An Abandoned Woman Murdered and Her Body Mutilated.

THE MURDERER SURPRISED.

A Berlin cable says: The city has been treated to a "Jack-the-Ripper" sensation.

The body of a wretched, abandoned woman was found horribly stabbed in her lodgings, in a squalid quarter of the town. The body was horribly slashed and mutilated. The assessin, who is unknown, escaped. The woman was seen to enter the house with a stranger at 1 o'clock this morning, and ten police suspect a well-dressed young man who was some time before on the street.

woman tried to enter the room before the crime was committed. Her attempt disturbed the assailant, who suddenly rushed out, pushing aside several who were in his way. The weapons used by the murderer were two knives belonging to the landlady of the house, but the police are of opinion that the first wound, and which would have proved fatal, was inflicted by the assailant's dagger. The excitement in town has greatly increased to-night, and has steadily grown since the discovery of the crime. There have been many other crimes, including suicides, within the past few days in the lower quarters of the city. The rewards for the arrest of the fiend reach 300 marks.

Chinamen in unprecedented numbers are being landed at Vancouver, said Mr. Scanlan, and they are unable to obtain employment or food. A Case Rivalling the Marvellous Cure of A Californian With a Mania for Hugging John Marshall.

A good name is more to be desired than great riches." The truth of this scripture quotation is proven every day. Once a persure, but to achieve a good name is quite a different thing. Not many months ago the TIMES brought to light one of the most marvellous cures that has ever been effected. Mr. John Marshall, after being for years afflicted with locomotor ataxy, supposed to be incurable, and after having been paid \$1,000 from the Royal Templars as being totally disabled for life, was permanently cured by the use of Dr. Williams' Pink Pills. Mr. Marshall may be seen on the streets any day, a strong, healthy man, with no trace of his old trouble. The case gave Pink Pills a name throughout the length and breadth of the land, and vastly results are being seen on all sides now in wonderful cures wrought.
