Division Court Scene.

A case of peculiar interest engaged the attention of the court and jury four hours last Friday. Benjamin Newton sued Henry Davis for necessities supplied for the illegitimate child of Sarah Newton, daughter of the plaintiff. At the assizes last spring, on a criminal charge being brought against Davis, the jury disagreed, but Friday they brought in a verdict that Davis was liable for the necessities supplied the child.

Mr. A. H. Backhouse, solicitor for the plaintiff, held up the child to the jury, and in an almost tearful and pathetic manner, proceeded to point out the similarity of features between the child and the alleged father, but Judge Hughes held that the cases went so far as to accept such evidence as corroborative. However, the scenes and surroundings were painfully and beautifully touching, and the little smiling cherub was restored to its mother, after an experience, that we are glad to say, seldom falls to the lot of children—Aylmer Sun.

Advice To Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. The Wilson Scales.

We would call attention to the advertisement of the Wilson scales. We seldom say anything in favor of articles advertised in this paper; but we cannot refrain from saying something in favor of the improved Wilson scales, because any person having anything to do with scales will acknowledge them as a true standard of correctness, and the largest concerns in the country are using them in preference to any other make. We would like every farmer to have one of them in his barn, and not take the word of the buyer every time he comes to town to sell his grain.
