WHAT THE OUEEN AND PRINCESS WORE.

The bride wore a dress of white satin. with a train measuring some three yards in length and untrimmed, save for a bordering of satin folds. The front was completely covered with the finest Brussels lace, and a chatelaine of orange-blossoms fell over the folds at one side. In her hair she were a wreath of orange blossoms, under a veil of finest Brussels, the design of which matched that on her dress. In the front of her bodice she wore one spray of orange blossom and a sprig of heather which the Earl of Fife had taken to her that morning at Marlborough House. Her ornaments were pearls and diamonds. A high collar finished the bodice at the back, but was open V-shape in front, showing a necklace consisting of one row of beautiful pearls under the folds of the bridal veil. Her sleeves were of lace, unlined, through which the beauty of her arms could be discerned. Her bouquet consisted of white moss roses and maidenhair fern. Her eight bridesmaids were in pink of the precise shade of a moss rose, a reposeful and quiet tint. The materials of their dresses were silk and crepe-de-chine. The bodices were V-shaped, both in front and at the back. Sashes of pink moire ribbon were brought from under the right arm and tied at the back, where they fell to the very edge of the dresses. These were made with short trains. A small cluster of pink moss-roses was fastened in each bridesmaid's hair, at the left side. They carried bouquets of pink moss-roses, wore pink stockings, and shoes with paste buckles. The bridesmaids were: The Princesses Victoria and Maud of Wales, the Princesses Victoria and Louise of Schleswig-Holstein, Princess Victoria Mary of Teck, and the Countesses Victoria, Feodore and Helena Gleichen. Her Majesty marked the occasion by in-

troducing more white into her invariably sombre toilet than she has ever done before. richest black brocade, opening on a front circle, who required change and rest. For-The Oneen's train and bodice were of the of a black silk grenadine, embroidered in a was of magnificent white lace, edged with four rooms have been set aside for this design of flowers in white silk. Her veil a deep hem embroidered with a thicker purpose, and are most thoroughly appreversion of the design, and some white tulle was also used to trim the bodice. Looking, built for the lady nurses of the Sirhind exceedingly bright, happy and well pleased, the Princess of Wales wore a dress of gray satin, the color of the feathers of a dove's breast. The bodice and train were backed and brocaded with silver, the design being charge of a qualified lady nurse, Miss oxeyed daisies and marguerite foliage. The front of the skirt was draped with flatly ver in a closely woven, most effective de- short time only, it is to be hoped. Meansitting folds of grey tulle wrought with silsign. The bodice was made with a high while Lady Roberts trusts to be able to collar softly faced with silver-wrought supplement the Government nurses by tulle, which was carried in folds employing two or three more qualified and caught with a series of diamond stars, needed. Lady Roberts has been appealed getting gradually smaller towards the basque. Her Royal Bighness were a splendid diamond tiars in three divisions, in the and also to open hospitals in other hill thinking that fruit and diarrhoes are centre of each of which was one immense stations, but want of funds prevents any. always associated, when, if they underdeep-colored sapphire, the largest in the front of the tiara, and those at each side of scarcely less proportion. We are wearing our eyes over jewels. She carried a small bunch of dark paper. It is a canal sixteen miles long ing as emetics and purgatives. It is true books and desks and types, and the effects red roses. The shoes were of satin, matchbows. Princess Christian were a dress of from end to end. In Lancashire the coal bowel troubles; but use fruit that is on nerve and brain. I have discovered a the design raised in satin from a silk surface, and the edges of each flower outlined of pearls were used to trim the front and stomacher, and Her Royal Highness wore many magnificent diamond ornaments. Princess Louise (Marchioness of Lorne) wore a gown of white brocade, the design outlined and mixed with silver and gold. The front was of silk, with silver and gold ornaments. In her hair were many diamond ornaments and a high white osprey aigrette, in which sparkled many brilliants. Princess Henry, of Battenberg, wore a most effective dress of the prettiest and most becoming shade of heliotrope, the front of a paler hue, with diamond ornaments. The Princess Mary (Duchess of Teck), was gowned in bodice and train of brocaded velvet, the velvet design being raised in the deepest tint of mauve from a ground of satin many shades paler. The front of her dress was made of alternate stripes of puffed satin and of shimmering cut-steel and bronze fringe. The bodice was cut square, and trimmed with China crepe of the pale mauve shade, caught with passementerie of cut steel and bronze. The Duchess were in her hair two bands of single stone diamonds and several stars. She also wore a collar of pendants. The Princess Frederica of notice where the battle is screst. With the strapped in a peculiarly effective way with driven away, it will require more nerve to bronze-green velves. It was made with a velves were brought to a point and fas- ger in sight, but also to contend with the tened with a quaint device in brilliants. The elbow sleeves were also strapped with velvet, as was the front of the dress, each strap having a diamond ornament, for which it formed a most effective background. The Marchioness of Salisbury wore a dress of olive-green velvet, with a tablier of exquisite old point lace. The elbow sleeves were faced with lace and the open bedice bordered by folds of the paiest blue and the palest pink satin, both softened full doses in both acute and chronic Bright's Mrs. Henpeck is still wondering what he by intervening frills of lace. Lady Salisbury had no ornaments in her hair, which looked wonderfully picturesque, arranged in silvery simplicity. She carried a Safe Cure." If you are gradually losing bouquet of pink roses. Maris, Marchioness your strength, have extreme pallor of face. of Ailesbury wore a perfectly out bodice puffiness under the eyes, persistent swelling and train of purple velvet. The sleeves were of the joints, abdomen and legs, unaccountcurious shade of pink, which harmonized in a subtle sort of way with the concealed without delay.

