Barber-Bennett

A wedding of more than passing interest on account of the popularity of the contracting parties, took place very quietly Saturday morning at 6.30 when Mr. Manfred Barber, of the Bank of Hamilton, and Miss Cara Bennett, youngest daughter of Dr. and Mrs. J. A. Bennett, were joined in matrimony. The happy event was solemnized at the residence of Mr. Jas. Noble, the local postmaster, by the Rev. D. M. Buchanan, B. A., pastor of Knox church, the only witnesses being Mr. and Mrs. Noble, who are close friends of the bride and groom.

Miss Evelyn Sowter, a girl chum of the bride, and the happy young couple left on the morning train for Toronto, going direct from there to Chesley where Mr. Barber on Monday morning took charge of the Bank of Hamilton's branch.

Mr. and Mrs. Barber will be greatly missed from Jarvis social circles, but they leave with the best wishes of their many friends for the future. The Record joins in extending congratulations.

Easy To Mix This.

What will appear very interesting to many people here is the article taken from a New York daily paper, giving a simple prescription, which is said to be a positive remedy for backache or kidney or bladder derangement, if taken before the stage of Bright's disease:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known druggist here at home, when asked regarding this prescription, stated that the ingredients are all harmless, and can be obtained at a small cost, from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescription is often prescribed in rheumatic afflictions with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache, as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial.

Rabies in Simcoe

Simcoe, March 22.—Rabies has again broken out in Simcoe. A small black dog belonging to Frank LaFortune, a liveryman, showing signs of having been affected, was destroyed last Friday, and one belonging to Mr. F. R. Pursel was shot on Saturday. It appears that LaFortune's dog bit a lad about eleven years of age named Gurling on Thursday, and it has been thought advisable to have the boy taken to the Pasteur Institute at New York.

At a special meeting of the town council to-day it was decided to assist in the expenses of sending the boy. The mayor has issued a proclamation that all dogs must be muzzled for two months; and it is hoped that this regulation will prevent any more trouble.

Struck Plaster

Caledonia, Schem.—Mr. James Old struck a great vein of plaster on his farm last week, two feet of pure white and eight feet of gray, which tests within a few points of perfect. The white plaster is covered with a slate top, which makes it one of the best plaster beds in Ontario. It is Mr. Old's intention to sink another shaft at the other end of the farm at once, and if he finds the quality as good as the last three shafts he certainly has something to be proud of. He deserves all his success, as he has spent a lot of money in finding out what was there.

Tilsburg, March 21.—Effie Ryan, a 12-year-old girl, who lives at Courtland, near here, is in a dying condition as the result of a shooting accident. The child and her brother, Roy, who is 10 years of age, found a gun lying on a table in their home. The boy pulled the trigger in fun and the loaded weapon was discharged, a bullet entering the girl's side.
