The G. T. R. Co. has a gang of men building new stock yards just east of where the grain elevator stood, and from appearance they will be large and convenient. The old yards were partly destroyed by fire on Wednesday last, and no doubt that is the reason the G.T.R. Co. are building larger and more convenient one. The old yards were too small for the amount of shipments from here, and they were in a disgraceful condition.

Coyne is doing a very large business in the bread line, not only in town and delivering it to the farmers, but ships large quantities to Hagersville and other villages.

Last October A. W. Moot gave up the management of The Record and has since resided with his aged mother in Dunnville, where he would still have been had not the former manager resigned his position in The Record office. Now after nearly a year's absence, A. W. Moot again takes the management of The Record and hopes to be able to make the paper as bright and newsy as ever it was, and asks the patrons and public in general to give The Record the very liberal support in the future as they have done in the past.

## A "Wise" Correspondent.

To the Editor of The Jarvis Record.

DEAR SIR.—With your permission I desire to insert a few lines in your valuable paper in reply to certain news items appearing in the Haldimand Advocate of last week, from the pen of the Jarvis correspondent. In his open abuse of people in general he attacks the Management of the Walpole Fair, and the make-up of its prize lists. He says, among other things, that there is no change in the lists from former years. I wonder what this correspondent expected to see. A prize list is only what the name implies, it is not a guide to health, or a weather indicator, but just a prize list, and in the opinion of people who are better able to judge of its merits, than this ranting correspondent, have pronounced it equal to any of the many prize lists issued by the different Fair boards throughout the province.

His unmanly attack upon the Villa Nova band was also unwarranted, from the fact that they are filling a return engagement here this year, and that the quantity and quality of their music will compare favorably with any band outside of the large cities (Cayuga excepted).

This great journalist forgot one item in his round of abuse, he should have attacked the Township Clerk for the manner in which he prepared the Voters' Lists, as it looks just the same as last year. There should have been a few short stories added to have made it more interesting reading for this correspondent.

In conclusion, could not this bright idea be induced to make himself known to the public as a number of organizations require his service. The Fair Management needs him bad, the Town Commissioners require looking after, the business men of Jarvis desire to consult with him as to where they should locate, and in fact every body wants him to eat a little more common sense.

Yours truly  
A SOCIETY MEMBER.

## Hard Hits.

Editor Jarvis Record.

SIR.—We notice in the Jarvis items in the Cayuga Advocate some hard hits at the residents of Jarvis. We do not deem it advisable to boom our town by advertising its faults in foreign papers. One naturally thinks the clever correspondent is paid for these hits against his town. Why not notify the Commissioners of any seeming negligence before sowing them broadcast throughout the county?

We would advise the Commissioners to advance the correspondent to the position of Mayor so that his efforts to build up the town might "materialize." Further, they might attach sufficient salary to the office to enable him to purchase the remaining closed up houses to relieve the present stringency.

Yours, etc.  
A RESIDENT.

Our Wednesday market continues to grow, there being a larger number of farmers on the market to-day than on any former day, and a large lot of butter, eggs, fruits and vegetables were for sale. ## Grain Elevator Burned.

Last Wednesday afternoon, at about five o'clock, fire was discovered in the roof of Ivey & Co's grain elevator at the G. T. R. switch here, and in a very short time the whole building was a mass of flame, and was totally destroyed with its contents of about 2000 bushels of grain. The fire is supposed to have originated from a spark from a passing engine, as there had been no one in the building that day.

The total loss is fully four thousand dollars, and is pretty well covered by insurance.

Although Ivey & Co. will not be great losers, on the building and contents, it is hard to say to what extent the damage will be to them as at this time of the year grain begins to be marketed quite freely. However, we are glad to state, that the firm will at once erect a temporary storehouse and will be prepared to handle grain when the rush comes. It is their intention to build a first-class elevator next summer.

We understand Richard Roberts and Arthur Belbeck both had about 200 bushels of grain stored away in the elevator. We do not know just the amount of their loss but hope insurance will cover it.

The following additional special prizes are being offered at the great Fall Fair here on October 5 and 6.
