A very large crowd of people from Jarvis and vicinity attended the barn raising of R. W. Mason on Saturday last and the work was completed in a very short time considering the size and amount of heavy timber in it. The barn is a mammoth one, being 46 feet wide by 100 ft long, and standing on a 10 ft. stone foundation. When completed Mr. Mason will have one of the largest and best barns in this district. Two accidents took place at the raising. Gunner Dossier had one finger taken off and others injured, and John Wadham also lost a finger besides otherwise having his hand badly bruised. They will both be unable to do much work for some time.

On Sunday afternoon, shortly after four o'clock, our village and the country in general was visited by the worst storm for years. The rain fairly poured down and was accompanied by severe lightning and heavy thunder, and the streets were soon streams of water instead of dry dusty roads. The rain kept up continually until nearly seven o'clock but before that time it was almost impossible for people to walk along the sidewalks as in many places they were covered from one to four inches with water. The streets at the corner of Main and Talbot streets were completely covered, there being over a foot of water standing on Talbot street opposite the Exchange Hotel. There were no services held in the churches people being unable to get there. Some of the oldest residents of Jarvis say it was the heaviest rain that they ever saw at this time of the year and the worst food. Many fields of standing grain were laid flat to the ground by the heavy rain. There was no damage done by lightning in this vicinity that we have heard of with the exception of telephones.

Lynn Lodge of Simcoe A. O. U. W. intend holding their annual excursion on the 8th of August, good for two days, and the management of this excursion extends a happy welcome to all members of Jarvis Lodge and also the public at large. —B. G. CHADWICK, Chairman.

## Horace Elmer.

Hamilton Times:—One of Hamilton's respected citizens passed away Saturday afternoon, when Horace Ellis Elmer, aged 43 years, died, after an illness of about a year. Deceased had been a resident of Hamilton for about twenty years, and was employed as train despatcher on the T. H. & B. Mr. Elmer was a prominent worker in Charlton Avenue Methodist church, and a past president of the adult bible class. He was a member of Unity Lodge, I. O. F., and a prominent officer of Court Oronhyktha, I. O. F. and was elected several weeks ago a member to the High Court, which meets here in August. A widow, two daughters, and one son all at home, survive. He also leaves to mourn his loss, father and mother, Mr. and Mrs. James Elmore of Buffalo, five sisters and one brother, Mrs. T. W. Ivey, Carman, Man., Mrs. Patton, Mrs. J. Albertson, Mrs. G. Myers, Miss Lottie Elmer and Mr. W. J. Elmer all of Buffalo.

The funeral was held Monday afternoon at 3.30 from his late residence, 28 Spruceside avenue, and a large number of sympathizing friends attended.

Mr. Elmer will be remembered by many of the Jarvis people as he had lived here some years ago, and was a nephew of W. E. Sowter of this village.

## What is the Reason?

Why is it that the country schools open after the summer holidays earlier than the city schools? This year the country schools open on August 15th, three weeks before the city child reluctantly returns to the studies of the schoolroom.

Although this has been the established custom for many years, we cannot recollect ever having heard any reason advanced for the difference in the length of vacations. It cannot be that the educational authorities think the country student needs the extra time in schools; for experience shows that the country scholar is quite the equal of the city bred child. On the other hand, it seems strange that the schools should open in the very middle of the harvest time, when the farmer needs the assistance of his boys more than at any time in the year. It would appear more reasonable if the country schools did not open until a few weeks after the time that the city mills of learning resumed operations.

There may be a good reason for this custom, but it is difficult to find it.—Guelph Mercury.

## A Dream of a Would-Be Bowler or a Draw with Tom Morrow

Last night I had a dandy dream, and all did seem so grand. I thought I had my bowls with me and on the ground did stand. Now, I was in the trophy match and in the final round. Yes, I had reached the final game and still I held my ground. But I'd fought hard to get there and there I meant to stay. For I'd trimmed many a champion that I'd met in the fray. Among the Winning Number: that I had turned aside. Were mighty trophy winners and some of Jarvis pride. Well, Jack Murdoch had his turn and also Brock LePan, With Colonel H. Ed. C., Ivan W. and Post—Skip C. I. My runners were astounding, my draws were always there. While my opponents' cannon balls just merely fanned the air. The final was an awful game as close as close could be. A witness said we would have lost, if it had not been for me. The last end came—They lay three shots—I drew the first and won. And then I jumped, rolled out of bed. Alas, my dream was done.

## Binds More Sheaves with Less Twine

Plymouth Binder Twine is made right. It works smoothly, ties properly, and the last of the ball feeds as freely as the first. No knots or breaks. Fifty per cent stronger than the strain of any machine actually requires.

## PLYMOUTH Binder Twine

is used more than any other twine because it is known to be the best. Made by the oldest cordage establishment in the United States, where quality and honesty are spun into every ball of twine. Farmers who insist on seeing the wheat-sheaf tag on every ball of twine save money and avoid harvest delays.
