On The Farm Front

The organic matter content of soils is always a vital problem and especially so in Haldimand County where our soils are fine textured. It is generally agreed that soils high in humus are more productive, largely because they promote soil bacterial growth, increased water holding capacity and reduced loss by erosion. The problem is to increase this humus level in our soils here in this county.

—o—

In this connection the results of an experiment in Wisconsin comes to light now and they are rather interesting as they point up some of the recommendations that have been made in this column. Some five different methods were employed including the use of barnyard manure, plowed down and applied to the surface alone and in various combinations. The method that seemed to give the best results was barnyard manure plowed down with 8 tons per acre applied on two-year hay before fall plowing. The other method that seemed to be reasonably successful was a combination of green manure plowed down and barnyard manure applied on the surface. It will be noted that barnyard manure figures in both instances.

To make manure of even greater value many farmers are fortifying it by using phosphate in the gutters and Davidson at the plate. Not only does this act somewhat in the manner of a cleaning agent and as well improves the general appearance of the stable but it adds plant food to the manure. It so happens that manure is normally low in phosphorous and by following this practice the manure becomes a better balanced fertilizer. It is not recommended that lime be used on the floors and in the gutters of stables as it has a tendency to release the nitrogen in the manure and this goes off in the form of amonia gas.

—o—

Agricultural limestone can be applied to the soil with manure but in that case it should be placed on the spreader as it is going to the field. Where this is done and the manure is worked into the soil there is little loss. If you do follow this method and you apply 100 pounds of limestone per load of manure and you apply 10 loads per acre you will be putting on 1,000 pounds or one-half ton per acre. In Haldimand County this would hardly be enough as in most cases where it is needed the recommendations are for two to four tons per acre.

Caledonia Men Win Lions Club Car Draw

BRAD MACMILLEN IN HOSPITAL

His many friends were sorry to learn that Brad MacMillen was taken to hospital on Sunday, after suffering a heart attack on Saturday night. Mr. MacMillen had been making excellent recovery from an attack earlier in the year and had been able to resume many of his former activities. He is in St. Joseph's hospital in Hamilton.

Former Sheriff Marks Birthday

R. P. Miller former Sheriff for Haldimand County, and one of its oldest citizens, celebrated his ninety-first birthday yesterday. Mr. Miller lives retired in Cayuga and enjoys fairly good health. He has been a resident of South Dakota, Buffalo, Dr. Harold Miller, of New York, Bruce, of Toronto, Mrs. Park Lafferty, of Toronto, Mrs. Hugus and Mrs. Howard Barrey (Ruth) of Hamilton.

George Lang and J. H. Cummings, of Caledonia, were the joint winners of the 1956 Plymouth car which was drawn for at the Jarvis Lions Club Turkey Jamboree and car draw on Saturday night. The winning ticket was sold by Ernest Craddock, of Jarvis.

Nearly three hundred people were in attendance for the annual jamboree, and one hundred and ten turkeys were carried home by the winners. For some reason the program was not carried through with the usual dispatch and as a result it was nearly eleven-thirty before the draw for the automobile took place.

Ticket chairman Lea Marshall had the 300 tickets for the draw verified by Chief of Police Peter Banks before the draw and they were placed in a wooden churn. A little girl was picked from the audience to select the winning ticket. The ticket No. 10, was jointly held by the two Caledonia men.

The draw for the door prize, a 20 pound turkey, went to Mrs. Stella Buck, of Simcoe.

The Jarvis Lions Club wishes to express appreciation for the support given to this project.

Longer Billing For Minstrel Show In 1956

Since the Jarvis Lions Club presented their first Minstrel Show two years ago the people of the community have shown an appreciation for the effort that was hardly anticipated. Both last year and again this year the show was presented two nights and yet there were people who were unable to get seats. A move to remedy this situation was made on Monday night when the club voted to run the show three nights in 1956. In moving the resolution, Lion Ted Montague, the Minstrel Show Director, pointed out that many hours are spent in preparing for the event along with a considerable outlay for props and he felt that one more night should not be too burdensome to those taking part.

SKATING AT PORT DOVER

Skating at Port Dover will again be made possible for the children of the community through the co-operation of the Lions Club and Lundy & Henderson. If arrangements can be completed the usual Wednesday night skating parties will start early in the year. This project will be directed by the Boys and Girls Committee of the club.

NOMINATED FOR HALL BOARD

Lions Mac Steel and Fred Fish were nominated by the President, Bryce Lindsay, as representatives of the Lions Club on the Community Hall Board for a two year term, commencing in 1956.

NEW YEAR'S DANCE

Lion Drew Williamson and his committee are working on plans for a Sunday-midnight dance at the New Year.

TALK ON SALESMANSHIP

Lion Dave Hanks, chairman of the program committee, introduced Mr Jim McArthur, Sales representative of the Canadian Gypsum Co. of Canada, who talked to the club briefly before running a tape recording of a talk on Salesmanship deemed to be outstanding in its particular line. The talk, punctuated with rich humour, proved most entertaining and instructive to the club members.

HOME ON VISIT

Their arrival on Tuesday night came as a surprise to their parents, who had not been expecting them until later in the week.

Jarvis Splits With Fisherville In Second Start Of Season

Jarvis and Fisherville played to a one to one deadlock in the second games of the Erie League Hockey schedule played at Dunnville last Friday night.

G. Nagel and W. Gee combined to put Fisherville one up in the second minute of play in the first period, but from then on Dick Arnott stopped everything coming his way in the Jarvis nets.

Don Mitchell, with an assist from Willis Smith, evened the count at the four minute mark of the second period. The third period was scoreless, although Don Mitchell and Tom Saunders both missed excellent scoring opportunities.

The Jarvis team was without the services of both Johnny Edwards and Clarence Mitchell who, together scored seven of the nine goals credited to the team the previous week. Johnny has decided to play his hockey this year with the Port Dover Intermediates.

To offset the loss of the high scoring forward, Manager Gord Hazlett brought the old pro, Jack Phibbs, out of retirement to center the first line. Without the regular line-up, coach Gord Miller had to mix up his lines which may have accounted for the low scoring punch, but he is confident he can produce a winning combination for the game with Waterford on Friday night. A strong contingent of Jarvis fans at the Dunnville arena on Friday night of this week would also be a big help to the team.

The Jarvis Fire Department responded to a call at the home of Mr. Emerson Miller, Varency, in the Township of Woodhouse, shortly after noon on Sunday when a chimney fire threatened to get out of control.

After the flames were subdued, it was found that damage was limited to smoke which filled the house. The chimney burned fiercely for a time and it was found necessary to use some water to bring it under control.

The paint was flying on Monday night as the "A" Pack are completing their woodcraft. There are some pretty fancy looking bits of art in the Pack. Then again there are some - well - you name it and you can have it. All in all the Cub show real interest in any type of craftwork and can really be busy doing such work.

Twenty-two Scouts attended the tuesday meeting which was spent with a talk on winter camping. We hope to do quite a lot of winter camping in the near future and the Scouts are all in favour of it.
