

Not a Drop of Alcohol

What is a "tonic"? A medicine that increases the strength or tone of the whole system. What is an "alterative"? A medicine that alters or changes unhealthy action to healthy action. Name the best "tonic and alterative"? Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. Ask your own doctor all about it. Never take a medicine doctors cannot endorse. J.C. Ayer Co., Lowell, Mass.

Without daily action of the bowels, poisonous products must be absorbed. Then you have impurities of blood, biliousness, headache. Ask your doctor about Ayer's Pills for constipation.

NERVOUS DEBILITY

Thousands of young and middle-aged men are annually swept to a premature grave through Early Indigestion, Excess and Blood Diseases. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent, irritable, palpitation of the heart, bashful, dreams and losses, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, listless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, weak manhood, premature decay, bone pain, hair loose, sore throat, etc.

OUR NEW METHOD TREATMENT can cure you and make a man of you. Under its influence the brain becomes active, the blood purified, so that all pimples, blotches and ulcers disappear, the nerves become strong as steel, so that nervousness, bashfulness and despondency vanish, the eyes become bright, the face full and clear, energy returns to the body and the moral, physical and sexual systems are invigorated; all drains cease—the more vital waste from the system. Don't let quacks and fakirs rob you of your hard earned dollars. We will cure you or we pay.

Crops for Sheep.

The wise shepherd in planning his crops for the year has regard to the needs of his flock. He recognizes the great advantage of providing not only a variety of foods but a succession of succulent crops the season through. Bulletin No. 12, "Sheep Husbandry in Canada" published and issued free by the Live Stock Branch at Ottawa, takes up this subject in a practical and thorough manner. Under special crops for sheep it deals with clover, alfalfa, vetches, rape, cabbage, turnips, mangels, corn and the several classes of grain. Each is treated separately in regard to method of cultivation and manner of feeding. Dealing with vetches the bulletin says:

Vetches, or tares as they are also called, make excellent fodder for sheep, either as a soiling crop or as cured hay. This crop resembles peas in habit of growth and requires about the same cultivation. Its vines are more slender than pea vines and stand up better when grown with a stiff variety of oats. Vetches are grown extensively for sheep feed in Great Britain, and to some extent in Canada for the same purpose. The writer, while raising sheep, always grew a small area of tares with oats for soiling the show flock, and in case of a shortage of clover vetches were cured for hay. The crop being fine in vine and very leafy is much relished by sheep and constitutes a rich diet.

Two varieties of vetches are grown for fodder. The common vetch is the chief sort cultivated, but the hairy variety is receiving some attention. The latter produces the heavier yield, but so far the seed having to be imported is very expensive and few care to bother with it.

The soil for vetches should be clean, mellow and rich. The seeds may be sown in drills or broadcast. A good seeding for either soiling or hay is about three pecks of vetches and four pecks of oats per acre. The vetches are ready to feed any time after the crop comes into blossom and before the seed commences to ripen. For soiling the crop may be hauled to racks, or distributed on the soil of a pasture field as soon as cut, or it may be allowed to wilt in the swath for a few hours. Vetch hay is made in much the same manner as clover or timothy is handled. Vetches may be pastured by sheep, but this is a wasteful practice, as much of the crop is destroyed by tramping.

Sheep raisers who do not already possess a copy of this bulletin would do well to order one from the Live Stock Commissioner at Ottawa.

Peter Giroux lost both legs by going to sleep on the M.C.R. track at Windsor.

Land For All Comers.

Ottawa, April 10.—The Department of the Interior has issued a new homestead map of the prairie Provinces, showing at a glance the disposal of lands already taken up and the amount yet available for settlement. Out of a total area of 334,894,320 acres, the surveyed area is now 145,249,985 acres. The total area under homestead entry, including patented homesteads, is 44,027,000 acres. Railway grant lands total 31,865,074 acres; school lands, 7,948,500 acres; Hudson's Bay Co. lands, 6,565,000 acres, and lands otherwise disposed of, 11,490,100 acres. The total area under grain crop last year was 11,960,000 acres, of which the area under wheat was 6,878,000 acres, producing 147,000,000 bushels. The total area cultivated is only as yet about one-twelfth of the total surveyed area considerably less than one-third of the homestead land, and about one-twenty-eighth of the total land area.

Dangerous Dandruff.

Will Make Canada Baldheaded Nation if Not Checked

M. Pasteur, the great French Physician of Paris, once said: "I believe we shall one day rid the world of all diseases caused by germs."

Dandruff is caused by germs, a fact accepted by all physicians.

Dandruff is the root of all hair evils. If it were not for the little destructive germs working with a persistency worthy of a better cause, there would be no baldness.

Parisian Sage will kill the dandruff germs and remove dandruff in two weeks or money back.

T. E. Morrow, guarantees it. It will stop itching scalp, falling hair and make the hair grow thick and abundant.

It puts life and lustre into the hair and prevents it from turning gray.

It is the hair dressing par excellence, daintily perfumed and free from grease stickiness. It is the favorite with women of taste and culture who know the social value of fascinating hair.

A large bottle costs 50 cents at leading druggists everywhere, and in Jarvis by T. E. Morrow. The girl with the auburn hair is on every package.
