Sunday School. Find Out If You

LESSON 111.-JAN. 16, 1909.

The Beginning of the Gatitean Minstry.--Matt. 4: 12-25.

Commentary .- I. Jesus in Galilee (vs. 12-16). 12. John was cast into prison-John had preached about two years, but was now a prisoner in Herod's castle at Macherus, east of the Jordan. The reaon for John's imprisonment is given in Matt. 14: 3, 4. Departed into Galilee -Galilee was the northern of the three divisions of Palestine. It lay south of Mount Lebanon and between the Mediterranean Sea on the west and the Jordan and the Sea of Galilee on the east. Christ's principal labors were now in the southern portion of Galilee. 13. Leaving Nazareth Jesus went to his home, preached in the synagogue at Nazareth and was rejected (Luke 4: 16-30). Dwelt in Capernaum—A city on the west side of the Sea of Galilee. Its location and importance made an especially fitting centre for our Lord's activities. Upon the sea coast-The Sea of Galilee. It also called the Lake of Gennesaret, the Sea of Tiberius and the Sea of Chinneroth. It is about thirteen miles long and six miles wide in its broadest part, and its waters are remarkably clear. It lies in a deep depression, much lower than the Mediterranean Sea, and through it flows the Jordan River. Zabulon and Nephthalim-The ancient tribes of Israel, Zebulun and Naphtali, both bordered the Sea of Galilee. 14. Esaias-Isaiah. See Isa. 9: 1, 2. 15. Beyond Jordan-The phrase usually means east of the Jordan, but sometimes, as in this instance, it means west of that river. Galilee of the Gentiles-Galilee of the nations. So called because this region had been occupied by peoples of various nations. The population at this time was by no means purely Jewish.

16. Sat in darkness-The prophet was portraying the condition of the people when Christ should appear. It was deplorable, indeed. It is bad enough to be in darkness and struggling for light, but decidedly worse to sit in darkness with no effort to escape. Saw great light—The prophecy was receiving its complete fulfilment. The people were in the darkness of ignorance, supersitition and sin, but a light arises, the Light of the world. Region and shadow of death—The passage is climactic. The experssion, "Region and shadow of death," is much stronger than the one, "In darkness." A state if spiritual death is set forth, and a state of spiritual death borders closely upon eternal death. Light is sprung up—Christ appears, not brought by their will or act, but he comes in the fullness of time according to prophecy, to enlighten and save

II. Disciples called (vs. 17-22). 17 From that time From the time of John's imprisonment and Jesus's entry into Galilee. To preach-To proclaim the divine messenger. Repent- The d has a deep significance. It in-bles a change of mind and purpose. It involves the confession of sin and turning away from it utterly. It implies restitution in cases where others have been defrauded or otherwise wronged. The kingdom of heaven is at hand -The spiritual kingdom which Christ came to establish. Christ would reign in the hearts of men. He would make known abroad the principles of the new kingdom, its laws, its benefits, the conditions of citizenship and its nearness. The King had come and his hearers were to be citizens.

18. Walking by the sea-Jesus had for a time carried on His Galilean ministry alone. He had labored much near this body of water, and from this and other parts of Galilee were to be gathered His twelve disciples. Saw two brethres. These were Simon and Andrew. They had become his followers more than a year before this time, had accompanied him for a season and then returned to their former occupation. Casting a net-This was not the same as the hauling-net mentioned in Matt. 13 .-47. The casting-net was thrown by the

By Lydia E. Pinkham's **Vegetable Compound**

Grdiner, Maine.—"I have been a sufferer from organic troubles and a severe female weakness. The doctor said I would have to go to the hospital for an operation, but I could not bear to think of it. I decided to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash

-and was entirely cured after three months' use of them."-Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner, Me.

No woman should submit to a surgical operation, which may mean death. until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial. This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testi-mony to the wonderful virtue of Lydia

E. Pinkham's Vegetable Compound. It cures female ills, and creates radi-ant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass.,
invites all sick women to write
her for advice. Her advice is free,
tad always helpful.

