Good October Yields

During these days of late fall when the cheese factories are closing and there is not much doing is some creameries, there are a good many cows whose production is well worth nothing. If records of milk and fat are to be of value to the dairy farmer, assisting him to determine which cows to keep and which to beef, particular pains should be taken to include the yield of the early and late months of lactation. Four or five weeks yields may make considerable ditference in totals that are apt to be considered complete when the factory closes. Don't be misled as to the value of a cow by incomplete records. It would be well to use every endeavor to prolong the milking period into the season when prices for butter are advancing. The contracts below show that some men are doing this.

October Records		Low Average		
Cow Testing Assoc'n		lb milk	test	lb fat
Griffin, Que.,	59 cows	346	4.4	15.6
Wotton, Que.,	30 "	306	4.5	14.0
Medium Herds				
P'tdu Jour, Que	47 cows	542	4.2	23.4
St Prosper, "	31 "	609	4.5	27.9
Good Cows in the above medium herds				
1 Caved April	8	710	4.2	29.8
2 " "	15	750	4.4	33.0

These good cows yield more than twice the fat given by the poorer cows above.

Preparing Poultry for Market

The care which is taken in killing, plucking and packing poultry, if the poultry are well fleshed in the first place, decides the grading which they will get on the market. The little extra time and trouble spent in properly killing and packing the birds will be well repaid by the fancy prices paid for poultry of first quality. Poultry intended for shipment to our larger cities in particular should be well dressed as the best class of buyers on these markets are very discriminating and a few small points may make a big difference in the price. Gunns' Limited, Toronto, give the following pointers on dressing poultry which all poultrymen would do well to consider carefully:

1. Starve the birds 24 hours before killing to empty the crops.
2. If possible, kill by bleeding in the mouth.
3. Pluck while still warm, removing all feathers on turkeys, geese, ducks, fowls and chickens.
4. Birds should hang at least 8 to 12 hours before packing, if possible over night so that the animal heat may have an opportunity to escape from the body.
6. Pack neatly in suitable cases, boxes or barrels.
7. If possible have the birds in each package of uniform weight, quality and appearance.
8. Pack inferior birds in separate packages.
9. Mark on each package your name and address, also number of birds contained therein, kind and net weights.
10. Never scald poultry to remove the feathers. If scalded birds are offered for sale, buy them at the same figure you would pay for inferior or number two stock.

That Bald Spot.

Don't let that bald spot grow!

Go to your druggist at once and get a bottle of Parisian Sage and if that don't check the falling hair, and cause new hair to grow, nothing will.

Dandruff is the cause of baldness; dandruff germs cause dandruff. Parisian Sage kills the germs, eradicates dandruff, stops falling hair and itching scalp. We will refund your money if it fails to do this in two weeks. Parisian Sage will cause the hair to grow, if the hair root be not dead. It causes the hair to grow thicker, more luxuriant, and puts new life into it.

The girl with the Auburn hair is on every package of Parisian Sage. It is sold for 50c. by all druggists or sent postpaid by the Giroux Mfg. Co., Fort Erie, Ont. on receipt of price. Sold and guaranteed by T. E. Morrow.

A Startling Statement

It has been said by those who have investigated the matter carefully that, although at the age of 45 fully 80% of men are established in whatever pursuit they follow and are in receipt of incomes in excess of their expenditures; at the age of 60 it has been found that 95% are dependent upon their daily earnings, or upon their children for support. Many, no doubt, read the despatch from Detroit which recently appeared in the Canadian papers, and which described the condition of a man who but a little more than 40 years ago was a "financial power" in that city, who had a "palatial home" on one of the most fashionable thoroughfares, entertained lavishly, and to whom every person high and low, was prepared to pay homage. But the fates were against him. He suffered serious financial losses, and when he began to ge down hill he found it was properly greased for the occasion. His friends deserted him like rats from a sinking ship, and now at 80 years of age, after his day's labor, he wends his way to the city with the bent, broken down old man, who have influence enough to have names on the city's pay roll.

The Moral is that out of your abundance something should be laid aside for declining years, and invested where thieves cannot reach it, and where one cannot be deprived of it in any possible way. This means is afforded you under the Canadian Government Annuities Act which the Parliament of Canada passed in the Session 1908, and which received the unohimous support of both sides of the House. You may get all information by applying at the Post Offich, or by addressing the Superintendent of Annuities Ottawa.

Municipal Election Dates.

The same old complaint is arriving from different sources, at the inconvenience of holding the municipal election during the holiday season. The Brantford Expositor is the first to arrive with the complaint this year, closely followed by the Stratford Beacon. Referring to the matter The Brantford Expositor says: "Next January the municipal elections will be held, and New Year's Day celebrated on the same day, viz.: Monday, January 2. The Torontonians seem to perfer having their municipal elections at all times on New Year's Day, but we venture to assert that the great majority of the people of Ontario would prefer to keep the two entirely separate." The Stratford Beacon says it "has protested against any movement to place the municipal elections in the rest of the province on New Year's Day." More, it has contended that the municipnl elections should not be held in the holiday season at all. It would be better to hold them about the 1st of February, and then a full financial statement for the calendar year could be presented, no business being done in January except what is absolutely necessary. By organizing immediately after the election, the Council could get to work almost as soon as it does now."

Cost of Upper Berth

Reform of sleeping-car abuses by a Governmental requirement that a less toll shall be enacted for an upper berth than for a lower one is expected by students of railroad problems to be the eventual outcome of the proceedings now under way before the Interstate Commerce Commission. Already the first Federal move in that direction has been made by such a change ordered by the commission on sleeping car service between Chicago and St. Paul and St. Paul and Seattle and other points.

Football during the recent season has killed 22 and injured 500. Deer hunting has a much greater record of fatalities and a much smaller record of injuries.

Guelph will have an unusually large number of exhibitors to entertain during the week of the winter Fair. There are 127 horsemen alone on the list which Oity Clerk Moore has received from Secretary Westervelt. The total number to be entertained at the three days' civi luncheons on Tuesday, Wednesday and Thursday is something over 400.
