

## A FATHER'S STORY.

### He Tells How His Son Regained Health and Strength.

Had His Spine Injured, and for Two Years Was Unable to do Any Work, and for Most of the Time Was Confined to the House.

Mr. M. D'Entremont, a well-known farmer living at West Pubnico, N.S., writes: "I believe it is only right that I should let you know the benefit your medicine — Dr. Williams' Pink Pills — have been to my son, Constant, sixteen years of age. For several years he was almost a constant invalid, the result of an injury to his spine while working with his brothers on the farm. He grew weak and listless, had no appetite, and for two years was unable to work and was for the most of the time confined to the house, and for a part of the time to his bed. He suffered considerably from pains in the back; his legs were weak; and he had frequent headaches. At different times he was attended by two doctors, but got no benefit from the treatment. Then I procured an electric belt for him, but it was simply money wasted as it did not do him a particle of good. One day while my son was reading a newspaper, he came across an article telling of a cure in a somewhat similar case through the use of Dr. Williams' Pink Pills, and he then decided to give them a trial. After the second box was taken there was a marked improvement in his condition. He continued the use of the pills until he had taken eight boxes, and they have restored him to health. His appetite has returned; the pain has left his back; he has gained flesh; is able to ride a bicycle, enjoys life and is able to do a day's work as well as any one of his age. This letter is given gladly so that others may learn the merits of Dr. Williams' Pink Pills, and find a cure if ailing."

Dr. Williams' Pink Pills cure such cases as the one noted above because they create new, rich, red blood, thus strengthening weak and shattered nerves. They do not purge and weaken like other medicines, but strengthen from the first dose to the last. Sold by all dealers in medicine, or sent post paid at 50 cents a box or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

#### Condensed Eggs.

The condensing or crystallization of eggs has grown into an industry. They are broken and emptied, thousands at a time, into a machine, where they are churned. When they are thoroughly mixed the liquid is dropped slowly on to stone cylinders, over which currents of warm, dry air are passed. This evaporates the moisture, and when the mixture is thoroughly dry it is scraped off as "crystals" and packed in airtight cans. To prepare the "crystals" for use they are simply soaked in water. They are much used on ships and to some extent by bakers.

#### ARE YOU GOING WEST?

If so, send a letter or postal card to the undersigned, answering the following questions:  
Where are you going?  
When are you going?  
Where do you start from?  
How many are in your party?  
Will you take your household goods?  
Special low rate settlers' tickets on sale during March and April to points in Manitoba, British Columbia, Oregon, California and all Western States. Full particulars from B. H. Bennett, General Agent, Chicago & Northwestern Railway, 2 King street east, Toronto, Ont.

#### His Faith.

In a story called "The Gobbler," recently published in England, two boys, Archie and Willie, are discussing large questions with the bishop: "God can do anything, can't He?" "Yes, Archie." Emboldened by the bishop's confirmation of his own unwavering faith, Archie continued: "If God said a pig was to jump out of the window, a pig would, wouldn't it?" And Willie, who walked by faith where his elder and more prosaic brother trod by sight, chimed in: "Even if there wasn't a pig?"

If You Suffer Pains Don't Wait  
A moment, go to the nearest drug store and get a bottle of Nerviline. Five times stronger than any other — it penetrates to the remotest fibres — soothes the irritated nerves and carries with it almost instantaneous relief. Good for pain on the outside, and if possible even better for all internal agonies. Nerviline is sold under guarantee. If you are not benefited your money cheerfully back. Druggists and medicine dealers sell it everywhere.

#### Not a Churchgoer.

Mrs. Browne—Doesn't Mr. Johnson go to your church?  
Mrs. Malaprop—No, indeed. He does not believe in no church.  
Mrs. Browne—You don't tell me!  
Mrs. Malaprop—Yes, he don't believe in nothin'. He's a regular acrostic.—Philadelphia Press.

Catarrhoxone Cures Bronchitis.  
Every human being uses up, on an average, 30 ounces of oxygen a day.

## PROFIT IN OSTRICH FARMS.

New Zealand is Entering Upon the Industry on a Large Scale.

