HAPPINESS OF THE OLD.

The Serene Contentment of an Old Age Human Fiends Wreck a Train and Hill Free From Envy and Selfishness.

I can see now that I should said, than to cast together the evils which commonly wait upon old age and thereby to prove that it is absurd to suppose that happiness can exist in the midst of them. But to return to the moral aspect of the latter. Is it not a fact that a good man's goodness increases as he grows older? There is nothing in the world more venerable and lovable than a good old man or woman. Surely that is much, for are not respect and affection just the two things ing part of our career? And they may be acquired by the aged without effort.

Edward Hanlan, the oarsman, and Edward Hanlon, the actor, have got into a peculiar tangle about a money transaction. It dates back to the time when the oarsman was about to leave for Australia to row Beach. Hanlan was to have received £100 from Beach for expenses. He received, however, £140 and could not understand how it came. The money, it appears, was really sent to actor Hanlon, who was not as well known in America just then as the oarsman. Actor Hanlon now seeks to recover the £140.