Have Catarrh Don't Wait Till Consumption

Develops, Cure Yourself Now. CATARRHOZONE

In the discovery of this wonderful curative medicine the entire race, is given freedom from Catarrhal diseases, including Asthma, Bronchitis and Throat

BREATHE

Are your eyes watery? Is your breath offen sive? These are the indications of Catarrh- now why continue to live in misery when cure is guaranteed with Ca-tarrhozone? So sure is Catarrhozone to cure that thousands recommend it-tell of its wonderful merit after being cured themselves. Read

> HOW CATARRHOZONE CURES. Miss Worrel is a resident of Clarksville, Da., and has been the means of pointing the way to health of many of her friends

"I have received such extraordinary benefit that I have induced many of my friends to use it also. My catarrh was so bad a year ago that I despaired of ever CATARRHOZONE getting cured, I am

sure my lungs were somewhat affected also. The relief I got from Catarrhozone was remarkable. I improved under this treatment very quickly, and was cured so thoroughly the disease has never returned."

Get the large dollar size of Catarrhozone; it contains a beautiful hard rubber inhaler and medicine that lasts two months. Smaller sizes, 25c. and 50c. each. Beware of imitations-accept only 'Catarrhozone," sold by all reliable dealers or by mail from The Catarrhozone Company. Kingston, Ont.

fisherman, as he saw the fish in the water, to make the capture and bring his catch to land, while the hauling-net was placed in the water and left for some length of time that many fish might be entrapped by it. Fishers-A legitimate and worthy calling. "Christ does not call idle men to work in his vineyard."-Bib. Museum. 19. Follow me-Jesus had need of them and they had need of him. The time had come for them to be permanently with him as fellow workers, hence the authority with which he spoke. I will make you fishers of men-The expression means to take alive. The fish were caught to die; men were to be caught taught to win men for the new king-dom. "The higher work comes to the disciples while they are faithfully performing their common daily tasks. that the call comes to higher duties."-Peloubet. 20 Straightway-At once, immediately. Left their nets-Luke says. "They forsook all" (5. 11). Their nets formed their means of gaining a liveli-

21. Other two brethren-There were two sets of brothers among the disciples. These also had been His followers, and were prominent among the apostles. James and John were the sons of Zebedee and Salome (compare Matt. 27. 56 and Mark 15. 40). Mending their nets This was an humble vet necessary calling. All necessary work is honorable. 22. Left the ship and their father- The sacrifice as expressed here is greater than that mentioned in the case of Peter and Andrew. The feelings of Zebedee are not described, but we can imagine what they were when the separation took place.

III. Preaching and healing (vs. 23-25). 23. All Galilee This was Christ's first tour of this country. This denotes great DOCTORS FAILED, activity and an effort to bring truths of the new kingdom to the knowledge of all. Teaching in their synagogues-The word "synagogue" from its derivation means a place of assembly. Catarrh of the Lungs It was allowable to erect a synagogue wherever ten responsible men could found. This was the place for reading and expounding the scriptures of the Old Testament. Preaching the gospel of the kingdom-This explains the nature of the teaching in the preceding clause. The gospel, good news, for such is the meaning, brought a view of what Jesus came to bestow upon mankind. Repentance stod at the entrance into the kingdom, and deliverance from sin and joyful service of Christ were a part of the good news. Healing all manner of sickness-This was in connection with His teaching. Sickness here means severe and dangerous illness. Disease- Weakness, debility. Among the people-It appears any particular class.

that Christ's work was not confined to 24. fame-The reputation gained by what he had done. all Syria-A region of somewhat indefinite extent reaching to the Mediterranean on the west and far to the north and east. The reports of such miracles of healing would spread rapidly from one to another and from town to town, being carried by those engaged in commerce. brought unto him-Here was evidence of desire for East of the Rocky Mountains relief and of faith in the mercy and power of Christ. Probably not from "all Syria," but from the regions nearer to the places of his labors. divers-Various kinds, torments-Diseases that were accompanied by intense pain and suffering. possessed with demons (R. V.)— That this condition was something different from mere bodily disease is evident from the fact that in the list of maladies here given it has a place by itself. It may have existed in connecvarious references to it in the scriptures took such full control of the afflicted as a line drawn from Shreveport, La,

them-No case was too obstinate for the great Physician. 25. Decapolis—Tencities. A region in the northeastern part of Palestine containing ten cities.

