Why You Feel

blood is impure. As well, expect the sanitary condition of a city to be perfect with defiled water and defective sewerage, as to expect such a complicated piece of mechanism as the human frame to be in good order with impure blood circulating even to its minutest veins. Do you know that every drop of your two or three gallons of blood passes through the heart and lungs in about two and a half minutes, and that, on its way, it makes bone and muscle, brain and nerve, and all other solids and fluids of the body? The blood is the great nourisher, or, as the Bible

"The Life of the Body."

Is it any wonder, then, that if the blood be not pure and perfect in its constituents, you suffer so many indescribable symptoms? Ayer's Sarsaparilla stands "head and

shoulders" above every other Alterative and Blood Medicine. As proof, read these reliable testimonies:

G. C. Brock, of Lowell, Mass., says: "For the past 25 years I have sold Ayer's Sarsaparilla. In my opinion, the hest remedial agencies for the cure of all the diseases arising from impurities of the blood are contained in this medicine.'

Eugene I. Hill, M. D., 381 Sixth Ave., New York, says: "As a blood-purifier and general builder-up of the system. I have never found anything to equal Ayer's Sarsaparilla. It gives perfect

Ayer's Sarsaparilla proves equally efficacious in all forms of Scrofula, Beils, Carbuncles, Eczema, Humors, Lumbago, Catarrh, &c.; and is, therefore, the very best

TO EDITOR RECORD.

SIR. -In your last issue Mr. Bourne says "he had no intention of being drawn into newspaper controversy by me. He may rest assured he can come to no harm by it so long as he has right and truth on his side. I however remind your readers that I have said nothing to attempt him into a discussion. Ex Officer in your issue of February 14, seemed desirous of representing him as a much injured, innocent man, when in reply I first referred to him, to show he had taken part in policical work.

With regard to the twelve cents allowed as the outside charge on each appeal. I can refer him to the statute, but retrain from doing so as I do not either desire controversy with him. I may however say that there was no idea of fraud or swindling imputed to Mr. Bourne by my questions in your issue of 4th April. It must be remembered that the public acts, of public men, are public property and as such are always open to fair critici m.

With regard to his supposed error in my notes. I stated squarely three men's names all now living in the Township, one of whom writes in your l st issue and who if he had any politics would not be a Reformer. Yet he does not say his name was not struck off by the Judge, or so ordered by him. I have the list beside me signed by This powder never varies. A marvel of the Judge and his name is not struck off, purity, strength and wholesomeness. More the list is Mr. Bourne's writing. Why then economical than the ordinary kinds, and can- is the name not struck off? Lafayette Dennis and William Wright live near tude of low test, short weight alum or Cheapside, they were orded on, if not, phosphate powders. Sold only in cans, their denial could not easily be obtained, why were they not put on? This quoting the Judge counts for little as he trusts to the Clerk keeping the record correct.

There is neither reason nor excuse for the etters now being written. When I began this subject in your issue of February 1st I did not separate the Township Officers from the Council who were the real and responsible officers, all of them active workers in the Conservative party, they used their office to betray the trust reposed in them by the ratepayers, and paid their officers at lavish rates, to carry out their lawful be-

Tory Treasurer first dragged in the names of those officers who have been mentioned. He a man professing to have a liberal educa tion sprang into this correspondance as the Champion of the Conservative Cause. Let any one read now his first letter in your issue of Feb. 8th and see with what a thourish of high flown language he stepped into the arena, and now after dragging their Cause through the dift, see what a con temptible figure he cuts as he steps out. He has more than once used the words "blundering" and "incapacity" of the Council and its nomines, if he had gone a step farther and said what these words neaht, he would have had his answer, but perhaps he is reserving this for his next great speech at the municipal nomination, so that he may not be as at the last, when lastfor want of better material he was reluced to the necessity of drawing his language from the slums.

His remarks about the Town Lines and Bridges prove nothing. The Oswego creek at the place the bridge is built is over 100 feet in width, so the County had to build it. Hence it was compulsorg and not per missive, this does not affect my charge as to the increased expense to us of this Town Line arrangement made by the Reeves of
