

Falling Hair
Ayer's Hair Vigor promptly restores the hair that comes falling out. It restores the hair to its natural color and makes it grow more rapidly.

Dandruff
Ayer's Hair Vigor not only restores the hair that comes falling out, but it also removes every trace of dandruff from the scalp and leaves the hair clean and in a healthy condition.

Does not Color the Hair
We wish you to positively and distinctly understand that Ayer's Hair Vigor does not affect the color of the hair, even to the slightest degree. Persons with the whitest or the lightest and most delicate blond hair may use it freely without having the hair made a shade darker.

Ingredients: Sassafras, Glycerin, Quinia, Sodium Chloride, Capsicum, Soap, Alcohol, Water, Perfume.

THE JARVIS RECORD
Department of Agriculture
Office of the Dairy and Cold Storage Commissioner.

Every little while facts come to light which speak in far-reaching tones of the value of cow testing to the dairy farmer.

For instance, a letter is just received at the Department of Agriculture, Ottawa, from Mr. George Wise, of Shelburne, Man., which reads as follows:—"I am pleased that I was led to see what my cows are doing, though now only just entering my second year of recording each cows doings I see there is a great difference in the creaminess and of course it is there we should find the change. Note the remarkable gain for the first four months of 1910. In 1909, from January the 1st to April 30th, we were milking 9 cows and received \$129.56 for cream sold. In 1910, during the same period, we milked only eight cows and sold cream for \$229.53. Further, we made butter this year for a household of nine persons, last year we bought our butter. These are actual facts. The only difference in feed from last year is that I have fed extra bran all winter, but I have sold cows that were poor ones, though one of them made a good showing the first six months of the year. The cows picked up wonderfully on a soiling crop in September, the returns show it and every animal went into winter quarters fat."

It will be noted that Mr. Wise, besides the butter used at home, made an extra hundred dollars in four months with a smaller herd. The cows are being selected, the records show which cows to keep and the fact that records are kept induces the owner to look after the herd better in every way. Cow testing pays.

THE JARVIS RECORD
WEDNESDAY, JUNE 29, 1910.

When a young man sits in the parlor talking nonsense to his best girl—that's capital. But when he has to stay in of evenings after they are married—that's labor.

An Iowa editor was asked, "Do hogs pay?" He replied "a good many do not; they take the paper several years and then have the postmaster send it back marked "refused" or "gone west."

The friends of this paper will please hand us in news items when they are fresh. We prefer not to publish a birth after a child is weaned, a marriage after the honeymoon is over, or the death of a man after his widow is married again.

Our attention has been called to the fact that many farmers are neglecting to cut the weeds that grow on the roadside opposite their property. If the owner does not attend to it, the pathmaster should see that it is done. Clean up and level the side of the road in front of your farm, and it will improve the value of your property. Weeds allowed to grow spoils the appearance of the farm.

The remark is often made by visitors to our village that it is a prosperous thriving village. The reasons for these remarks are: That the Flour mill gives such excellent service to the farming community. An A1 grade of flour is manufactured and kept for sale and all the farmers for miles around speak in glowing terms of their chopping service. You can get it done while you wait and you don't wait long to get it home with you. To the merchants also is due a share of the credit. They carry large and well selected stocks bought in large quantities at close figures for cash, and give their customers the advantage of the cut. The Record does its share to call attention and draw people to the village. Nothing helps build up a town more than live energetic business men.

Big Aviation Meet.
Toronto to Have International Event. World-Famous Aviators Coming From Europe, England and the United States.

Much interest attaches to the big Aviation Meet to be held in Toronto for the week beginning July 9th as practically all the leading aeronauts of the world will be represented. The fights as arranged will take place over the lake and it is confidently expected that a number of records will be broken as prizes aggregating \$75,000, will be offered in the different flights.

Of the noted aeronauts to compete the most picturesque is Comte de Lesseps, son of the noted French Engineer who built the Suez Canal. Comte de Lesseps took up the science from choice and not necessity, as he has private means. He signalled his advent by winning the Daily Mail Cup for a flight across the English Channel from Calais to Dover. He will be seen at Toronto in the famous Bleriot machine in which he accomplished the feat. Miljean, another noted French Aviator, will be present with a Bleriot machine.

It is just possible that Hon. C. Rolls, the distinguished English aeronaut, whose recent flight from Dover to Calais is causing much comment, may be induced to enter the competitions. Mr. Rolls was in the air for about one hour and a half. He estimates that that he covered fifty miles altogether and a great part of the flight was made at a height of a thousand feet.

The honour of Canada will be upheld by Mr. J. A. D. McCurdy of Baddeck, Nova Scotia. Wright Brothers will send five of their famous biplanes the Guy Curtiss, of Hudson River fame, will be an added attraction. Other features such as races between aeroplanes and motor boats are announced. The meeting will undoubtedly prove one of the greatest competitions of the kind ever held on this continent. It is under the auspices of the Ontario Motor League. Mr. E. M. Wilcox of Toronto, Managing Director of the International Aviation Association, is in charge of the arrangements for the event.

A Generous Offer.
T. E. Morrow Will Refund Your Money if Parisian Sage Doesn't Banish Dandruff.

Pretty strong talk, perhaps you'll say, but its honest talk, every word of it, because if T. E. Morrow was not absolutely certain; if he did know from actual results he could not make such a generous offer.

Parisian Sage, which can now be obtained in every town in Canada, is also guaranteed to stop falling hair and itching scalp.

It is the ideal, delightful hair dressing that makes hair grow in abundance. Parisian Sage is a prime favorite with women, because it keeps the hair brilliant and fascinating is daintily perfumed, and is not sticky or greasy.

The price of a large bottle is only 50 cents at T. E. Morrow who guarantees. Sold everywhere, or direct all charges prepaid, by the Canadian makers, Giroux Mfg. Co. Fort Erie, Ont.

Fort Saskatchewan, Sask., June 25.—Charles Weber, aged 26, son of Robert Weber, farmer, ten miles east of here, was instantly killed when the horse he was riding fell, breaking its neck and crushing Weber. Friends searching found both man and horse both dead on the trail.

Ottawa, June 26—Mrs. Anna Murphy, who was charged at Bryson with aiding and abetting her husband, Michael, in the shooting of the two young men at Shawville, was acquitted on Saturday. The jury was out twenty-four hours. The judge termed the verdict another blot on the history of Pontiac county.

The Record to Jan. 1, 1911, for 35c cash in advance.

Gas Ring
For heating the house during chilly spring and autumn days

You can have the GAS RING Attachment with the Sunshine furnace. This is a recent McClary invention—and a very desirable convenience.

After you let out the furnace in the spring, and in the early autumn before the winter's coal supply is ordered, there are often chilly days when some warmth from the furnace is desirable. Then the GAS RING is appreciated. Just light it for an hour or two and the house will be comfortable.

Unlike a gas log, the GAS RING does not require removing or the gas pipe disconnected. Instead, it's a permanent feature. It simply takes the place of the lower section of the fire-pot.

The GAS RING is always ready for use. It cannot be clogged up with dust or ashes. It's very economical. If your coal fire should go out you can easily start it going again by lighting the GAS RING.

If our agent cannot give you complete information about the GAS RING write direct to us.