Questions-Where and for what reason was John put in prison? Where is Galilee? What city did Jesus make his dwelling place after leaving Nazareth? What sea is referred to in the lesson and by what different names is it known? In what sense did the people of Galilee sit in darkness? What was the subject of Jesus' preaching? Who were the first disciples of Jesus? What was their occupation? What did Jesus say he would make of them? What was the work of Jesus in Galilee? What were the synagogues? What classes of peo-Is eatarrh in your ple did Jesus heal?

> PRACTICAL APPLICATIONS. "Casting a net" (v. 18). A girl who had been caring for Mrs. Whittemore's house during her absence in the summer, asked as she was being paid her wages, "Can I say something to you?" "Certainly." "I came here without Buk is made solely from rich and Christ; now I have him." It was Mrs. pure essences obtained from certain Whittemore's habit to scatter tracts here and there in the home, and the girl had read them. The message of a Savior's love in them had touched her heart and won her to Christ. An encouraging word, an invitation to the house of prayer, the loan of a book, the writing of a letter, the offering of a tract, may be a net to catch a soul. Even a little child can east these nets. "Fishers of men" (v. 19). The seven-

fold building which represents Christian

character (2 Peter 1: 5-7) has eight qualifications for the fisher of men: 1. Faith. Faith in Jesus is the foundation stone; faith to go where Jesus sends and to work in God's way. We are not likely to catch men in one place if we have been directed to fish in another. 2. Courage. To undertake what God commands with absolute fearlessness (Ezek. 2: 7). Not only to draw with dracious gospel invitations, but to drag with earnest warning. Not only to life up the cross, but to show the looking glass and cut with the sword. 3. Knowledge of our craft. (1) Knowledge of salvation. To be able to say with a happy face, "Now are we the sons of God" (1 John 3: 2), there must be no doubt of our discipleship. (2) Knowledge of our guide book. Because it will thoroughly furnish us for our work (2 Tim. 3: 17), and enable us to teach in all wisdom (Col. 3: 16). (3) Knowledge of men, their haunts, their occupations, their prejudices, their arguments. The timid, the careless, the defiant, each need different methods. Bishop Taylor, telling once how he eaught a Roman Catholic in a train bound for Bombay, said "I did not compremise the truth; I only kept my feet off his corns. 4. Temper ance. This is the great regulator of the work. We must not be elated by success nor discouraged by failure. need the preparation of prayer (Luke 6: 12) and the enduement of the Holy Spirit (Luke 24: 49; Acts 2: 4). We must be on the watch for souls (John 3: 5; 4: 7). Failure sometimes results from lack of furnishing. A man who had been in the Arctic region engaged in whaling, landed at Dundee. Wishing to hear the gospel, he entered one of the churches. Coming out a mate ased him, Well, Jac, how did you lie the ser mon?" "Oh," he replied, "it was a good sermon enough, but there was no harto live. As these men had attained skill poon in it." 5. Patience—This is the in catching fish, so they were to be force of character that can turn apparent failure into real victory. "The hardest work of the war was to lie still," an old soldier said. 6. Godliness. Godly living is ever attractive bail. To be is is to those who are faithful in the least to be able to do. "He walked with me - and did turn many away from iniquity" (Mal. 2: 6). "Take heed unto thyself—— for in doing this thou shalt save" (1 Tim. 4: 16). 7. Brotherly

> beneath the raiment, whether it be of velvet or rags, and lays hold on the soul for which Christ died." "They forsook all" (Luke 5: 11). Not alone the evil things of life, baneful associations, hurtful habits, questionable amusements, but the good things of life -home, friends. reputation. money, everything. To forsake "all" is literally to hold everythig you have as belonging to God and not to yourself. Then if friends fall asleep there will be no rebellion, no selfish grief, for God has a right to do what he will with his own.

"The love that looks behind the worldly

A SECRET OF THE PAST

Revived for Use of Modern Man.

For twenty centuries the secret of the wonderful balms with which the gladiators and charioteers of Ancient Greece and Rome healed their wounds lay undiscovered. Zam-Buk 's the modern counterpart of these balms, and owes its great success to the same root cause—it is purely vegetable. Since its discovery Zam-Buk has been welcomed in mansion and cottage.

