

VIGOROUS OLD AGE

Obtained Through the Use of Dr. Williams' Pink Pills.

Mr. William Gray, of Newmarket, Tells How He Became Hale and hearty at the Advanced Age of Seventy After Having Suffered Great Torture from Sciatica and Rheumatism.

(From the Express, Newmarket, Ont.)

Mr. William Gray, who is well and favorably known in the town of Newmarket and vicinity, is rejoicing over his release from the pains of sciatica and rheumatism through the use of Dr. Williams' Pink Pills. A reporter of the Express called upon him for the purpose of obtaining particulars of the cure when Mr. Gray gave the following story for publication:

"About two and a half years ago I was seized with a very severe attack of rheumatism. The pain was simply torturing. At times the trouble was seated in my knees, then in my hips. For nearly a year I suffered along, working as best I could, in the hope of being able to overcome the disease. During the day the pain was less severe, but at night it was just as bad as ever. To increase my torture I caught a cold which resulted in an attack of sciatica in my right leg. If I walked a short distance I would be seized by sharp pains in the hip, and in time I became a used-up man, my appetite failed me, and I could not rest at night on account of the pain. I tried one medicine after another without avail. I also consulted doctors with no better result. I was beginning to think that I was doomed to suffer the rest of my life, when one day a friend strongly advised me to try Dr. Williams' Pink Pills. I took his advice and procured a supply of the pills and began taking them according to directions. Before the third box was finished I noted a change for the better, so I continued the use of the pills till I had taken ten or twelve boxes, when my trouble had entirely disappeared. To-day I am free from pain and feel that life is worth living, even at the ripe old age of seventy. I can now do a day's work with many men who are 20 years younger than I. I thank God for my restoration to health through the agency of Dr. Williams' Pink Pills, and I trust other similar sufferers will give them a trial, for knowing what these pills have done for me, I am sure that they cannot fail being as beneficial to others similarly afflicted."

If the blood is pure and wholesome disease cannot exist. The reason Dr. Williams' Pink Pills cure so many forms of disease is that they act directly upon the blood and nerves, thus reaching the root of the trouble. Other medicines act only on the symptoms of the trouble, and that is the reason the trouble always returns when you cease these medicines. Dr. Williams' Pink Pills make permanent cures in kidney troubles, rheumatism, erysipelas, anemia and kindred diseases. But be sure you get the genuine, which bears the full name Dr. Williams' Pink Pills for Pale People on the wrapper around every box.

Their Taste Goes Wrong.

Even the best judges of tobacco can't always be depended on. Sometimes their taste goes back on them, so to speak, and remains blunted for a week at a stretch. Professional smokers of tobacco take a week off every few months and never look at the weed until they return to duty. In that way they keep in condition.

Dyspepsia Pains.

arising from the formation of gas owing to improper digestion is the source of great misery to many. A very prompt and efficient remedy for this trouble is found in Nerviline. It relieves the distention instantly, and by stimulating action on the stomach aids digestion. Good also for Colic, Colds, Rheumatism, Neuralgia and Headache. In medicinal power Nerviline has a value five times greater than any other. Test it and see if it is not so. Druggists sell it.

Good Tea, and How to Make.

Good tea is but the beginning of good liquor, when it is drawn from the leaves. The making of good tea is impossible from poor leaves, then the making of poor tea from good leaves is hard. If all that were necessary in giving good tea to the public were to put leaves in a packet, or sell it in some other form, our years of experience would go for naught, and we would never have heard the nice things about Ross' High-Grade Tea that have been said.

We want to tell you all about good tea, so you can judge between Ross' High-Grade and common teas. We use nothing but the finest Ceylon teas, and most people know that the best teas in the world come from the beautiful island of Ceylon. Ross' High-Grade Ceylon is not best, simply because it looks best—tea isn't grown for looks—but for drinking purposes, it is the finest to be had.

The soil of Ceylon is peculiarly adapted for the growing of tea. It gives a flavor and lusciousness to the leaves which is not got from any other soil in the world. As we said before, the Ross' High-Grade Ceylon Tea is the best growth of this wonderful tea-producing country, and one pound will go as far as one and a half pounds of any other tea.

All tea that goes into the packets of the Ross Tea Company is carefully tested, the production of any particular garden counts for nothing, if the standard is high, though we buy tea only from the best tea lands in the world, and most of them are not good enough. We reject more than we use. What we use is the best in every particular. When the tea is satisfactory then the work of the packers begins. These packers are most skillful at their work, they have so many years of experience to guide them. They have the latest developments of modern machinery to help them. Every particle of dust is removed before the tea enters the packet, and the utmost cleanliness is preserved through the whole process of preparing these teas for the market.

It is important that the directions inside the packet be observed, as when tea is made too strong it is just as bad as when it is not made strong enough, as the delicious flavor you get when it is made just right is lost. To get the best results, pour the liquor off the leaves after it has drawn about seven minutes into another warm teapot. If left standing on the leaves for any length of time after seven minutes the liquor gets bitter and rank.

(Try this method; you will never make tea any other way.)

ROSS' HIGH-GRADE CEYLON TEA is cheapest because it goes farthest, as well as being best. Ask for the 25-cent package for greatest economy. It is packed in one grade only. Three kinds, black mixed and uncolored green Ceylon. Japan tea drinkers should try the green Ceylon.

