

## Why You Feel

So weak and exhausted is because your blood is impure. As well expect the sanitary condition of a city to be perfect with defiled water and defective sewerage, as to expect such a complicated piece of mechanism as the human frame to be in good order with impure blood circulating even to its minutest veins. Do you know that every drop of your two or three gallons of blood passes through the heart and lungs in about two and a half minutes, and that, on its way, it makes bone and muscle, brain and nerve, and all other solids and fluids of the body? The blood is the great nourisher, or, as the Bible terms it,

### "The Life of the Body."

Is it any wonder, then, that if the blood be not pure and perfect in its constituents, you suffer so many indescribable symptoms?

Ayer's Sarsaparilla stands "head and shoulders" above every other Alterative and Blood Medicine. As proof, read these reliable testimonies:

G. C. Brock, of Lowell, Mass., says: "For the past 25 years I have sold Ayer's Sarsaparilla. In my opinion, the best remedial agencies for the cure of all the diseases arising from impurities of the blood are contained in this medicine."

Eugene I. Hill, M. D., 381 Sixth Ave., New York, says: "As a blood-purifier and general builder-up of the system, I have never found anything to equal Ayer's Sarsaparilla. It gives perfect satisfaction."

Ayer's Sarsaparilla proves equally efficacious in all forms of Scrofula, Boils, Carbuncles, Eczema, Humors, Lumbago, Catarrh, &c.; and is, therefore, the very best

in use. "It beats all," says Mr. Cutler, of Cutler Brothers & Co., Boston, "how

does sell." Prepared by

### Fire at Bowmanville.

DESTRUCTIVE CONFLAGRATION IN THE BUSINESS PORTION OF THE TOWN.

BOWMANVILLE, March 21.—One of the most disastrous fires that ever occurred in this district took place this morning, destroying the double brick block owned by Miss McClung, and occupied by McClung Bros., dry goods, Quirk & Co., grocers, J. M. Brimacombe, dentist, R. R. Loscombe, law office, and Chas. Russ's school of music; J. B. Fairbank's double brick block, occupied by R. Worth, hardware, and J. D. Davis, boots and shoes; J. Higginbotham's double brick block, occupied by Ellison & Co., dry goods, Higginbotham & Son, druggists, and S. E. Higginbotham, dwelling. The first flat of the latter block was not burned, but the rest is a total loss, together with the storehouses in the rear. The losses and insurances are as follows: Miss McClung's loss, \$12,000; insurance, \$10,000; McClung Bros., loss, \$15,000; insurance, \$15,000; Quirk & Co.'s loss, \$3,000; insurance, \$2,500; J. M. Brimacombe's loss, \$1,000; insurance, \$1,000; R. R. Loscombe's loss, \$800; insurance, \$500; Chas. Russ's loss, \$800; insurance, \$500; J. B. Fairbank's loss, \$3,000; insurance, \$5,000; R. Worth's loss, \$5,000; insurance, \$6,000; D. Davis' loss, \$5,000; insurance, nil; J. Higginbotham's loss, \$1,000; insurance, \$3,000; Ellison & Co.'s loss, \$2,000; insurance, \$7,000; Higginbotham & Son's loss, \$150; insurance, \$500; Dr. McDowell, whose office adjoined E. McArthur's block was somewhat damaged, as also was the dry goods stock of Thompson & Co. through removal from Mr. McArthur's block.

### The Charity Institution of Paris

In recent years, in France, conscientious efforts have been made to ascertain the principal causes of the loss of population, and it has been demonstrated by numerous facts that one of these causes consists in the physical degeneration induced by deficiency of aliment in infancy; and the most eminent physicians of Paris, and the Director of Public Assistance, have endeavored to modify and improve the system of nutrition in the public charitable institutions, providing for recently born children lactation adequate to the necessities of the temperament and constitution.

In the Hospital for Infant Diseases, situated in Sabres Street, there exists a section far rickety boys and girls, whose miserable aspect produces an impression of pain upon the mind—unfortunate beings who have inherited the organic vices of their parents, and who suffer from anæmia's cruel tortures.

