A CARD—Gentlemen: It is not often that we write a card to the public, and unless there is an occasion of special importance never do. One of these occasions now presents itself. We have secured the services of Mr. Happle Hutcheson as cutter, who is favorably known in Hamilton, and in ordered clothing we are effering some hair lifters. If you want your dollars to do double duty come and see us. Men's business par ts 98c., competitors will ask \$3 Men's working pants marked down from \$1 50 Men's dress pants \$2 75, cut down from \$4 25

Late U. S. Consul to Italy, author of "The Glory and Shame of England," "America's Advancement," etc., etc., etc., writes as follows: -

New York, August 1, 1886. Dr. J. C. AYER & Co., Lowell, Mass., Gentlemen: - A sense of gratitude and the desire to render a service to the public impel me to make the following statements:

My college career, at New Haven, was interrupted by a severe cold which so enfeebled me that, for ten years, I had a hard struggle for life. Hemorrhage from the bronchial passages was the result of almost every fresh exposure. For years I was under treatment of the ablest practitioners without avail. At last I learned of

Ayer's Cherry Pectoral,

which I used (moderately and in small doses) at the first recurrence of a cold or any chest difficulty, and from which I invariably found relief. This was over 25 years ago. With all sorts of exposure, in all sorts of climates, I have never, to this day, had any cold nor any affection of the throat or lungs which did not yield to AYER'S CHERRY PRCTORAL within 24 hours

Of course I have never allowed myself to be without this remedy in all my voyages and travels. Under my own observation, it has given relief to vast numbers of persons; while in acute cases of pulmonary inflammation, such as croup and diphtheria in children, life has been preserved through its effects. I recommend its use in light but frequent doses. Properly administered, in accordance with your directions, it is

A Priceless Blessing

in any house. I speak earnestly because I feel earnestly. I have known many cases of apparently confirmed bronchitis and cough, with loss of voice, partien-larly among elergymen and other public speakers, perfectly cured by this medi-Faithfully tours. C. EDWARDS LESTER.

Aver's Cherry Pectoral,

Propared by Dr. J. C. Aver & Co., Lowell, Mass.

THOS. C. WATKINS. Hamilton, April 9th 1889.

A Fort Mouroe, Va., dispatch says hat farmers report heavy loss of stock from drowning during the late gale.

The French Chamber as Deputies has voted 10.000 frances to defray the expenses of the funeral of M. Chevreul.

By Wednesday's by-elections in Rhode Island the control of the next General Assembly is settled in favor of the Republicans.

The Centennial Committee in New York demand references as to the respectability of applicants for seats in the reviewing stands.

The Orangeville Presbytery has postponed for two weeks the investigation of the charges against Rev J J Dobbin.

Scrofula is transmitted from parent to child, and thus becomes a family inheritance for generations. It is, therefore, the duty of every scrofulous person to clense his blood by a thorough and persistent course of Ayer's Sarsaparilla.

Ostrich Farming in California.

Ostrich firming has proved so succesful ih South Africa that our Transatlanite cousins, always on the watch for some new means of developing the resources of their country, determined to try the same experiment in California, where the climate and surround ings were considerled to be extremely fitted for the purpose. Accordingly, in 1882, some birds were imported from Cape Town, and in 1886 and 1887 further shipments were forwarded from Natal. This last was made by Mr. Cawston, who landed forty-two birds out of fifty-two. They were then taken to Mr. Cawston's "Norwalk Ostrich Farm." in Los Angeles, California The voyage from Natal to Galveston, Texas, took seventy days, a ship having been chartered for the purpose, every ostrich having a separate padded box. Mr. Cawston has been successful in raising a large number of young birds. The climate and the country—as had been expected—ppe rs to be admirably suited to the culture of these birds. The experiment also appears to be fairly profit ble, as from one small bird and two hens he produced—principally by means of incub tion-eighteen chicks in one se son. Before they were ten weeks old he sold them for 871., some going to Arizona, where a farm is being est blished, and others being purch sed for echibition purposes. In addition to this the feathers will realize tree near Berlin when it struck him on 501., making a total result of about 1401., from three birds. Ostrick feathers, we should mention, are protected in the have passed a resolution to increase east. United States by an import duty of 25 per cent, and, as the farm is close to large cities, good prices can be obtained for them. London Graphic.

The Wilson Scales.

We would call attention to the adver tisment of the Wilson scales. We seldom say anything in favor of articles advertised in this paper; but we cannot refrain from saying something in favor of the improved Wilson scales, because any person having anything to do with scales will acknowledge them as a true standard of correctness, and the largest concerns in the country are using them in preference to any other make. We would like every farmer to have one of them in his barn, and not take the word of the buyer every time he comes to I town to sell his grain.

France and China have agreed to connect the China and Tonquin telegraph lines, and thus establish communication between Saigon and Pekin.

The steamer City of Paris, sister ship to the City of New York, made the passage from Queenstown to New York

in 6 day 18 hours and 35 minutes. At Barrie Assizes Charles Hebner has been convicted of manslaughter and sentenced to seven years in penitentiary, in connection with the murder of Philip Morrian at Fesserton.

The Railway Age, of Chicago, presents tables showing that 666 new railroads lines, with an aggregate mileage of 53.436 miles, have been projected in the United States since January 1 last.
