COLLISION IN THE BOSPHORUS.

The Steamer Eddlethorpe Goes Down and Three Men are Drowned.

A Constantinople cable says: A collision occurred this morning in the Bosphorus between the British steamer Rugby, bound from Odessa for Shields, and the British steamer Eddlethorpe, from Port Said for Odessa. The Eddlethorpe was so badly damaged that the water poured into her in a tremendous volume, and she went to the bottom almost immediately. The steam launch belonging to the Russian embassy was cruising near the scene of the accident, and when the Eddlethorpe sank she at once started for the spot. When those on the sinking steamer saw that there was no hope of the vessel keeping affoat they jumped overboard. The steam launch picked up several of the men in the water, and the humane efforts of those on board of her came together, and though he was rescued from drowning it was only to die a short time after he was taken ashore. The extent of the Rugby's damage is not known. iron screw steamer of 1,735 gross tons.

An Omaha despatch says: Capt. Hattie Smith, of the Salvation Army, who was shot in the street here by Nettie Biedler, of Council Bluffs, died on Monday. When it was known that her chance of recovery was slight, the members of the Army, who had thronged the room, fell on their knees and prayed fervently in true Salvation Army style that her life might be spared. At times the voice of the dying girl was heard clear above the others as she implored that this cup might pass from her. Among those kneeling at her bedside was Lieut. Organized Labor. New York Daily Commercial Bulletin: employers, there would still remain 20,000,000 who labor for compensation. Out of these 20,000,000, about 270,000 are connected with the Knights of Labor, according to its official reports made at the recent national convention. It is supposed that the federation would embrace a somewhat larger number, but if it includes twice as many, the entire number would still be only about 800,000, or but four in one hundred of the workers for compensation. It may be objected that the farmers who own or rent farms are not strictly wage earners, though they labor. Deducting 6,000,000 for these, there would still remain 14,000,000 wage earners, against not more than 800,000 enlisted in various organizations.
