COPYRIGHTS for books, charts, maps, etc., quickly attended to.
MUNN & CO., Patent Solicitors.
GENERAL OFFICE, 311 BROADWAY, N. Y.

KENDALL'S SPAVIN CURE
The most successful remedy ever discovered, as it is certain in its effects and does not blister. Read proof below.

OFFICE OF CHARLES A. SYDNEY,
BROOKLYN, N. Y., Nov. 21, 1888.
Dear Sir: I have always purchased your Kendall's Spavin Cure by the half dozen bottles. I would like to purchase more of it, but I find it one of the best medicines on earth. I have used it on my horses for three years.

CHAS. A. SYDNEY,
Your truly,
Rearranger Troy Laundry Stable.

KENDALL'S SPAVIN CURE.
DEAR SIR: I desire to give you testimonials of my good opinion of your Kendall's Spavin Cure. I have used it for Lumbago, Sciatic, Rheumatism, and Spavin, and I have found it a sure cure. I cordially recommend it to all horsemen.

A. E. CHURCH,
Manager Troy Laundry Stable.

BRADSTREET'S ESTIMATES the money losses by the recent floods in the United States, of which the Johnstown disaster was the most deplorable of all the consequences, at \$1,250,000,000. Of this amount \$30,000,000 fall on the Pennsylvania railway and the Cambrian, iron and steel companies.

KENDALL'S SPAVIN CURE.
DEAR SIR: I feel it my duty to say what I have done with your Kendall's Spavin Cure. I have cured two horses, horses that had Spavin ten of nine months. The cure was so quick and so good, it is highly prized by the ladies and less of his farm; it has saved many a farmer from the loss of dollars by checking the introduction and spread of contagious stock diseases. It has increased the receipts from our cereals by millions of dollars. Commended by City and County Councils and Agricultural Societies. Agents wanted. Sample copies free.
Price \$1 per annum. Address
FARKER'S ADVOCATE OFFICE,
London, Canada.

KENDALL'S SPAVIN CURE.
Price \$1 per bottle, or six bottles for \$5. All Druggists have it or can get it for you, or it will be sent free on receipt of the price by the proprietor. Do not be deceived by cheap imitations.

THE BEST IS CHEAPEST.
FARMER'S ADVOCATE & HOME MAGAZINE
Every farmer should read the leading and only independent publication devoted to his business. Thousands say there is none equal to it, and no dollar expended from the farm returns so much good. It treats on all branches connected with the farm, and is highly prized by the ladies and less of his farm; it has saved many a farmer from the loss of dollars by checking the introduction and spread of contagious stock diseases. It has increased the receipts from our cereals by millions of dollars. Commended by City and County Councils and Agricultural Societies. Agents wanted. Sample copies free.

Editor and Proprietor.

JARVIS RECORD.
WEDNESDAY, JULY 17, 1889.

CURRENT NOTES.

It was the sun that knocked Kilrain out—old man Sullivan's son.

Ex-President Cleveland was thrown out of the buggy at Sandwich, Mass., and badly shaken up.

Deposits in the post office savings bank exceeded \$22,000,000. In 1878 the deposits were less than \$3,000,000.

Why can't every man and woman be school teacher or scholar, and retire from business during the hot weather?

Mrs. Bonanza Mackay has brought action claiming \$5,000 each from the Manchester Examiner and the London Echo for libel for stating that her mother was a washerwoman.

Canada has in her the makings of a mighty empire, and would seem to be a good political policy, if it can be done, to tuck her under our national wing before she grows too big.—Boston Globe.

Canada will not welcome the colonization of Irish-Americans planned in Chicago. If they were permitted to settle in Quebec and attempt to fraternize with the French, two problems might be settled at once after the Kilkeny cat fashion.—Detroit Free Press.

History presents no finer example of heroism than was shown by the lady telegraph operator at Johnstown, who remained at her post until she had sent warning messages to all the towns below, and was then swept away by the torrent. She was "faithful unto death."

The Conservatives of West Middlesex have nominated Mr. James L. Hughes, public school inspector of Toronto, to oppose Hon. G. W. Ross at the approaching elections of the Ontario Legislature. Mr. Hughes says he will accept if the party nominating him adopts the Equal Rights Association platform.

A New York Herald special cablegram gives an outline of the crop prospects in the United Kingdom. In England and Ireland the outlook is very bright; an all-round average of from ten to thirty per cent. increase on the average yield of the last twenty years is looked for. In Scotland the crops may be up to the average, but much depends on the weather for the fortnight.

