Where Did You Get That Coat?

It is perfectly right for a man to ask
Such a question as that and to take
to task

A man so wretchedly clad;
No wonder his indignation rose
When he looked at that shocking suit
of clothes—

'Twas enough to make him mad.

The Wilson Scales.

We would call attention to the advertisement of the Wilson scales. We seldom say anything in favor of articles advertised in this paper; but we cannot refrain from saying something in favor of the improved Wilson scales, because any person having anything to do with scales will acknowledge them as a true standard of correctness, and the largest concerns in the country are using them in preference to any other make. We would like every farmer to have one of them in his barn, and not take the word of the buyer every time he comes to town to sell his grain.
