### People Wonder

WHEN they find how rapidly health is restored by taking Ayer's Sarsaparilla. The reason is that this preparation contains only the purest and most powerful alteratives and tonics. To thousands yearly it proves a veritable elixir of life.

Mrs. Jos. Lake, Brockway Centre, Mich., writes: "Liver complaint and indigestion made my life a burden and came near ending my existence. For move than four years I suffered un-teld agony. I was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food discressed me, and only the most deli-cate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I began the use of Ayer's Saraparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I

in my condition, my appetite began to return and with it came the ability to digest all the food taken, my strength improved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life, and I cannot thank you too much."

"We, the undersigned, citizens of Brockway Centre, Mich., hereby certify that the above statement, made by Mrs. Lake, is true in every particular and entitled to full eredence."-O. P. Chamberlain, G. W. Waring, C. A. Wells, Druggist.

"My brother, in England, was, for a long time, unable to attend to his occupation, by reason of seres on his foot. I sent him Ayer's Almanac and the testimonials it contained induced him to try Ayer's Sarsaparilla. After using it a little while, he was cured, and is now a well man, working in a sugar mill at Brisbane, Queensland, Australia."—A. Attewell, Sharbot Lake, Ontario.

The twenty-four hour system, the plan whereby the hours of the day run from one to twenty-four, has been tried by the Canadian Pacific Railway Company with such success in the North-West that Mr. VanHorne hopes soon to apply it to the Eastern provinces. For lines of railway covering vast distances the new system is no doubt an advantage. It avoids the use of the "a.m.'s" and "p.m.'s" which confuse the traveller and make constant explanations neces-

During the course of the trial of Mormonism now in progress in the United States court in Salt Lake City much startling evidence has been given respecting the secrets of what is known as the Endowment House and the attitude of the Mormon hierarchy towards the Government and the law. One witness, who stated that he belonged to "the Melchisedec Order of the Mormon Priesthood," admitted that it was a doctrine of the Church that if a man apostatized he should yield himself up voluntarily to be killed for the atonement of that sin, and such killing would be perfectly Liwful. Another swore that the President claimed absolute control in all things, temperal as well as spiritual, and that in order that a man should be considered a good member of the Church he should obey the priesthood in all things. Perjury before a Gentile court, in the interests of the Church, is regarded at praiseworthy. All this and other evidence which has been given makes it imperative upon Congress to spare no effort to stamp out this lawless organization.

#### The Spider and the Fly.

Among the worldly goods of a certain farmer of West Nissouri is 3,000 feet of clothes line. The honest yoeman alluded to did not purchase it for home use nor did he think this time last month that he would possess during his lifetime so great a quantity of this useful article. It is the old story. The oily tongued agent and the too confiding farmer. Some two weeks since two SUBSCRIPTION -\$1.00 Per Year agents for a patent wire clothes line aping for a local agent to sell the greatest of modern inventions in the clothes line commodity and subsequently induced the farmer sign what he thought was an aggreement giving him the agency for a certain territory. A few days after a man with a waggon load of clothes line halted at the gate of the homestead. The farmer was wroth and refused the teamster admittance. The man knew nothing of the bargain, save that the farmer in question had signed and order for 3.000 feet of clothes line to be delivered at his residence. It was none but the teamster's business, he was only an employee and if the farmer persisted in his refusal to admit him he the teamster) would dump the whole cargo at the farmer's gate. There was no escape, however, and the 3,000 feet of clothes line was safely housed. It is reported that a Blanshard farmer was caught in the same way but not for so large a haul, viz., \$135, the amount of the order signed by the Nissouri farmer. -St. Mary's Journal.

"I have used Ayer's Cherry Pectoral in my family for thirty years and have always found it the best remedy for croup, to which complaint my children have been subject."—Capt. U. Carley, Brooklyn, N. Y.

"From an experience of over thirty years in the sale of proprietary medicines, I feel justified in recommending Ayer's Cherry Pectoral. One of the best recommendations of the Pectoral is the enduring quality of its popularity, it being more salable now than it was twenty-five years ago, when its great success was considered marvelous."-

R. S. Drake, M. D., Beliot, Kans. "My little sister, four years of age, was so ill from bronchitis that we had almost given up hope of her recovery. Our family physician, a skilful man and of large experience, pronounced it useless to give her any more medicine; saying that he had done all it was possible to do, and we must prepare for the worst. As a last resort, we determined to try Ayer's Cherry Pectoral, and I can truly say, with the most happy results. After taking a few doses she seemed to breathe easier, and, within a week, was out of danger. We continued giving the Pectoral until satisfied she was entirely well. This has given me unbounded faith in the preparation, and I recommend it confidently to my customers."—C. O. Lepper, Druggist, Fort Wayne, Ind.
