Make Each Animal Worth 25% Over Its Cost

On 2/3 of a Cent a Day

Nobody ever heard of "stock food" curing the bots or colic, making hens lay in winter, increasing the yield of milk five pounds per cow a day, or restoring run-down animals to plumpness and vigor.

When you feed "stock food" to your cow, horse, swine or poultry, you are merely feeding them what you are growing on your own farm. Your animals do not need more food, but something to help their bodies get all the good out of the food you give them so they can get fat and stay fat all year round; also to prevent disease, cure disease and keep them up to the best possible condition. No "stock food" can do all these things. ROYAL PURPLE STOCK SPECIFIC can and does.

Not a "Stock Food" But a "Conditioner"

ROYAL PURPLE STOCK SPECIFIC contains no grain, nor farm products. It increases yield of milk from three to five pounds per cow per day before the Specific has been used two weeks. It makes the milk richer and adds flesh faster than any other preparation known. Young calves fed with ROYAL PURPLE are as large at six weeks old as they would be when fed with ordinary materials at ten weeks.

ROYAL PURPLE STOCK SPECIFIC builds up run-down animals and restores them to plumpness almost magically. Cures bots, colic, worms, skin diseases and debility permanently.

Don McSwain, the horseman, says: "I have used ROYAL PURPLE STOCK SPECIFIC persistently in the feeding of 'The Best' 2,000, largest winner of any race on Grand Circuit in 1908, and 'Henry Winters', 2,000, brother of 'Alice Winters', winner of \$36,000 in trotting stakes in 1908. These horses have never been off their feed since I commenced using Royal Purple Specific almost a year ago, and I will always have it in my stables."

Royal Purple

STOCK AND POULTRY SPECIFICS

One 50c. package of ROYAL PURPLE STOCK SPECIFIC will last one animal seventy days, which is a little over two-thirds of a cent a day. Most stock foods in fifty-cent packages last but fifty days and are given three times a day. ROYAL PURPLE STOCK SPECIFIC is given but once a day, and lasts half again as long. A 15c. package containing four times the amount of the fifty-cent package will last 200 days. ROYAL PURPLE will increase the value of your stock 25%.

It is an astonishingly quick fattener, stimulating the appetite and the outfit for food, assisting nature to digest and turn feed into flesh. As a hog fattener it is a leader. It will save many times its cost in veterinary bills. ROYAL PURPLE POULTRY SPECIFIC is our other Specific for poultry, not for stock. One 50c. package will last twenty-five hens 70 days, or a pair costing \$1.50 will last twenty-five hens 200 days, which is four times more material for only three times the cost. It makes a "laying machine" out of your hens summer and winter, prevents fowls losing flesh at moulting time, and cures poultry diseases. Every package of ROYAL PURPLE STOCK SPECIFIC or POULTRY SPECIFIC is guaranteed.

Just use ROYAL PURPLE on one of your animals and any other preparation on another animal in the same condition; after comparing results you will say ROYAL PURPLE has them all beat to death, or else back comes your money. FREE—Ask your merchant or write us for our valuable 32-page booklet on cattle and poultry diseases, containing also cooking recipes and full particulars about ROYAL PURPLE STOCK and POULTRY SPECIFICS.

If you cannot get Royal Purple Specifics from merchants or agents, we will supply you direct, express prepaid, on receipt of \$1.50 a pair for either Poultry or Stock Specifics.

Make money acting as our agent in your district. Write for terms. I

Its Forest Wealth.

Nova Scotia Takes Measures to Get Accurate Estimate.

The province of Nova Scotia during the past summer inaugurated a survey of its forest lands, thus setting an example to the other provinces of the Dominion in this regard. The southwestern part of the province, from Hants county westward, was covered this past summer and it is expected the survey will be completed next summer.

Conditions allowed of only a rough survey, or "reconnaissance." The survey was carried out under the direction of Dr. B. E. Fernow, dean of the faculty of forestry of the University of Toronto. Several trained foresters, along with the Chief Fire Warden of the province, were employed on the survey, and under the plan of operations adopted each of these was assigned a certain district and allowed considerable liberty in his choice of the method of covering this to the best advantage. Existing records and other information secured from well-informed persons was taken as far as possible and advisable, with a view of saving time and expense; the fieldwork consisted largely in checking the information, study of forest types, etc.

The information obtained was plotted in the field directly on maps of large scale (2 inches to the mile) provided for the purpose. Among the points of greatest importance thus noted were the extent of the burned areas, the conditions of the reproduction and the character of farming lands, meadows, etc., within the farming country.

The cost of the survey is a point of considerable note, as it averaged less than twenty cents per square mile. The total area of the country covered was about 8500 square miles.

