A Burglar Caught.

A despatch from Vanessa, Ont., of the 25th inst., says:—"Burglars were discovered in the store of Messrs J. & H. Bartholomew, of this place, at midnight last evening. Speedy alarm was given and a few of the residents were soon upon the scene awaiting the burglars' exit, which was speedily made through a back window. Mr. Henry Bartholomew succeeded in capturing one known as Sam. Jackson (colored), and had him forthwith conveyed to Simcoe jail, he having equipped himself with two revolvers, cartridges, tobacco, etc. The other, supposed to be white, made good his escape and is described as being about 22 years of age, slight build, height, five feet four to six inches, complexion light, with no beard, dressed in dark coat and vest, striped pants, hard felt hat. They gained admission through a window after first securing the necessary tools from the carpenter shop owned by the said parties.

Barnum's Circus Wrecked.

A despatch from Watertown, N. Y., of the 25th inst., says:—"The second train of the Barnum & Bailey shows was wrecked late last night about two miles and a half east of Potsdam while en route on the Rome, Watertown and Ogdensburg railroad from Gouverneur to Montreal. A broken axle was the cause. Thirty ring horses, including one of the four chariot teams, and two camels were killed. Six cars were derailed and two were telescoped, so that everything in them were crushed."

Barnum's partner, J. A. Bailey, was at the scene. He says it is difficult to estimate the loss at present, but it will be in the neighborhood of \$10,000. He thinks the loss of the day's receipts at Montreal will be about \$18,000, and some of the horses that were killed were valued at thousands of dollars each. Money cannot replace them, for two years are required for training them after the right kind have been secured. The number of horses killed was 24.

A later despatch says: "The trick ponies, which have attracted much attention, have suffered death in the accident, as did the \$7,000 stallion, which was driven by Mrs. Adam Forepaugh, jr. It is said that Mrs. Forepaugh wept bitterly and would not be consoled when she learned of the death of this horse. The pretty white mule, which also performed remarkable tricks, is among the lost. Seven of the eight chariot horses are also dead. There are about eighty head of live stock stabled and pastured near the scene of the wreck. These were taken from the derailed cars. Eleven men were taken out of the cars via the roof, there being no other way of egress for them. The roof was torn off and all the men were found uninjured.

"No thoroughly occupied man," says a great writer, "was ever yet very miserable." How about a man thoroughly occupied in dodging a dun?

Ernest Davis, of Walsingham, the young lad who was committed to goal for shooting another youth, John Rohrer, was admitted to bail a few days ago, to appear for trial at the Fall Assizes on 23rd September. His bondsmen were Charles Williams and Delos Davis, of Walsingham, for \$1,000 each.

There is a paper published in New York that is certainly a unique publication. It is called the "Printers' Ink," and its object is to teach its readers the art of successful advertising. Millions of dollars are annually spent in this country in advertising, much of which fails to bring satisfactory returns, because the advertising was improperly done. Perhaps the advertisement was badly written, or lacked conspicuousness; or may be it was inserted in the wrong paper, or at an unreasonable time. "Printers' Ink" aids the inexperienced advertiser by showing him how to avoid such errors, and by teaching him how to advertise so as to get the greatest returns for the least expenditure, which is the basis of successful advertising.

John R. Martin, Esq., of Cayuga, has written to "The Irish Times," advocating the shipping of Canadian cattle as 'stores' to the western ports of Ireland, instead of to Glasgow—that is, that the cattle should be shipped to Ireland lean, and fattened on the Old Sod. He points out that this would save 500 miles of sea travel, that the pasturage in Ireland is much better than in Scotland, and that it is much better to ship the cattle as "stores," than to ship them fatted, as in the latter condition the cost of transportation is greater, and they are more likely to be injured by the voyage. Mr. Martin discusses the question of return cargoes, and suggests fire clay and cargeen, or Irish moss. The latter article, he says, is worth less than a pound a ton in Ireland, while its value in Canada is ten times as much.
