BRITAIN'S NAVY. Great Britain's Danger Starvation Rather Than Invasion. (N. Y. Sun.) The Englishman who sees red invasion painted on the wall of night as he stews feverishly on his pillow will find an article on 'England's Peril' by Mr. Archibald Hurd in the Fortnightly Review for April a blessed antidote...

There are no refuting Mr. Hurd's argument that starvation, and not invasion, is the real menace to the Englishman's home. The "invasion school" has now a leg to stand upon when he has said the last word...

Then open a navy list, and try to grasp the magnitude of the sea power, in Dreadnaughts and other great battle-ships and armored cruisers, not to speak of lesser but still formidable warships, all of them equipped with the wireless telegraph...

But granting for the sake of argument that the enemy could baffle all of the Admiralty's resources and get a floating expeditionary force through the line of sea defence, how strong a force would it be—the judgment of men like Lord Roberts is of value on this point...

The Territorial divisions are thoroughly organized units. All the services in them have been created and work smoothly without any assistance from the regular army...

DOWN IN THE JUNGLE. (Lippincott's Magazine.) There was once a fuzzy old Hindoo, who said, "I make clothes mighty thin for me. Fact is, in July, when the mercury's high, I often just make my old skin do."

Minard's Liniment used by Physicians... A GOOD LANDING. (Woman's Home Companion.) 'He always was a lucky fellow.' 'What do you mean?' 'When he fell out of his airship, he plunged straight through the skylight of a hospital.'
