On Saturday night, between 9 and 10 o'clock, the brick residence of John B. Marr, at Marr's Hollow, two miles south of this town, took fire in the roof from a defective chimney. Mrs. Marr and two children were asleep and were aroused by their neighbors, her husband being in Simcoe. All the contents of the upstairs were destroyed, and only part of those down stairs were saved. Loss estimated at \$3,000, partly covered by insurance.—Canadian.

A meeting of the municipal electors of the Township of Walpole will be held in the Town Hall in the said township at noon on Monday, Dec. 29th, for the purpose of nominating candidates for the offices of Reeve, 1st and 2nd Deputy-Reeves and Councillors for the year 1891.

A SCALEY BUSINESS.—There is nothing like success, and to be successful a business man should not misrepresent anything he offers to the public. This one thing has been the cause of the success of C. Wilson & Son, the well known scale manufacturers, of 8 Esplanade Street East, Toronto. When taking a look into the business warehouses our eyes would strike the name Wilson on the scales in four fifths of all the business places, large or small; and when the question was put why they used the Wilson scales in preference to any other make, a smile would come over the proprietor's face, with the reply, because we can always depend on them. The name C. Wilson & Son is now well known in foreign countries as well as in Canada.—Toronto Mail.

A public meeting pursuant to notice was held in Selkirk on Saturday, 29th ult., for the purpose of considering the advisability of establishing a roller mill there. A large number of interested parties were present, among others being Messrs. E. Hoover, Reeve of Walpole, and J. W. Holmes, Reeve of Selkirk. The feeling of the meeting was unanimously in favor of the project. Two plans were proposed: the raising of a bonus and the forming of a joint stock company. A few favored the former, but the large majority favored the latter; bonus being a word of unsavory reputation in this district. After fully discussing the matter a committee was appointed to prepare plans, ascertain cost of machinery, and report at a meeting to be held on Saturday the 13th inst. There is no doubt that the project will be carried to a successful issue, from the deep interest manifested.

HOW TO MAKE MONEY.—"When I came to my desk last Wednesday morning, said John Wamamaker, the Philadelphia merchant, to a correspondent of the Chicago Tribune, I was naturally thinking about the Christmas business in this store this year. During the 10 days previous to Christmas our sales hovered about \$100,000 a day. The grand total of the ten days fall only a few dollars under a million. I spend \$5,000 a week in advertising, and I pay a skilful man—a former newspaper editor, and a good one—\$1,000 a month to do it for me. I make money by it. Advertising is the leverage with which this store has been raised up. I do not see how any large and successful retail business can be done without liberal advertising. I advertise in every issue, except those of Sunday, of every daily and weekly newspaper in Philadelphia. Continuous advertising, like continuous work, is the most effective."