Sir Julian Pauncefote, British ambassador at Washington, has forwarded to the Department of Justice through the Governor-General a requisition by the United States Government for the extradition of Martin Burke, alias Martin Delaney, alias Frank Williams, for the murder of Dr. Cronin. The letter asks that when the required formalities shall have been complied with to his Excellency's satisfaction he will be pleased to issue the necessary warrant for the extradition of Burke and for his delivery into the custody of Mr. John Collins, who is duly authorized to receive him.

The reports of the presidents of our large banking institutions are always instructive and are capital business barometers. This season's reports all tend the same way and tell the same story. While they counsel prudence

they at the same time indicate cheering prospects ahead for business. Should there be good crops and gathered without damage, the country will witness a degree of prosperity this fall and winter much beyond what it has seen for some time. When the farmers and bankers are doing well almost everybody else is doing well too.

It is understood that the Government has proposed to the United States authorities, through the medium of the Foreign Office, that both Governments should consider the propriety of removing the import and export duties on lumber of all kinds, or in other words, that the Canadian Government will abolish the import and export duties on lumber providing the Washington authorities reciprocate. As an earnest of good faith the Dominion authorities have, meanwhile, reduced the export duty on pine logs from \$3 to \$2 per thousand feet, board measure, the figure at which it stood in November last, previous to the representations of the lumbermen asking for increase.—Ottawa Citizen.

Take Canada as a whole, and it has as successful and as prosperous a class of farmers as any country in the world can show. Their property is less heavily mortgaged than is farm property elsewhere, and Dominion and state debts bear lightly on them. The Canadian farmer buys his cottons, his woollens, his groceries, his farm machinery at lower prices than years ago, while his butter, his cheese, taken in the aggregate, bring higher prices than they did in the olden time. These are facts, and it is a miserable sort of mind which finds its pleasure in ignoring such facts, while endeavoring to create among the great body of farmers discontent with their lot, and to supply excuses for removing to a foreign country.—Montre 1 Star.

A Baptist congregation in Montreal is making a new experiment with faith. It no longer guarantees the salary of its minister. Collections are abandoned. Money for no purpose whatever hereafter is to be solicited. Drop boxes are put up here and there about the church buildings, and the rest is left to faith. Since its inauguration last March, the new scheme has worked satisfactorily. What an opening for the various denominations here to emulate a fitting example. One which might prove a true test of adherence, value of membership and desire voluntarily to sustain each particular church. However, ministers and their families have to live and dress as well as other folks, and probably the pastor in charge of the Montreal congregation may yet have cause heartily to coincide with the apostle Paul's definition of faith, to wit, the evidence of things hoped for, the substance of things not seen.

According to a recent publication of the Statistical Bureau at Berlin fourth of the steam machinery in the world has been constructed within the last twenty-five years. France has 49,500 boilers, 7,000 locomotives and 1,700 ship boilers; Austria-Hungary, 12,000 boilers and 2,400 locomotives. In the United States the steam machinery, exclusive of locomotives, has 7,500,000 horse power; in England, 7,000,000; in Germany, 4,500,000; in France, 3,000,000; in Austria-Hungary, 1,500,000. There are some 105,000 locomotives, with 3,000,000 horse power in the world. All the steam machinery in the world's possession 46,000,000 horse power. The one-horse power of a machine operated by steam is equivalent to the strength of three ordinary horses, and the strength of an ordinary horse is equivalent to the combined strength of seven men. From all this the Statistical Bureau at Berlin draw the conclusion that the steam machinery of the world does the work of 1,000,000,000 men, or twice the working population of the globe.

The Government has decided that the rate of interest to be allowed on deposits in the Post-office and Government Savings Banks shall be 3 1/2 per cent., a reduction of 1/2 per cent. as compared with the existing rate. When the 4 per cent. rate was adopted in 1868 money was worth about 5 per cent. in the English market. Since that time the rate at which money can be borrowed has steadily declined, and the last Canadian loan only cost with charges about 3 1/2 per cent. In view of this fact the Government is not justified in retaining the existing rate, and accordingly by virtue of the power conferred on the Government by the Act of last year, the rate is to be reduced. The total number of savings depositors with the Government on June 30 was about 160,000; the balance to their credit being \$41,000,000. By the proposed reduction of 1/2 per cent. the Government will save over \$2,000,000 a year a considerable item. The principal banks in Canada only allow 3 per cent. to depositors, but the policy of the Government is understood to be favorable to allowing such a rate as will induce the working classes to deposit where there is undoubted security, and it is hoped that the additional half per cent. will have that effect. The reduced rate of interest will go into operation on October 1.

JARVIS FOUNDRY.
