In the Far West.

A way West in British Columbia, Hagyard's Yellow Oil is known and valued highly, as at home in Toronto. Miss Eleanor Pope, of Port Haney, B. C. says: "For sore throat, coughs, croup, bruises, etc., Hagyard's Yellow Oil is the best thing I have ever used."

Experientia Docet.

Mr. J. H. Hourigan, after using Wilson's Wild Cherry in his family for eight years, writes us that it has never failed to cure Coughs, Colds, Whooping Cough or Bronchitis. Be wise, profit by the experience of others, and use Wilson's Wild Cherry when afflicted with any such troubles. Sold by all druggists.

Weary of Grain-Growing.

A leading local paper in Manitoba has this to say in advising the farmers of their province to give greater attention to live stock husbandry: "When the deductions for machinery, horse hire, rent of farm, labor, etc., are made from the price of the farmer's grain, he finds at the end of the year that his hog pen will, dollar for dollar invested, return him as much. We have individualized hog raising, but sheep and cattle raising and horse breeding, are of equal importance. For our own part we are becoming heartily tired of the all-wheat growing style. It is virtually three months of feast and nine months of famine to farmers and merchants alike. There is at best too much risk in it. The districts which are most noted for diversified farming have the most ready money at all times. We have it from the lips of a gentleman who imported oats into Manitoba this year, that the stock-raising farmers of Strathclair and Silver Creek (Binscarth) could and did pay him more ready cash than the wheat growers of the rich Portage Plains." These words have the ring of true metal, and we hope that they may catch the attention of those who have heretofore turned a dull ear to the possibilities of money-making in stock raising. Regular, unbroken and profitable employment is given the stockmen, and that is far from the condition of affairs which surround the grain-grower. Further, the stockman does not test the fertility of his soil, but the grain-seller weakens his capital with the close of each season. Diversified agriculture is the best resource of our farmers, and in the latter the other members of our commonwealth more or less rely for prosperity.—The Canadian Live Stock and Farm Journal for December.

The Bermuda Cable.

The Bermuda cable now complete, could carry no truer tidings than that Burdock Blood Bitters excels all other remedies in curing diseases of the stomach, liver, bowels and blood. Known everywhere as the perfect blood purifier, curing even the worst cases when all else fails.

A despatch from Grand Rapids, Mich., says:—Sheriff Bishop left Friday morning for St. Thomas, Ont., to look up the record of John McQueen, Sheriff-elect on the Democratic ticket, who, it is claimed, is not a citizen of the United States. A lively time is expected when McQueen demands the office on the certificate of election issued to him.

Wild Cherry Bark, Eucalyptus, Hoarhound and Senega. These are the remedies with which Dame Nature has supplied Canada for the cure of Colds, Coughs, Croup, Whooping Cough, Bronchitis and Loss of Voice. All these are contained in Wilson's Wild Cherry in their most active form, and with other medicines constitute this most reliable cure for all diseases of the Throat, Chest and Lungs. Wilson's Wild Cherry is sold by all druggists.