The reasons for this triumph of science are simple and few. Taking a lesson from the Ancients, the proprietors of Zam-Buk first of all wisely decided that the ideal balm must b purely herbal and contain not the slightest trace of rancid animal fats or poisonous minerals. Thus Zampure essences obtained from certain rare medicinal herbs. These juices and extracts are prepared and refined by ingenious scientific processes and then so skilfully blended that a unique, effective, and yet perfectly natural skin healer is secured

natural skin healer is secured

Zam-Buk has an affinity for the human skin such as no ordinary ointment or linimant can possibly possess. Besides soothing pain and allaying irritation, it possesses high anciseptic qualities, and solves the problem of always having handy at home or at one's work an ever-ready and reliable first-aid for cuts, burns, scalds, bruises, lacerations, scratches, etc. Zam-Buk is without equal for eczema, ulcers, piles, bad leg, ringworm, scalp sores, festering sores, sprains, stiffness, poisoned wounds of all kinds, face sores, chafing, chaped hands, cold sores, frost bites, ing, chaped hands, cold sores, frost bites, sore feet, diseased ankles and all itching, irritation and inflammation.

Zam-Buk is a daily need in every

household, and is sold by all druggists and stores at fifty cents a box. Refuse harmful and dangerous sub-

Sod land is very good for almost all crops if the season is seasonably wet and other conditions are favorable. One of the worst troubles with corn in sod land is that the cutworms living in the sod destroy much of the young corn. By plowing sod land for corn in late fall or early winter many of the cutworms will be destroyed. Also, when the land is plowed at this time the sod will have more time to settle and decay, and the corn next season will stand dry weath-

er better. If the sad must be plowed again next spring, no harm, but much good, will be done. Plowing any land twice for a crop, or discing well after plowing is labor well spent. The cellar or other similar room in which vegetables and fruits, either green or canned, are stored for winter should have the windows open on mild days for ventilation and for lowering the temperature of the room for chilling the store. The cooler they are held, with-

decay cannot grow and multiply in low emperature. Dry them in check. New plants of named varieties can be started in winter from cuttings of a number of hardwood trees, shrubs and vines, such as the grape, pear, hydrangea, privet, rose, poplar and willow. The cuttings however, must be made before the buds have been injured by

out freezing, the better they will keep.

Bacteria which cause fermentation and

freezing. kindness. This is a John the Baptist Salt is necessary to the health to prepare the way for truth. 8. Love. thrift of domestic animals; and they should have it in winter as well as in position, whether high or low, that looks summer. They need more of it, probably, during the period of abundant succulent feed, but the animal system requires more or less of it all the time. A good plan is to keep salt in sheltered boxes where the stock can get at it at will. This is a safeguard against neglect, and, being accustomed to it at pleasure, there is no danger that too much will

be taken.

A sudden change from green foods to those which contain a small percentage of water frequently results in a derangement of the bladder or kidneys. Many times the urine becomes thick and turbid, and it is very difficult for the animal to urinate. If the trouble is allowed to continue for a very long period death may result. Any of the following remedies may be administered with excellent results: Juniper berries, four ounces; a covered vessel for an hour and then strain. Give one pint three times each day till the animal is relieved. Another remedy may be provided without the aid of drugs. Mix one part of slippery elm bark with two parts poplar bark and make a strong tea from the mixture. Sweeten with sugar or molasses and give a pint every five hours.

The quieter and more comfortable a young animal can be kept, with good feed, the faster it will grow. Calves like manac of a case similar to mine, and I to lie and sleep in a warm, sunny place. "I was not able to wait on myself when I began using it. I gained very slowly at first, but I could see that it By providing them with such quarters

While the milch cows are on dry feed the digestive organs do not work so some oil meal daily. The oil meal not only maintains the digestive organs in even in a very small way, and the export trade in live cattle would receive a body blow. Immediately Canadian good working, but it is one of the best milk-producing feeds, being highly nitrogenous. Musty and bad feeds of any kind are not good cow feeds. They are not only poor in nutrients, but are dangerous to health.

Trees and shrubs heeled in for winter should be heavily mulched and com-Louisville, Ky., Jan. 10.-Snow to-day pletely covered with straw or conretalks during the coldest part of winter to prevent them from drying out. The soil about the roots should not be allowed

Cows, above all other animals, are averse to drinking cold vester. Many cows will go without water for two or three days before drinking out of a pond, stream or vessel containing ice. The drinking of plenty of water is necessary to a full flow of milk, and it pays to one that his own will was overcome and where one inch fell to Buffalo, N. Y. furnish cows with water warm enough could not assert itself. lunatick—Epi-leptic—R. V. palsy—Paralytic. healed ter is raging in Southern Ohio to-day. It will pay to heat the water on the

kitchen range and carry it to them, ra-ther than have them go without.