Very remunerative is ostrich farming, which, for a considerable time followed in California. It has now been introduced into New Zealand. Five hundred of the birds are now on the farm of the Messrs. Nathan, at Whitford Park, a short distance from Auckland. All the steps in the industry, from the nesting of the birds to the dressing, dyeing and mounting of the plumes, are carried on at this establishment.

The manager states that an adult bird requires about the same amount of attention as a sheep, and that the ostrich consumes about twice the quantity of grass needed by a sheep. The birds become dividend paying investments when they are about 10 months old, after which age they are clipped every eight months. The feathers are worth from \$3.75 to \$6.20 per pound, the after dressing increasing the value enormously.

The male and female birds manage the incubation of the eggs between them, taking four-hour watches each. To his share of this duty the male ostrich adds the labor of turning the eggs. The chicks are hand fed, as with those of the ordinary farmyard fowl, and are reared without serious loss.

#### Catarrhoxone Cures Cold in the Head.

About every second person one meets at this changeable season has cold in the head. To cure that cold promptly, in about half an hour, you must inhale "Catarrhoxone." Being volatile it immediately spreads to all parts of the breathing organs in the head, throat and lungs, bathing them with the healing antiseptic properties of this great remedy which causes the congestion and stuffed up feeling to pass away, and the irritation and soreness to subside. It restrains the secretion when excessive, and retards it when deficient, simply kills the cold before you know it. Carry a Catarrhoxone Inhaler always, use it occasionally, and insure yourself against coughs, colds, Catarrh and Bronchitis; it prevents as well as cures these diseases. Complete outfit, \$1.00; small size, 25c, at druggists. A trial sent for 10c, by N. C. Polson & Co., Kingston, Canada, or Hartford, Conn., U. S.

#### A Peculiar Game.

A peculiar dice game is indulged in by the gambling element of Lithuanians in Baltimore, says the Baltimore Sun.

Gathering about the dice tables in the saloons kept by their fellow-countrymen, they quickly lose all interest in everything outside of that which is transpiring upon the cloth before them. As they sit or stand about the tables the careworn features of the men contrast strongly with the ruddy faces of the youths. The eagerness with which the players seek the numbers upon the falling pieces is wolfish in its intensity. Comparatively small sums are placed upon the game, and side bets run from five cents to a dollar.

Although resembling in the manner in which it is operated, the high dice game, as played by the Anglo-Saxon races, the dice of the Lithuanians, instead of numbering from one to six, run from one to ten, the numbering of the six sides being 1, 2, 3, 4, 8, 10. The game is played with four pieces, and a possible forty is the point striven for instead of 24, which is high mark in the similar American game.

#### His Own Free Will.

Dear Sirs,—I cannot speak too strongly of the excellence of MINARD'S LINIMENT. It is THE remedy in my household for burns, sprains, etc., and we would not be without it. It is truly a wonderful medicine.

#### A Queen's Whim.

Queen Helena of Italy, in anticipation of an interesting event expected in June, has purchased 100 cradles and has ordered an equal number of layettes to be got in readiness. The baby clothes and the cradles Her Majesty intends to bestow on the first hundred babies of her husband's realm whose birthday is the same as that of the waited heir to the throne of Italy.

#### Catarrhoxone Cures Bronchitis.

Effect of Too Much Food.  
Much of the sinking, tired and empty feeling from which business men who work their brains alone so often suffer is due to the accumulation of toxins in the system which want "working off." Two meals a day and active exercise are the preventive, and there is no exercise which can be got at any time and by anybody to the extent that walking can. But to do good it must not be counteracting. Really "smart" walking is what is wanted.

#### Minard's Liniment Cures Colds, etc.

A furious blizzard has been sweeping the whole seaboard since last night. This morning the sealer South-east Cross, which arrived here yesterday, was forced into the harbor of Perleau, in danger of swamping on account of the heavy load of 26,500 seals on board. Much anxiety is felt for the remainder of the sealing fleet.

## FIVE DOCTORS FAILED

### In a Severe Case of Kidney Disease and Lamé Back.

Dodd's Kidney Pills Cure Mr. Anderson, of Waterville, N. B. After Five Medical Men Have Pronounced His Case Absolutely Incurable.

