

# BANK OF HAMILTON

One who saves is not considered a miser.  
Rather he is given credit for much good sense and judicious forethought.  
He looks ahead and sees, perhaps sickness, accident, or any one of the multitude of things which might cause an unusual strain upon his resources.  
One Dollar will start an account with the Bank of Hamilton.

J. A. CAMPBELL,  
Agent, Jarvis Branch

## The Jarvis Record

WEDNESDAY, AUG. 10, 1910.

### Enumeration Of Census Values.

The farm and urban values of the census of 1911 will be enumerated under the date of 1st June. They will include the real estate and live stock values of each enumeration district at that date, of the live stock and nursery stock sold in 1910, of the dairy products consumed at home, sent to factories or sold, and of the animals slaughtered on the farm in the same year, together with values of other products of the farm.  
Land and buildings and farm implements and machinery owned by every person in the enumeration district will be recorded separately for values in 1911, and the rent of land and buildings will also be recorded if leased in that year. Values will be taken for orchard fruits, small fruits and vegetables separately for 1910; but values of horses, milch cows, other horned or neat cattle, sheep, swine, poultry and hives of bees will be taken separately for 1911, at the date of the census.  
The values of live stock and nursery stock sold in 1910 will include horses, milch cows, other horned or neat cattle, sheep, swine, poultry and hives of bees, and of nursery stock, which means fruit and ornamental trees grown for transplanting into orchards, gardens and parks.  
Dairy products consumed on the farm, and sent to factories or sold, refer to products of the year 1910. They include the values of milk, cream, home-made butter and home-made cheese.  
Animals slaughtered on the farm in 1910 will be recorded for the values of horned or neat cattle, sheep, swine and poultry. Horses are not included in these values, as in our country their meats are not used for food.  
The values of other products of the farm include those of eggs, honey and wax for 1910, and wool, maple sugar and maple syrup for 1911.  
The enumeration of hired labour on the farm refers to the year 1910. It will give the total number of weeks of labour employed, which means the number for all men who work for hire on the farm, and the total amount paid for hire, including allowance for board. The payment should be reckoned for the full time of service, and should include the value of board. The inquiry relating to earnings for domestic service is asked for in Schedule No. 1.  
In addition to the foregoing inquiries of values, a question is asked for the value of all lands and buildings not manufacturing establishments or mines owned in Canada in 1911 which are outside of the enumerator's district.

New York, Aug. 7.—Commander Peary's ship, the Roosevelt, which carried him north on his last successful dash to the Pole, caught fire early this morning while lying in her berth in the East River. Flames broke out, supposedly from spontaneous combustion in a rubbish heap on the port side amidships but they were quickly drowned by the night watchman. The damage was slight.

## The Crop That Pays.

(From Commission Of Conservation Press Service.)  
No farmer can make the statement that one crop pays better than another. The amount of the return depends largely upon the character of the land on which the crop is grown. One kind of land brings the greatest return for a certain crop; another piece of land of different quality would perhaps yield a very small return if sowed to the same crop. Finding out the particular class of crops the land is best suited to growing is therefore a very important matter for the wide-awake farmer.  
A splendid example of what can be gained by the intelligent adaptation of crops to soil conditions is to be found in the county of Norfolk, Ontario. In certain parts of that county there are considerable areas of sandy land that cannot hope to compete with heavier, richer soils in the growing of wheat and other staple grains. Thus, farmers who attempted to grow these crops found that their profits were not as satisfactory as might have been desired. Some years ago, however, a few men noted that the soil and climate of the county were well suited to growing fruit, especially apples. The Norfolk Fruit Growers' Association was formed and forthwith started a reputation making campaign. All members agreed to care for and spray their orchards as stipulated by the rules of the Association. Incidentally, too, all fruit was to be marketed through the central agency. The results have been little short of phenomenal. The orchard acreage has been largely increased, Norfolk apples are now held as second to none in the markets of the world and the profits have been most gratifying. As a consequence, land values, in the last six years, have doubled.

And this has been accomplished mainly by selecting the crop best adapted to the soil. The work that the Commission of Conservation has undertaken, of classifying lands according to the character of the soil to determine what crops can most profitably be grown, is therefore a task of no small importance. If the Commission points out the crops that pay the best on different soils both farmer and the nation will be the richer for it.

## Radiant Hair.

New York Society Women's Hair Matched Only by Parisians.

While much attention is given to choicest gowns by New York society women, the turbulent fad just now is the care of the hair.

For many years the clever women of Paris have been famed for the magnificent beauty of their hair. "Glorious hair," a Virginian calls it "so radiant and luxuriant that it not only attracts but fascinates and compels unstinted admiration."

But now that the elite of New York, ever anxious to improve their beauty, have learned that Parisian Sage, a remarkable and almost marvelous hair nourisher and beautifier, is almost entirely responsible for the charming hair of the ladies of France, the demand for it has become enormous.

Parisian Sage is now sold all over Canada and in Jarvis by T. E. Morrow, who is glad to guarantee it to eradicate dandruff, stop falling hair and itching scalp in two weeks or money back. Large bottle 50 cents.

## How The Blind Read And Write.

Accompanying his annual letter, in which he asks the readers of the Record to send him the names and post-office addresses of any boys or girls, known to them, whose eyesight is so defective that they cannot attend the Public Schools with advantage, Principal Gardiner, of the Ontario Institution for the Education of the Blind, at Brantford, sends us a card on which he has printed, without ink, the letters used by the blind in their reading. These letters are composed of raised dots or points, arranged in two horizontal rows, and the combinations of points that have been contrived to represent the various literary, numeral and musical characters are most ingenious. Point letters are much easier to read with the fingers than line letters, and blind children soon learn to read and write words, figures and music signs, the writing being done with a steel stylus and a brass frame

## Are Doctors Any Good?

Foolish question! Yet some people act as if a medicine could take the place of a doctor! The best medicine in the world cannot do this. Have a family doctor, consult him frequently, trust him fully. If we did not believe doctors endorsed Ayer's Cherry Pectoral for coughs and colds, we would not offer it to you. Ask your doctor. No alcohol in this cough medicine. J.C. Ayer Co., Lowell, Mass.  
If we did not believe doctors endorsed Ayer's Pills for constipation, biliousness, sick headache, we would not offer them to you. Ask your own doctor about this.

## Farm Laborers Wanted FOR WORK IN WESTERN CANADA

\$10.00 TO WINNIPEG  
AND POINTS EAST OF MOOSE JAW

GOING DATES

Friday, August 12th, and  
Tuesday, August 16th

From KINGSTON SHARBOT LAKE  
AND ALL STATIONS WEST IN ONTARIO

Representative farmers, appointed by the Government, will meet and engage laborers on arrival at Winnipeg. Free transportation will be furnished to points on C.P.R. where laborers are needed, east of Moose Jaw, including branches, and at one cent a mile each way West through Saskatchewan and Alberta. A certificate is furnished with each ticket, and this certificate when executed by farmer showing that laborer has worked thirty days or more, will be honored from that point for a second class ticket back to starting points in Ontario, at \$18.00, prior to Nov. 30th, 1910. Tickets are good going only on special Farm Laborers' trains and will be issued to women as well as to men, but will not be issued at half fare to children.  
For full particulars see nearest C.P.R. agent, or write R. L. THOMPSON, D.P.A., C.P.R., TORONTO