Sent to prison for devoting his time to one couldn't get him for a cent less than fifty dollars.

Who Brown-Sequard Is.

Dr. Brown-Sequard is an American. His father, Capt. Edward Brown, of the American navy, was a Philadelphian and married a French woman on the Island of Mauritius named Sequard. He and his descendants took the name Brown-Sequard. The distinguished scientist, whose elixir of youth is making a sensation, was their eldest child. He was educated in France, but was afterwards a professor at Harvard and practiced medicine in New York for some years subsequent to 1873. He married twice, his first wife being Miss Fletcher, of Boston, a relative of Daniel Webster.

PAPER PENCILS.

One of the difficulties which have stood in the way of the substitution of paper pulp for wood in the manufacture of pe been the toughness of the paper covering, and its consequent resistance to the action of a knife. By a new process, which has recently been patented, the molecular cohesion of the paper is modified in such a manner that it can be cut as easily as cedar wood. The paper is first of all made into tubes and a number of them are placed in The substance which is to be used as a pressure is then applied to force it into the hollow centres of the paper tubes. After the completion of the process the pencils

"I do believe those women, Who for years and years and years, Keep polishing their intellects, To ornament their biers"—

should again call the attention of their sex to the remedy especially provided for the correction of their physical ailments by Dr. R. V. Pierce, of Buffalo. It is called Favorite Prescription." Women of intellect for years and years and years have used it and pronounced it the best corrective of all "female weaknesses" that can be give satisfaction or money refunded.

No Camel-Drivers Wanted.

The law that prohibits the landing of certain kinds of undesirable immigrants at our ports is apt to work harshly at times in New York. For example, a few days ago two Arabs were found at Castle Gar-den, one of them named Ben Josef and the other Mohammed Ben Abdel Hirmir, who had come here to seek employment as camel-drivers. The penniless Arabs were in despair when told that we have no such industry as camel-driving in New York. and that they were unwelcome guests in the land of the star-spangled banner. The collector gave orders that they should be sent back across the ocean in the ship which brought them here. Surely this was hard upon the Arab camel-drivers.-New
