ment comes to hand daily. Even such deep-seated and stubborn complaints as Rheumatism, Rheumatic Gout, and the like, are thoroughly eradicated by the use of this wonderful alterative. Mrs. R. Irving Dodge, 110 West 125th street, New

Fresh confirma-

tion of this state-

York, certifies :-"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

Mrs. L. A. Stark, Nashna, N. H., writes: "One year ago i was taken ill with rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medimuch good as Ayer's Sarsaparilla. I felt its beneficial effects before I had quite finished one bottle, and I can freely testify that it is the best blood-medicine I know of."—L. W. Ward, Sr., Woodland, Texas.

Ayer's Sarsaparilla,

Br. J. C. Ayer & Co., Lowell, Mass. Price \$1; six bettles, \$5. Worth \$5 a bottle.

WEDNESDAY, SEPTEMBER 3, 1890.

CURRENT NOTES.

It is expected that the vote on the Mckinley Tariff bill will be reached about September 5th.

The Dominion Marine Department has decided to distribute to all life saving stations in the Dominion copies of the rules for resuscitating persons apparently drowned, prepared by Capt. W. D. Andrews, of Toronto.

A man's ears are placed in such a way that he may eatch the things that are said in front of him; a merciful Providence never intended that he should hear what is said behind his back.—Atcheson Globe.

Full reports confirm the fact that the crops in England and the United States are very much below the average, have been stunned and remained unwhile the abundant promise in the case | conscious the most of the night. His of Canada has been amply fulfilled. It has been a great season for the the American side about 8 o'clock this

The population of Canada is estimated at 5,000,000, an increase of 700,000 in alleviate his sufferings, after which a ten years. A hundred years ago the rope ladder was lowered down and population of the United States was Davies was put on a stretcher, raised to 3,929,000 that of Canada 156,000. Potatoes are a failure in Ireland this year, as the old-time potatoe rot has set in and rapidly spread all over the island. In some districts, it is said, the stench from the decaying vines and tubers is Messes. C. C. RICHARDS & Co. such that a malarial outbreak is looked for. The ruin of the potatoe crop means famine and misery amongst the peasant an unusually small potato crop, falling short of an average at least 150,000,000 bushels. On this side of the Atlantic, drought in the Ohio Valley and the States west of the Mississippi has been severe over large areas, and the averages are low, and potatoes in some of the large cities of the United States have gone up to \$1.50 per bushel.

The St. Clair Tunnel.

COMPLETION OF THE DRIFT CONNECTING THE TWO SHIELDS.

SARNIA, Aug. 25 .- This morning at 10 o'clock the two shields of the St. Clair River tunnel were only 90 feet apart. For purposes of observations, a drift eight feet in diameter was cut from one to the other, and Messrs. Joseph Hobson, the chief engineer of the tunnel: Charles McKenzie, M.PP., one of the directors of the company, and Dr. T. G. Johnston, the company's medical adviser at this point, started from the American entrance and walked the entire distance through the tunnel, Mr. Hobson being the first man to pass through the opening. The British flag was hoisted, and he was received by three rousing cheers from the hundreds of men engaged in the work, accompanied by the screeching and kidneys are more speedily remedied of boat whistles and the clanging of by this medicine than by any other. bells, which announced to the citizens | It reaches the trouble directly. the interesting fact. Before the expiration of the present week the entire Montreal Wednesday, declined to be main portion of the tunnel will be com- interviewed on English politics Repleted, and the accuracy with which ferring to the distress in Ireland, he those shields were guided has been said he did not approve of Government marvellous, as it was found that they relief works, nor did he think the scheme were directly in line, not varying the of moving the peopl. from congested

the public has no conception of them, but the zeal and energy displayed by every one in connection with this great undertaking overcame every hindrance. This is exemplified by the fact that from the day the shields were lowered into their position to commence the work twelve months will not have elapsed until the 7th September next, at which time this great international undertaking will be completed. The contract for the approaches and masonry has been let to Messrs. Nihin, Elliot & menced the work, and it is confidently expected that before the expiration of the present year the Grand Trunk Railway Company will be running their passenger and freight trains across the frontier by this underground passage. Sir Henry Tyler, the president of the Grand Trunk Company, and Sir Joseph Hickson, the general manager, will arrive from New York to-morrow to inspect the work, of which they, in conjunction with the very efficient and competent staff on the work, have every reason to feel justly proud. The success of this great work is due to the engineering skill and ability of Mr. Joseph Hobson, chief engineer of the Great Western Division G. T. R., who conceived, planned and executed it, and who under the greatest difficulties has had the most perfect confidence in the possibility of the work.

The Wilson Scales.

We would call attention to the adver tisment of the Wilson scales. We seldom say anything in favor of articles advertised in this paper; but we cannot tefrain from saving something in favor of the improved Wilson scales, because any person having anything to do with scales will acknowledge them as a true standard of correctness, and the largest concerns in the country are using them in preference to any other make. We would like every farmer to have one of them in his barn, and not take the word town to sell his grain.

An Awful Fall.

A G. T. R. CLERK'S TUMBLE OVER THE BANK OF NIAGARA RIVER.

NIAGARA FALLS. Ont., Aug. 26.-D. manner fell over the river bank at the foot of Queen street and struck on the rocks about 75 feet below about halfcries for help were heard by parties on morning, when a rescuing party made a descent and found him. He was immediately placed under chloroform to ment-fence. The shrubbery was stripexpect to bring him through all right. Davies came here from Montreal about three years ago, where it is said his father resides.

GENTS.-I have used your MIN-ARD'S LINIMENT successfully in a serious case of croup in my family. In farmers. Reports from Europe point to fact I consider it a remedy no home should be without. J. F. CUNNINGHAM.

Cape Island.

So SAY ALL.—That MINARD'S LINI-MENT is the standard liniment of the the day, as it does jus what it is represented to do.

Attempts have been made to wreck trains on the Hamilton and Dundas railway. On Sunday evening a disaster was averted by a citizen of Hamilton, who, had his suspicions aroused by the actions of a man on the track. ran to the spot and removed an obstruction a few moments before the arrival of a passenger train.

An official visit to the St. Clair tunnel Sarnia, was paid Wednesday by Sir Henry Tyler and Sir Joseph Hickson. These gentlemen were accompanied by a large number of Grand Trunk railway officials, and, guided by the chief engineers and superintendents of the Central Standard time. tunnel works, made an inspection of the different departments.

"It goes right to the spot" said an old gentleman, who found great benefit in Ayer's Sarsaparilla. He was right. Derangements of the stomach, liver.

The Earl of Aberdeen, who was in slightest. The obstacles that have been centres to more sparsely populated dis. met with and overcome were such that ' tricts would prove a success.
