

A Radical Revolution.

A sale that will upset all methods of the past, an overthrow of storekeeping traditions, an abolition of all previous methods, the inauguration of a system that looks to the future and not to the past for facts to prove if the adventure be wise or foolish.

Summer on the Manitoulin Island.

TO THE EDITOR OF THE RECORD.

A long period of rainy weather has been succeeded at last by bright sunshine. Vegetation of all kinds is vigorous and the prospects are good for a most abundant harvest. There has been no frost to amount to anything and the only crop injured is the grasshopper crop, of which millions appeared in early spring, but are now completely wiped out. Hence our island may well be compared with the more famous "Emerald Isle" across the sea with its picturesque lakes and verdant hills and dales. Here happily however we have not the extremes of wealth and poverty. No evictions! The poor man's cow and pig running at large on pasture a foot in height must not be sold to pay rent, but are his to enjoy along with a store of other good things. Tourists and sportsmen are seen everywhere. A large party of Evangelists among whom are several talented ministers from different parts of Ontario and Michigan have arrived and pitched their tents on the shore of our beautiful lake and inaugurated

A GRAND CAMP MEETING commencing on the 3rd of July and it may well be conceived things are lively since their arrival. It is to be hoped much good may be the result. Plenty of fish and pure air seem to have a wonderful effect on the lung power of the party and the old familiar hymns of praise are heard miles away. Among the party we were pleased to make the acquaintance of Mr. Laing a brother of Mr. A. Laing the well known general agent of the Waterloo Fire Assurance Co. Christian people are no doubt divided in opinion as regards the "undue excitement" attendant upon such meetings, the strange medley of sounds heard from a distance, the prostration of many penitents brought "under the power" is an experience new to many. Yet we may hope that God in his infinite mercy will bless all efforts made in his name.

Here is another bear story for Jarvis boys. Mr. J. F. Smith, a neighbor, loaded his musket to shoot ducks, afterwards he put some buckshot down on top to shoot an eagle, but didn't. Hearing his dog making a furious noise one morning he put a large ball down on top of all and going out found two of his sheep killed by a bear and suddenly found himself charged upon by the furious animal, he had only time to raise his gun and fire when the animal fell dead at his feet. Mr. Bethel Croft of Allen township caught a large bear in a trap. He is a powerful man and a good shot and for the sake of novelty and change stood his repeating rifle against a tree and beat out the animal's brains with a club.

A grand gathering of Orangemen will take place at Providence Bay on the coming 12th July.

Yours truly,

Institution for the Deaf and Dumb

TO THE EDITOR OF THE RECORD.

DEAR SIR:—You have doubtless noticed in various newspapers articles stating that a Deaf-Mute variety of the human race is likely to be the result, in the near future, of the marriage of Deaf Mutes. From the information I have been able to gather up to this time, I have only learned of one deaf child in Ontario, (a little boy now about four years of age), whose parents are deaf and dumb. Of the hundreds of children who are now attending, or have attended, this Institution, there is not one congenitally deaf child who has deaf mute parents. I would like to obtain full and accurate information in regard to this matter, and if you or any of your readers know of any deaf-mute married persons, with or without children, if you or they will kindly send me their addresses, I shall feel obliged.

There are Deaf children of school age in the Province that I have not heard of and I am making an effort to get them into this Institution where they may receive an education that will fit them for the duties of life. The condition of an uneducated Deaf-mute is more deplorable than that of any other human being. Will you be good enough to help me to bring these children to school? You can do more than any

other person I might address. The parents of some are not aware that an Institution exists where their Deaf children can be taught to read and write. There are others who have heard of the Institution but are probably not acquainted with its real character, or from other causes, fail to send their children to us: these might be induced by a little effort to send them. Deaf children between the ages of seven and twenty are admitted, educated and boarded at the expense of the Province. It is only required that the child shall be of sound mind and that the parents, or the municipality if the parents are unable, pay the railroad fare and provide necessary clothing. Application papers may be had by writing to me at Belleville and any information required will be cheerfully supplied.

Yours faithfully,
R. MATHISON,
Belleville, July 1899.

Advice To Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. 16-1y

The Wilson Scales.

We would call attention to the advertisement of the Wilson scales. We seldom say anything in favor of articles advertised in this paper; but we cannot refrain from saying something in favor of the improved Wilson scales, because any person having anything to do with scales will acknowledge them as a true standard of correctness, and the largest concerns in the country are using them in preference to any other make. We would like every farmer to have one of them in his barn, and not take the word of the buyer every time he comes to town to sell his grain.