The administration of the hospital is arranged into two separated pavilions, where there is much ventilation, with large windows that look out upon a garden, and whose walls have double rows of willow cradles perfectly equipped. The newly born receive here the personal care of the establishment, beginning with being weighed in the balance the same day they make their appearance, the operation being frequently repeated almost every month in order to determine with exactness the development of the child. The little one is subjected to an especially nutritious diet of the most tonic kind, if it had been previously fed from a refractory goat liable to convey contagious germs, it having been found by experiment that the milk of this animal, although possessing nutritive principles of the most salutary kind, presents the inconvenience of communicating by absorption the effects of

those nervous accidents to which the goat is subject.

The public charities of Paris, advised by the wise doctors of medicine, have substituted for the milk of goats that of the ass, and have installed an ample yard near the pavilion of the rickety and scrofulous children, which is only separated by a short covered passage-way. Nothing is more picturesque than the spectacle of the lactation of the babes in this inclosure every morning.

The nurses, dressed in dark gowns with white caps and aprons, each carrying a child on the right arm and a little seat in the left hand, present themselves in exact turn to the women who have charge of the animals, and they hold the child, applying its lips to the teats of the docile animal. The children suck with avidity the liquid nutriment, which is fresh and of agreeable taste.

The Administration of Public Assistance of Paris has calculated that one young ass is able to lactate abundantly for a space of nine or ten months, and when this period has passed they are sold and replaced by others. It is well known that the milk of asses, by its vitifying qualities and its nutritious principles, assimilates in a great degree the milk of the nurse, and these disinherited and sick children, enjoying its beneficial effects by its permanent and methodical use, are restored little by little to health and vigor.—La Illustracion Espanola.

### Part of Scranton Sinking.

SCRANTON, Pa., March 16.—Eight chambers in the fourteen-foot vein of the Central Colliery Company have caved in and the crush is still in progress. The damage that may ensue cannot be determined, as the cave-in is almost in the very centre of the Hyde Park section of the city. The convulsion is almost under Washburn street Presbyterian church, and the north of the edifice is dangerously pitched out of plumb and the ceilings are giving way. The residence of the pastor, Rev. J. Stearns, and that of Mine Superintendent Benjamin Hughes are thrown askew by the crush, and Wesley Lanning and others in the neighborhood. Much excitement prevails, as the cave-in gives every evidence of extendit.

### The Wilson Scales.

We would call attention to the advertisement of the Wilson scales. We seldom say anything in favor of articles advertised in this paper; but we cannot refrain from saying something in favor of the improved Wilson scales, because any person having anything to do with scales will acknowledge them as a true standard of correctness, and the largest concerns in the country are using them in preference to any other make. We would like every farmer to have one of them in his barn, and not take the word of the buyer every time he comes to town to sell his grain.

### An Aristocratic Scandal.

A MARQUIS AND HIS WIFE WASH THEIR DIRTY LINEN IN A DIVORCE CASE.

LONDON, March 21.—The marchioness of Donegall has brought a suit against her husband on the ground of cruelty and desertion. The marquis is 67 years old. The case was heard to-day. The marchioness testified that she was married to the defendant in 1865. She left her husband's house in 1872. Previous to leaving they occupied separate rooms. One night the respondent brought a friend home with him and dragged her from her bed into the passage where his friend was. Afterwards the respondent lived with a woman named Wright. The defence produced witnesses who testified that Lady Donegall had committed adultery with a groom employed by her husband and with another man.

LONDON, March 21.—The case against the marquis was dismissed. A counter suit brought by the Marquis against Lady Donegall was also dismissed.

### Her Brief Dream is Over.

MONTREAL, March 17.—About three weeks ago the 21-year-old daughter of Mr. Stewart, a wealthy man who resides in one of the suburbs of New York, eloped with her father's coachman, who was exceedingly handsome. The two had carried on furtive flirtations unknown to the young lady's parents and one morning the latter woke up to find their daughter had left the house and that the coachman had also taken flight. Pinkerton detectives were engaged on the case, assiduously worked on it and were successful Friday in locating the pair living together in the little village of Bord a Plouffe. The runaway couple were surprised to be discovered in such an out-of-the-way place but the young lady voluntarily offered to return home with the officer. She was repentant and regretted the step which has caused her parents so much trouble. After saying farewell to the coachman she came to Montreal in charge of the detective and took the first train for home. The man was not proceeded against.
