THE CRUSUS COUNTING MACHINES

How the United States Population is

(who will succeed Lord Wolseley as Adjutant-General of the British army), is the left-field bleacheries with his elder rendered much more simple than in former eternal and impenetrable darkness, he ex-hibited just as much interest in the game of these labor savers: "At first glance the as the hundreds of noisy little fellows machines remind one of upright pianos. They have handsome oak cases, and each "What are dey doin' now, Jimmy?" he one occupies about the same space a piane asked, as a loud burst of applause rang out does. They are, however, eminently pracde gate. It was a dead easy home run, but that when the work of counting the census accompanied him to Ashantee. He fought he stopped on third 'cause it went into de returns really begins there will be seventy or eighty of these machines at work.

"The returns from the ceneus districts throughout the country are coming in slowly. There are more than 50,000 of these districts, and so far only about 2,500 districts have sent in the returns. As fast as the returns come in they are counted. although not as rapidly as they will be, as "Yes, but I can't watch, Jimmy. Tell it is necessary to train the young ladies in me a little something, won't you? I'll give the use of the machines. In making this machine they are passed over to another, be counted in the census office an equiva-

"The machines, which are the invention of Mr. Hollerith, and supplement his tabulating machines, are very simple. A key board, resembling that of a typewriter, is at the right of the operator. Each key has a number from one to twenty. The operator has a pile of census schedules at her left side, and as she turns the schedules over she notes the figures which indicate the number of members in each family enumerated in that schedule. If there are five members in a family she strikes the key marked five. When a key is struck an electric connection is estabished with the hands on a dial in the frame

work in front of the operator. "That dial is marked No. 5, which means it records the number of families consisting of five persons. Each time the No. 5 key is struck No. 5 dial records one. When the account is completed the re-Some of the new shoes are dainty enough | corded number on each dial is multiplied by
