Thrift As A National Asset.

(Extract From Toronto "Globe" of June 11, 1910.)

The Globe prints this morning the text of a remarkable address delivered before the Employers' Association of Toronto last night by Mr. S. T. Bastedo, Superintendent of Government Annuities. The address should be read by every good Canadian, and carefully considered.

The day of opportunity on the American continent is passing. The free lands will be exhausted in another quarter of a century. Great cities here, as in Europe, must inevitably mean at times unemployment and suffering.

The fear of poverty must become ever present in many lives, and above all, the dread of poverty in old age, when the capacity of earning is gone.

There is need for provision to meet the conditions that will come as inevitably as tomorrow's sunrise. Thoughtful men are beginning to see an end of the material resources of the continent and are preaching thrift. The conservation of the forests, of the water-powers, of the coal and iron, is preached daily from a hundred platforms. Here and there a voice is raised to tell us that we are as wasteful individually as in the national sphere, and that personal thrift is as much needed as collective thrift.

That lesson is reinforced when we read of men once eminent, rich and prosperous, dying in almshouses because they never recognized the necessity for saving. Let us come nearer home with the argument.

There are ten thousand mortgaged homes in this city to-day in which every ounce of energy is devoted to keeping up appearances, to carrying the daily financial burden-homes in which there is nothing but dark foreboding when a look is cast forward to old age. To the hundreds of thousands of Canadians who are living up to their incomes, or just a little beyond it, Mr. Bastedo's address should appeal mightily.

The Parliament of Canada has gone a long way to encourage the people of the Dominion to make provision for old age. It has established a Government Annuities system, and it is hoped ultimately to make provision for the declining years of the great mass of the people. The Government pays the entire cost of management, and every dollar put in comes back to the annuitants with four per cent. compound interest. The money may be paid in at any money order office; it cannot be withdrawn, or seized for debt, or used in any other way. At 55 years of age, or later if preferred, the annuity begins, and continues till death. By supplementary provisions, if it is desired, the money paid in—should the depositor die before the annuity begins—is returned to his or her relatives with 3 per cent. interest. Should anyone begin to pay for an annuity and be unable to keep up the payments the amount—if insufficient to provide \$50 per year of annuity—will be returned when the depositor reaches the age of 55, together with 3 per cent. compound interest. In effect, therefore, there is placed at the disposal of every man, woman and child in Canada, without cost other than the expense of administration borne by all the people of Canada, a safe, convenient and simple way of providing for old age.

The movement is worthy of the encouragement of all leaders of public opinion. The young do not so well understand the shadow cast before by an old age of penury or financial anxiety as those of maturer years. They need sometimes to be reminded how that prince of good fellows, Robert Burns, looking back over a youth of folly and extravagance, sadly penned the lines:

"But pleasures are like poppies spread;  
You seize the flower, its bloom is shed;  
Or, like the snowflake on the river,  
A moment white, then melts forever."

Great damage was caused by lightning in Bruce and Perth counties.

SOME JULY CONTRASTS.

On the milk record sheets received at the Dairy Division, Ottawa from members of cow testing associations there are found some good yields of milk and butter fat for July: for instance, in the Bertie, Ont., association one cow that freshened in May gave 132½ pounds of milk, testing 4.0 per cent of fat, equal to 52.8 pounds of fat. One herd of 17 cows at Glandorf, Ont. has an average of 92½ pounds of milk, the herd including 5 two-year-olds. Some cows in this herd have given 4940 pounds of milk in four months. At Cassel, Ont., 183 cows average 858 pounds of milk, 3.5 test, 28.3 pounds of fat. The records of many individual cows in these and other associations show a yield of barely 650 pounds of milk and 22 pounds of fat, or less than half of many good yields.

Dairy farmers, it is not difficult for you to make three very simple deductions from these remarkable contrasts. First—there are plenty of cows still being kept for milk production that are not worthy the name of Dairy Cows. Second—scores of dairy farmers are getting excellent records from selected herds. Third—records alone do not increase the yield of milk and butter, there must be intelligent selection of good cows based on the lessons that individual records teach. Ottawa, Aug. 1910. C. F. W.

## Ontario's Best Dairy Farmers.

The six farmers who have won the highest places in the Prize Dairy Farm Competition that has been in progress throughout Canada during the past two years, under the management of Farm and Dairy of Peterboro, assisted by the Dairymen's Associations of Ontario and the Dairy Cattle Breeder's Associations, will be announced with details of their scores, in this week's issue of Farm and Dairy. The first prize has been won by R. A. Penhale, St. Thomas, Ont. with 777 points. The next five farmers and their total scores are: 2nd—J. W. Richardson, Caledonia, Ont. 765 points; 3rd—E. Terrill, Wooler, Ont. 752 points; 4th—O. D. Bales, Lansing, Ont. 750 points; 5th—D. Duncan, Don, Ont. 742 points and Victor Begg, Moose Creek, Ont. 736 points.

The judges were Mr. Simpson Rennie, of Toronto, whose farm won the gold medal in the competitions held some years ago, and Mr. W. G. Stephen, of Huntingdon, Quebec. The contest was an exacting one. One thousand points were offered, including 150 for the house, 150 for the buildings, 200 for the crops, 200 for the live stock, 150 for methods of farm improvement, 75 for machinery and 75 for permanent improvement. About fifty farms located in all parts of Ontario were entered in the contest last year, when the province was divided into four districts and prizes were offered for the best farm in each district. The contest this year was restricted to the prize winning farms in each of the four districts last year.

The competition just concluded, has been so successful that the management has decided to hold another similar contest starting next year, open to all dairy farmers throughout Ontario. The principal prize winner in the present competition will not be allowed to take part in the next contest. As we have many fine farms in this country some of our farmers should enter their farms. Particulars may be obtained from the secretary, H. B. Cowan, of Peterboro, Ontario.

Parisian Sage, the Hair Grower, is Now Sold in Canada on Money Back Plan

It's a mighty good thing for the women of Canada that Parisian Sage can now be obtained in every town of any consequence.

Parisian Sage is the only certain destroyer of the dandruff microbe which is the cause of 97 per cent of hair troubles.

These pernicious, persistent and destructive little devils thrive on the ordinary hair tonics. Parisian Sage is such an extraordinary and quick acting rejuvenator that T. E. Morrow who is the agent in Jarvis guarantees it to cure dandruff, stop falling hair and itching scalp in two weeks or money back.

It is a magnificent dressing for women who desire luxuriant, lustrous hair that compels admiration. And a large bottle of Parisian Sage costs only 50 cents at T. E. Morrow's and all over Canada.
