corner. It is thought that he will then retire to his home and lead a quiet life until the time comes for him to occupy his coffin for good. No pall-bearers have yet been selected, but all arrangements will be made for the funeral before the eventful day arrives .- Atlanta Constitution.
