The going on the sideroads is almost impossible. The snow is so deep that when the horses slip off the track they go down below.

No service here on Sunday on account of the thaw. The minister and his wife got this far on their way to Salem at three o'clock, but gave up the chase and returned home after upsetting a few times. Who says ministers haven't good pluck?

THERE'S Little Sentiment In Business

During all the years we have been in Business, our invariable policy has been to handle everything of the very best, and to this fact we attribute, in a large measure, our signal success.

It is for no sentimental reason that many of our old customers come back to us year after year, but because we have the best stock and best assortment, and give the best values and best service.

Makes Hair Grow.

T. E. Morrow Has an Invigorator that Makes Hair Grow in Abundance or Money Back

If your hair is thinning out gradually it won't be long before the bald spot appears.

The time to take care of the hair is when you have hair to take care of.

For thin falling hair the best remedy known to mankind is Parisian Sage. It is compounded on scientific principles and furnishes to the hair root a nourishment that acts quickly and promptly and causes the hair to grow.

But remember this: It kills the dandruff germ, the pest that appropriates all the natural nourishment that should go to the hair root.

Parisian Sage is sold by T. E. Morrow under a positive guarantee to banish dandruff, stop falling hair and itching scalp in two weeks or money back.

It gives to women's hair a lustre and radiance that is most fascinat-

ing and causes it to grow abundantly.

Parisian Sage is now sold in every first-class town in Canada. A large, generous bottle costs 50 cents, and the girl with Auburn hair is on every bottle.

Encourage every home enterprise. Take an interest in every industry, invest liberally in the stock of faith and good will, and distribute it all over your village, in every factory, every work shop, every business house. It will pay you large dividends, and will cost very little. It can never depreciate in value. It will always be above par. Buy home made goods. Ask your merchants for them. Wear home made garments, eat home articles of food, sleep on home made beds, read home made newspapers. In this way the money you spend is only loaned. It will come back to you with interest. Praise up your town—don't run it down. Stand by your merchants and manufacturers—they are the bone and sinew of your municipal structure. Stand by your churches and your schools—they are the hopes of your future. Stand by your press—it is the tireless sentinel that guards your interest.
