Three hundred and twenty feet up in the air went Charles J. Kent yesterday afternoon, says the Brooklyn Eagle. Over two hundred feet of the distance was inside of the steeple of St. Stephen's church, at the corner of Summit and Hicks streets; the rest of the dizzy height he climbed up by the lightning rod from a window of the tower, with a rope around his body, which was tightly held by his two assistants, Lewis B. It had about six hundred glass bull's eves in it—worth about \$1.50 each when new—and the cross was imported from the Netherlands by the late Father O'Reilly the former pastor of the church, and placed there when the steeple was completed. The cross was formerly lit up by electricity and could be seen seventy miles at sea. Complaints, however, were made by the pilots

of New York harbor that the light of the cross seriously interferred with navigation, so the light was taken out. The present began using them, and before taking pastor of the church deemed it necessary that the cross should be taken down, as it was getting rusty, and its galvanized iron fastenings were becoming loosened. Kent took the cross down. In six hours from the time Kent began his perilous ascent from the topmost window of the tower the cross,

The Chicago News, in the course of a thoughtful article on the subject of holidays, points out that it is not merely kindness of heart, nor patriotism, which prompts men in business or trade to assume willingly the financial burdens connected with holiday observances. It is simply a keen perception of the working of economic laws a realization that the whole community is benefited by well-observed holidays, and that the expenses which they themselves incur are just as much legitimate investments as the money expended for advertising or for the proper ventilation of store, workshop or counting house. As the News observes in summing up the question: "Holidays are not philanthropic concessions on the part of the employers. Holidays and half-holidays are not merely vested rights of employees. They are also, and above all things, an economic necessity; and whoever fails to observe them by a suspension of all not absolutely necessary labor, whoever descrates them by enslaving himself and others in the service of Mammon, fails also in one of the highest duties he owes the community."