Laureate Austin's Originality.

That there are some strong lines in Laureate Alfred Austin's dirge will be cheerfully admitted by Mr. Austin. That there are others not so strong seems to go without saying. In the latter class may be included the eloquent line: "Dry your eyes and cease to weep." It is a fine and impressive line. Some poets would have said: "Dry your eyes" and let it go at that. Other poets might substitute "Cease to weep," and let the moistened optics dry by the natural process. Not so Laureate Austin. He dries the eyes first and then directs that the faucet be turned off.

An Agnostic's Definition of a Church.

A place in which, week by week, services should be devoted, not to the iteration of abstract propositions in theology, but to the setting before men's minds of an ideal of true, just and pure living; a place in which those who are weary of the burden of daily cares should find a moment's rest in the contemplation of the higher life which is possible for all, though attained by so few; a place in which the man of strife and business should have time to think how small, after all, are the rewards he covets, compared with peace and charity.—Prof. Huxley.

"MINE HOST" DAKE

Relates His Experience for the Benefit of Others.

Proprietor of the Dake House, St. Thomas, Loses An Enemy That Had Troubled Him for Over Five Years and is Glad.

St. Thomas, March 7.—(Special)—Mr. L. Dake, of the Dake House, in this city, is a proud man for he has at last forever disposed of a foe, which has given him a great deal of pain and annoyance during the last five or six years. That foe was Kidney Trouble and Lame Back. Dodd's Kidney Pills drove it out, never to return, and now Mr. Dake is happy.

"I have been troubled with my kidneys and pains in my back for over five years. Nothing I could get helped me in the least. Finally, I was told by a friend who had tried them, that Dodd's Kidney Pills would cure me, and I decided to try. They relieved me from the first and eventually cured me completely. They are a wonderful medicine."

There are many people in St. Thomas and vicinity who have very kind things to say of Dodd's Kidney Pills. The local druggists report a very large sale, and this is not to be wondered at, as many very remarkable cures are reported in the city and country.

Does Cooking Spoil Food?

Prof. B. Tyler, of Indianapolis, says that human life would average three or four times longer than it does if people would reject the senseless practice of cooking their food. Animals and fowl live much longer in proportion to the period of full development than man. Says Prof. Tyler—"Man, for some unknown reason, eats dead cells (cooked cells) to replace the dead cells that have been separated from the body. In cooking food all the acids and gases so necessary for the conservation and preservation of ideal health escape with the steam, and the food retains a greater supply of ash lime and other such substances than nature requires for the amount of food taken into the system."

The Exhaustion of Monotony.

A man kept continually at the same kind of work during the day would show a smaller average of vitality at its end than a man whose tasks had been varied and whose interest had therefore been kept up instead of being allowed to languish because of the sameness of the work at which he had been employed. This certainly points a moral for school work.

Spiders for Wine Cellars.

Every man who has a wine cellar has an equal fondness for spiders. This is on the authority of a connoisseur. Cobwebs add dignity to wine and make it seem older than it really is. Moreover, if the spiders refuse to weave their webs about the bottles of the nouveau riche, these same spiders may be purchased at so much a dozen and imprisoned in the vaults, where their natural industry must assert itself in cobwebs. There is an old Frenchman living in one of Philadelphia's suburbs who makes a business, and a very good one, it is claimed, of cultivating spiders for wine cellar purposes. In this way a lot of vin ordinaire may in a few weeks take on all the appearance of aged mellowness.

HE GOT THE TICKET.

But is in Jail Now—A Sharper Who Was Caught in Time.

A young man of none too prepossessing appearance attempted to take advantage of the generosity of the city on Saturday night, but found that despite his sharpness he was a little premature in his reckonings. About 9 o'clock he went into Mr. C. Dannecker's confectionery store on Bowmie street and asked for permission to use the telephone. Ringing up No. 75, the G. T. R. ticket office, he asked that a gentleman who would call there shortly be given a ticket to Woodstock via London.

The clerk in a rather mystified manner, enquired, "Who's speaking?"

The reply came "Mayor Stamp. Charge the price of the ticket to the city."

The audacity of the whole proceeding was sufficient to unarm the suspicions of any but a person of experience, so that the clerk did not suspect that there was anything wrong. A man called at the office a few minutes later and on application was furnished with the pass. When Mr. Casella arrived the clerk acquainted him with the particulars of the whole matter, and he at once became suspicious. The Mayor was communicated with, and the fraud discovered. Shortly afterwards Chief McCarthy was on his way to the station, where he found his man walking complacently along the platform. The fellow denied having any knowledge of the charge, but despite his protests he was taken into custody. He gave his name as Thomas Lawrence, of Paris, and said that he came from Seaford to Stratford. The Magistrate remanded him to "Castle Nichol" for a day or two.—Stratford Beacon.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Rheumatism.

Nobody knows all about it; and nothing, now known, will always cure it.

Doctors try Scott's Emulsion of Cod Liver Oil, when they think it is caused by imperfect digestion of food. You can do the same.

It may or may not be caused by the failure of stomach and bowels to do their work. If it is, you will cure it; if not, you will do no harm.

The way, to cure a disease is to stop its cause, and help the body get back to its habit of health.

When Scott's Emulsion of Cod Liver Oil does that, it cures; when it don't, it don't cure. It never does harm.

The genuine has this picture on it, take no other.