Waterville, N. B., March 21. — (Special).—"I have been so often induced to try patent medicines by the reading of the wonderful cures said to have been effected in similar cases, that now, when I feel it my duty to write the story of my own cure by the use of Dodd's Kidney Pills, I am carefully avoiding any comment of my own or any complimentary words. I simply state the absolute facts of my case as follows: "I have been treated by five different doctors, and have taken a large amount of patent medicine during the last four years for Kidney Trouble and Lamé Back, from which I have been suffering. I was very bad. My life at times seemed a burden. I got no relief until I was persuaded to try Dodd's Kidney Pills. I cheerfully give this unsolicited testimonial, that I have received more benefit from six boxes of Dodd's Kidney Pills, than from any and all other sources."

Mr. Anderson is in earnest. His straightforward statement of facts carries conviction. Lamé Back, and Kidney Disease do not seem able to exist where this wonderful remedy is used. It has been made very popular in this community by the hearty endorsement of Mr. Anderson, who is a well-known and very highly respected citizen. The success of Dodd's Kidney Pills in cases like those of Mr. Anderson, when the very best medical men have failed, has created a demand which the local druggists have reported as unprecedented.

#### Found Competent.

He wanted a position in a bank. The manager was satisfied with his credentials, but before engaging him lifted up through a little civil service examination.

"Suppose, now, a man was to come in here and deposit £50 in £5 notes, how would you count them?" "I'd wet my fingers and lift up each note until I got to the last one."

"Why would you not lift up the last one?" "Because there might possibly be one more under it, and if the depositor were to see it he would want it back, but if the tenth note is not lifted up and there should be another one in the pile, the bank makes it, don't you see?" "You will do," said the bank manager. "You have been in the business before, but I didn't suppose you knew that trick."—London Tit-Bits.

#### Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it causes a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

#### That Imbecille "Ess."

With regard to the use of what is termed the imbecille "Ess," a writer in an exchange says: "Can a woman really have strength of mind and permit herself to be called a foundress, a proprietress, a directress? What incentive has any woman to excel in literature? She no sooner writes a great book, a fine biography, history or work of fiction than some idiot dubs her a successful 'authoress.' If she founds a sect or a business she is a 'foundress.' If she directs great enterprises she is a 'directress.' If she goes in for military strategy and leads armies to victory she is a 'generalsess.'"

## CHILDREN'S MEMORIES LONG.

Parents Should be Careful What They Say Before the Little Ones.

That the mind of a child is easily impressed was demonstrated last week, when a 3-year-old son of a well-known south side spoke of a foolish remark that had been made by his father more than a week before, and which had been forgotten by all who heard it except little Raymond, who, it should have been expected, would be the first to forget what he had heard.

The family was seated at dinner several weeks ago, and after the father had lighted his cigar he said that he did not feel well and the mother jokingly said that she hoped he was not getting ready to die. Then the father asked her what she would do if he should die, and before she had time to answer he told her that he wanted her to forget him after he was dead.

The conversation drifted to other subjects and all who heard the advice of the father forgot it long before they retired that night, but it developed later that for little 3-year-old Raymond it was not so easy to forget what he had heard his father say.

More than a week after the father had made the joking remark the mother and her little son were alone at dinner, as the father had been detained at his office. Just before they were ready to leave the table Raymond toddled across to his mother and standing at her side he said: "Mamma, will you fordit papa?" "No, dear; of course, mamma won't forget papa. Why do you ask me such a question?" answered the astonished mother.

"Papa told us to fordit him."

"No, papa didn't tell us to forget him, Raymond."

By this time tears were glistening in the child's eyes, and he finally burst into pitiful weeping. The mother could not understand what it all meant. Suddenly Raymond raised his head from her lap, and looking her in the face, he said: "Mamma, I know you will fordit papa when he's dead, but I won't. I'll love him more'n I do now."

Then the mother asked the little weeping child what he was talking about and between his sobs he reminded her that his father had told them to forget him after he was dead. The child got a good lecture from his wife that night, and he will never again jest about dying.—Ex.