The future of the forest is the point of greatest interest to the forester, and in this regard Dr. Fernow has some interesting observations to make. He says: "Although the rate on reproduction and rate of growth are not yet collated, it is safe to say that if the fires are kept out (and apparently with the present organization still further perfected this can be done reasonably well) there is no difficulty in restocking by natural means most of the cut-over areas, if not too severely culled. In the pure hemlock spruce stands all that is necessary is to remove the old hemlock thoroughly and cleanly to have the young growth of spruce, already established on the ground, take its place."

He takes occasion, however, to correct erroneous impressions as to the growth of spruce. While the white spruce, growing in comparatively open situations, may, he says, make a sawlog in sixty years, the forest spruce, which is mostly red spruce, grows more slowly and will probably not average a sawlog in less than one hundred years.

It is found that, to a large extent the different species of trees are localized. The white pine is found, for the most part, in Shelburne and part of Queen's, the hemlock most prominently in Annapolis and the spruce in Digby counties.

Nova Scotia is to be heartily congratulated on taking this forward

Accident at Funeral.

Windsor, Feb. 19.—During the funeral services over the body of Miss Gladys Pennington, an estimable young Windsor girl, at the parents' residence on Karl place this afternoon the floor of the entire lower portion of the house gave way and fell a distance of two feet. Women screamed and several fainted. The casket tottered and would have fallen, but was saved by the pall-bearers. The house was crowded with friends of the family, and the unusual weight caused the joists to give way. No one was hurt, but the services of a physician were required to calm the nerves of the excited women.

A Positive Cure for Indigestion.

If you have indigestion, your food ferments in the stomach and bowels. It does more: it decays, and the nutritious blood decays with it, and this leads to an impoverished condition of the blood, to nervousness, biliousness, constipation, sick headache, bad breath which disgusts your friends, and other disagreeable and unpleasant conditions.

And all this trouble is caused by the food that doesn't digest, but oftentimes rots in the stomach.

And fermentation is caused by the stomach not being strong enough to thoroughly mix the food with the digestive juices.

M-I-O-N-A is responsible for tens of thousands of cures. In fact, it is such a positive cure for indigestion and all stomach troubles that it is guaranteed by T. E. Morrow to cure or money back. The price of a large box of Mo-o-na tablets is 50 cents, and they are sure to promptly relieve the worst case of indigestion or gastritis. Try them.

HYOMEI

(PRONOUNCED HIGH-O-ME)
CURES CATARRH, ASTHMA, Bronchitis, Croup, Coughs and Colds, or money back. Sold and guaranteed by T. E. MORROW.

Hagersville, Ont. Feb. 19.—Jesse, the second son of Edward Cole, residing one mile north of town was instantly killed at 7 o'clock this morning while walking to town on the G. T. R. tracks. He was struck by the snow plow. The boy was 15 years of age.

London, Feb. 19.—According to an official return Canada takes second place among the leading countries of the world in the percentage of increase in trade during the last decade.

New York, Feb. 19.—"What is this anyway—a steamship or a dove-cot?" asked the gallant captain of the Oceania as it steamed away today for the Bermudas. On board the Oceania were no less than fifty-two newly-wedded couples, which is the record passenger list for newly-weds.

Montreal, Feb. 20.—R. O. Shorey, who was the pioneer commercial traveller from Montreal to visit Winnipeg, died here to-day, aged 62 years. He was a clothing manufacturer until his retirement five years ago, and in 1876 went from Montreal to Winnipeg in quest of orders for his father, who was then head of the firm. He was also the first passenger with a purchased ticket to travel on the Canadian Pacific. He had this distinction on December 5, 1876, going from St. Boniface to Emerson, and his ticket, which he preserved until his death, is inscribed: "Ticket number 1, trip number 1"

AYER'S HAIR VIGOR

Stops Falling Hair

Ayer's Hair Vigor is composed of sulphur, glycerin, quinine, cod-liver oil, castor oil, sage, alcohol, water, and perfume. Not a single ingredient is injurious to the hair. Ask your doctor if this is not so. Follow his advice. A hair tonic, a hair dressing, promptly checks falling hair. Completely destroys all dandruff.

AYER'S HAIR VIGOR

Does not Color the Hair

J. C. Ayer & Co., Lowell, Mass.

Great Guessing Contest

—AT—
THE OLD RELIABLE STORE

Every person purchasing 50c worth of goods will be entitled to a free guess of how many beans there are in the jar, to be seen in

T. E. Morrow's Store

The person guessing the nearest to the number will receive one 7-piece glass water set, decorated in gold. The second prize—one 6-piece afternoon tea set, decorated in gold, to be seen in the store. The competition to close the 1st of March.

Come and Try Your Luck. No Fake.

This Month Only 4 lbs. Valencia Raisins 25c. Fish of All Kinds for Lent.

Patience seems to be a virtue when it allows people to impose on the patient one. I find myself in that position and have therefore decided that after February 7th the Clerk of the Court will be asked to interview all who have been imposing on my patience.
