Is a children's radio personality with fans from six to sixty and from coast to coast. Just Mary and Maggie Muggins two of her program-creations, have become institutions of national renown. They were started for little CBC listeners, but turned out to have a much wider appeal. In fact, it was soon apparent that hosts of "large" listeners are big in age only. "Just Mary" Crannan is seen in this picture with some of her young admirers among the hundreds who turned up at a recent autographing party given in Toronto to introduce her latest book—"Happy Playtime." Two of her weekly CBC programs are heard on the Trans-Canada network. They are Just Mary at 1.15 P.M. Sundays and Maggie Muggins at 5.30 P.M. Wednesdays. The third, called Sarah and Peter, is heard on CJBC (Toronto) at 10.30 A.M. Saturdays.

Considering the enthusiasm with tiaordnary to note how many people which everyone has been demanding are beginning to hope that prices a decrease in prices, it is rather ex- will not go down too suddenly

INCREASED SCHOOL GRANTS

Increased school grants for 1949 were announced recently by Education Minister Dana Porter. The Ontario government will distribute an estimated $36,500,000, an increase of ten per cent over 1948 grants.

Calculation of the grants has been simplified. They are to be paid on a straight percentage basis of the approved budgets of school boards.

Grants to urban public and sep arate schools are scaled according to population. For instance municipalities of 100,000 receive twenty-six per cent; those of less than 2,500 get fifty-five per cent. Rural public and separate schools receive grants based on assessment per classroom. Grants range from eighty-nine per cent of school board's budget when the assessment is under $30,000 to forty-five per cent where the assessment is at least $80,000 per classroom.

Grants to collegiates, high schools and grades "A" and "B" continuation schools are based on the rate while vocational school grants are computed on total salaries of teachers.

BUTTER TROUBLE

Spread of margarine on the Canadian butter market is causing worry in the ranks of the National Dairy Council.

In a brief submitted to the council last week, the Council called on government to convene a Dominion-Provincial conference immediately to clarify the future of the $500,000-a-year butter industry.

Such a move has not been made since 1918, but there was a hope in the Council for an examination of over-all supply and demand position of milk and milk products and ways and means of encouraging additional consumption.

The Council wanted the government to begin steps for a separation of the Dairy Industry Act under which the sale, manufacture and importation of margarine have been banned.

It wanted the government to go even further; to probe the Food and Drugs Act and regulations and provincial legislation relating to the dairy industry.

It wanted the government to examine its various research and dairy down means of solving and co-ordinating "this important work."

"The problems confronting the dairy industry - representing $500,000,000 a year and reaching hundreds of thousands of farmers - are of an even more complex nature and can be resolved satisfactorily only through co-ordination of actions and action by the industry and governments," the Council said.

PALM SUNDAY

Palm Sunday should be the beginning of a week of heart and mind preparation for the coming of Easter. Good Friday should be the climax of that preparedness. Our Prayer Book says that all members of the Church must be present on Easter Sunday if possible "Every Parishioner shall communicate at least three times in the year, of which Easter to be one, and every Parishioner shall contribute regularly of his substance to the maintenance of the worship of God; accord as God shall prosper him." Page 291, Book of Common Prayer. To this your Church calls you, and especially those who have been neglectful of their Worship of God.

SERVICES ON SUNDAY
