Make Each Animal Worth 25% Over Its Cost

Largest Winner of any pacer on Grand Circuit, '08

On ⅔ of a Cent a Day

Nobody ever heard of "stock food" curing the bots or colic, making hens lay in winter, increasing the yield of milk five pounds per cow a day, or restoring run-down animals to plumpness and vigor.

When you feed "stock food" to your cow, horse, swine or poultry, you are merely feeding them what you are growing on your own farm.

Your animals do need not more feed, but something to help their bodies get all the good out of the feed you give them so they can get fat and stay fat all year round; also to prevent disease, cure disease and keep them up to the best possible condition. No "stock food" can do all these things. ROYAL PURPLE STOCK SPECIFIC can and does. It is

Not a "Stock Food" But a "Conditioner"

ROYAL PURPLE STOCK SPECIFIC contains no grain, nor farm products. It increases yield of milk from three to five pounds per cow per day before the Specific has been used two weeks. It makes the milk richer and adds flesh faster than any other preparation known. Young calves fed with ROYAL PURPLE are as large at six weeks old as they would be when fed with ordinary materials at ten weeks.

ROYAL PURPLE STOCK SPECIFIC builds up run-down animals and restores them to plumpness almost magically. Cures bots, colic, worms, skin diseases and debility permanently.

Dan McEwan, the horseman, says: "I have used ROYAL PURPLE STOCK SPECIFIC persistently in the feeding of 'The Eel,' 2.02½, largest winner of any pacer on Grand Circuit in 1908, and 'Henry Winters,' 2.09½, brother of 'Allen Winters,' winner of $36,000 in trotting stakes in 1908. These horses have never been off their feed since I commenced using Royal Purple Specific almost a year ago, and I will always have it in my stables."

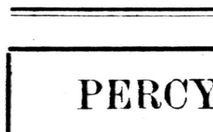
Royal Purple

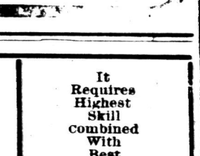
STOCK AND POULTRY SPECIFICS

One 50c. package of ROYAL PURPLE STOCK SPECIFIC will last one animal seventy days, which is a little over two-thirds of a cent a day. Most stock foods in fifty cent packages last but fifty days and are given three times a day. ROYAL PURPLE STOCK SPECIFIC is given but once a day, and lasts half again as long. A $1.50 pail containing four times the amount of the fifty cent package will last 280 days. ROYAL PURPLE will increase the value of your stock 25%. It is an astonishingly quick fattener, stimulating the appetite and the relish for food, assisting nature to digest and turn feed into flesh. As a hog fattener it is a leader.

It will save many times its cost in veterinary bills. ROYAL PURPLE POULTRY SPECIFIC is our other Specific for poultry, not for stock. One 50 cent package will last twenty-five hens 70 days, or a pail costing $1.50 will last twenty-five hens 280 days, which is four times more material for only three times the cost. It makes a "laying machine" out of your hens summer and winter, prevents fowls losing flesh at moulting time, and cures poultry diseases. Every package of ROYAL PURPLE STOCK SPECIFIC or POULTRY SPECIFIC is guaranteed.

Just use ROYAL PURPLE on one of your animals and any other preparation on another animal in the same condition: after comparing results you will say ROYAL PURPLE has them all beat to death, or else back comes your money. FREE—Ask your merchant or write us for our valuable 32-page booklet on cattle and poultry diseases, containing also cooking recipes and full particulars about ROYAL PURPLE STOCK and POULTRY SPECIFICS.





If you cannot get Royal Purple Specifics from merchants or agents, we will supply you direct, express prepaid, on receipt of $1.50 a pail for either Poultry or Stock Specifics.

VARICOSE VEINS CURED

☞ NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on Varicose Veins. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got THE NEW METHOD TREATMENT. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment, now I am earning $21 and never loose a day. I wish all sufferers knew of your valuable treatment.

sary for the several departments, salaries and cost.

The Waterloo House of Refuge has been in existence 42 years, and is probably the oldest in Ontario. The farm contains 105 acres. All kinds of grain are grown; they have two silos, and corn and roots are grown quite extensively. Fourteen milch cows are kept. They are not turned out to pasture, but are fed in the stable the whole year round. Four horses are kept. They also keep two brood sows. The pigs are all kept fed, and sold alive when they are about 7 months old. They don't kill any pigs for use in the House. They consider it better and more economical to buy beef, which is much better for making soup, something that is used in large quantities in a House of Refuge, where a great many old people are kept.

There is a large orchard on the farm, and a lot of fruit is sold. They have fifty barrels of spies on hand at present. The main water supply is obtained from Berlin, and there is a large cistern to hold soft water for use in the laundry. The buildings are all lighted by electricity. Electric power is used for running the laundry machinery and cream separator. They have a small motor, and power is supplied from Berlin electric plant. We found that people of means are admitted to the Waterloo House of Refuge, but they are required to turn the property over to the County. They also admit persons who wish to come in and pay for their keep. Up to the present the charge for such has been $2.50 per week, but the manager stated that the charge was to be raised to $3.00 per week. The average cost per week for each person was $1.41; average cost per year for each person $73.32. The manager receives a salary of $600 and the matron $300 per year. Twelve years ago when they were first appointed the manager's salary was $400 and the matron's $200. At that time the institution had been in existence for 30 years.