INCREASE THE SIZE OF THE DRAFT HORSE.

The showing made by Canadain-bred draft horses, at Guelph, indicates that out breeders are getting the quality side of their business down to a science What they should turn their attention to now is size. Keep up the quality, but get more size. If there is one fault more than another to be found with the average draft horse in Canada, it is that it is lacking in size. It is the big horse days being cleaned up in good time. that tops the commercial horse market at the present time. If he has size and weight the buyer will overlook many other faults. But there is no reason why size and quality cannot be had in one and the same animal. The aim of Canadian horsemen should be to secure both. They know the quality side of the business pretty well. Let them now get to work on increasing the size. It will pay, The demand for breeding stock will be increased and the draft horse, when sold in a commercial way, will bring more money. Add a couple more hundred pounds to the average Canadian draft Co. as follows: Steers and heifers, \$4.60 else in the world.

CHILLED MEAT TRADE.Q (From The Farm.)

There never was a better time for Cunada to get into the chilled meat trade than right now. The past season's trading has shown that good cattle can be produced in this country. The high quality of many of the cattle marketed at Toronto and elsewhere has been a surprise to the several big American firms who have entered the Canadian market the past season for the first time. The export market has been acstitutes sometimes "pushed" as being tive, prices have ruled high, and the cat"just as good." They are not! the raiser, who has had good cattle to tle raiser, who has had good cattle to sell, has made big money. This will at the latter price. See the many sales etimulate others to get inot the cattleraising business. But the business cannot be extended on a large scale on an export trade in live cattle alone. There must be something in addition to steady the market. That something is a chilled meat trade established on a large enough scale to make it worth while. No part of the country would be benefited more than the West. What Dr. Rutherford had to say in last week's issue on thie point has much force. Let some contagious disease break out in Canada. cattle would be shut out of Great Britain altogether. While such a disaster may never come our way, yet it is well prices. to be prepared. But this is not the only or chief reason for a chilled meat rade. It would steady the market and afford an outlet, more particularly for Western cattle, that would make beef raising in the West a profitable business.

LAURIER'S SILVER.

LIMITED. TORONTO

TORONTO MARKETS. LIVE STOCK.

The quality of the bulk of cattle on sale was common to medium, with a few good to choice lots.

Trade was good, all offerings on both Prices, considering the quality of cattle, were good, and certainly no lower, although there might have been an easier feeling owing to heavy deliveries.

Some of the drovers stated that cattle were off in price from 20e to 30c per cwt., but we found as many of the buyers who said they were from 10 to 20c per cwt. dearer than one week ago. Exporters-No export steers were re-

ported as being sold as such. Bulls sold at \$4 to \$4.75 per cwt.

Butchers-Geo. Rowntree bought 370 butchers' cattle for the Harris Abattoir horse and he cannot be beaten anywhere to \$5.50; cows, \$2.25 to \$4.60; bulls, \$2.60 to \$4.50.

Stockers and Feeders-Harry Murby reports very little doing in these classes, but that a few good, 800 to 900-lb. steers would sell at prices ranging from \$3.75 to \$4.25; light stockers are worth from \$3 to \$3.50. Mr. Murby bought two loads of butchers and stockers at \$3.75 to \$5 per cwt.

Milkers and Springers-The demand for milkers and springers is fairly good, but prices are not nearly as high as some few weeks ago. The main reason for this is that there is little or no demand for Montreal at present. There was a moderate supply during the week. which sold from \$30 to \$60, but only one reported below.

Veal Calves-About 140 veal calves sold at \$3 to \$7 ner cwt., with a very few choice new fed veals at \$7.25 to \$7.50 per cwt.

Sheep and Lambs-Wesley Dunn, the largest buyer of sheep and lambs, renorts prices as follows: Export ewes, \$4.50 to \$4.75: eulls and rams, \$3 to \$3.50: lambs, \$5.75 to \$6.80. See the monv sales given by the different commission firms, and in them it will be soon that a few selected lots brought a little higher quotations, but the bulk of sales were made at the above average

Hors Solocted hors, fed and watered at the market, sold at \$8.50 and \$4.25 fall care
