have issued a manifesto to the Irish people. In this they may:

Feeling bound to protect our country's cause at whatever personal sacrifice, we found ourselves under the sad necessity of terminating Mr. Parnell's leadership. It would have been easier to have left him undisturbed, but such a course would have left every man of us a traitor to bis country. Mr. Parnell, disregarding our appeals to remember the country, evinced an ill-judged determination to maintain his untenable position, thus threatening to plunge Ireland into a conflict which may overwhelm her and cause her present fair prospects to disappear forever. It is the duty of Irishmen now, irrespective of all consideration of feelings either for Mr. Parnell or those differing from him, to adopt a course that will tend to save Ireland from destruction.

After detailing various reasons for their action, the signers of the manifesto add that whatever judgment Ireland may pass of Ireland on his side he would win, and on the manifesto her cause hangs on the issue, and the signers will abide by that Irish people would rally in the true path judgment, they being the nation's servants. How to Accept Presents. At the holiday season the giving of gifts is prevalent. Now, everybody can give sweetly, graciously and lovingly. many can accept in the same spirit? I felt last year that there was a thread of coarseness in the girl who, looking at a fine book that had been sent her by a friend, said: "Oh, dear, I suppose I shall have to get her something in return for it!" That's barter and exchange. It isn't giving. Nothing was to be sent in return for the book unless it were the sweetest of thanks. and the mere fact of the acceptance of a gift does not force upon you its return.

Gift giving is like love, the desire is supposed to come from the heart, and no gift is worth anything unless it is sent with that feeling, and that only. But then you think you are to accept and never to return? My dearest girl, we never know how we return things in this world, but everything does equalize itself.
