An interesting contest is on in this vicinity at present between two gas rigs, one owned by Werner Bros. and located on the Harrison estate, and the other is a Canadian rig owned by Messrs Sutherland and Sinclair and located on the Woodlawn property. These two rigs are the leaders in the field of each kind and are said to be the best in the country. They started to drill on the same day and are down about 600 feet each. They are both credited with drilling 100 feet per 24 hours. It is understood that there are many little side bets on them as to the results. Take your choice and place your money.

What is the matter with Woodlawn Park this week? There is very little stir. Explain the cause of it.

Some flurries of snow were seen last Friday, which is a sure sign of an early winter.
