In the extensive list of great men who were born in the year 1809 is Alfred, Lord Tennyson, whose centenary was Friday last, August 6. Tennyson was never anything but a poet and scholar. He wrote his first poem when but seven years of age. It cannot be said that poetry of the kind the late poet laureate wrote is being produced today. The stirring lines of a Kipling seem to better suit the spirit of the age, and to suit his work to the spirit of his time is one of the chief functions of the true poet. Tennyson wrote in times when a fierce religious controversy waged in England accounting for the deep religious tone which characterizes the majority of his poems. He ranks first in England's poets of the last century and it-is doubtful if this century will produce one to surpass him.

Lost Energy Restored by Psychine.

Mr. Geo. P att, of Clarkson, Ont., Four years ago my son Wilbert was so run down, thin and emaciated, that we thought he was going into a decline and feared he would never pull through the sewere cold of the winter months. The boy had no appetite and seemed to have lost all energy and interest in life. He was altogether in terribly had sin pe. His condition caused us the

gravest anxiety.
Fortunately I procured PSYCHINE for him and this soon gave him a new lease of life. It is really remareable how rapidly this splendid medicine brought about a change. After taking one or two bottles he was hardly recognizable as the same youth. PSYCHINE effected a speedy cure and he was soon able to work about on the farm again. To day he is a robust young fellow, and if anything, stronger than his brothers. Nothing in the way of hard work seems to affect him. I cannot speak too highly of PSYCHINE. It certainly saved our boy and made a man of him."

The New Speller

Followin; the four Outario read ers publish d a few days a, o comes the Ontario Public School Speiler," issued by the department of education.

The new book is in every respect a worthy unit in the new series, and while the old book was considered cheap at 25 cents, the new is better and only 15 cents.

It should be noted that the prices of readers and epellers are subject to a 20 per cent. discount, so that scholars will save even more than was at first understood.

.The present speller follows the English standard laid down by the government in adopting the "Concise Imperial Dictionary" as the criterion. Words ending in "our" retain the English form. Eight grades are marked corresponding with the several Ontario classes, and rendering the book available in

other provinces. The arrangement of the words strikes one as eminently practical and simple. Care was taken by the compilers, it is stated, to experiment in various schools with the lists of words, and those which pro-
