After 50 years of making your tire dollar go farther, it's still our way of life.

'Miracle' Polyester, they called this amazing fibre when it first came on the tire scene in the mid-sixties. Car-manufacturers quickly approved it for original equipment because of its cool quiet smooth-running performance, its stability and freedom from overnight set. The years have brought even greater improvements—both in the manufacture of the cord and in its processing as part of the tire itself.

Our Safety 99 4-ply Polyester offers you all these great advantages—plus wide tread, precise engineering and now, a low special price on an additional tire to bring you a spectacular two-tire offer. The one-tire price is already a stand-out regular value . . . but with the special price on the second tire and 5% discount for cash, you're really getting a buy. Hurry for yours while quantities last!

5-Year Road Hazard Insured: 32-Month, 32% Pro-rated 'Wear-Out' Discount Allowance
