

# BANK OF HAMILTON

The feeling of ease which comes with the possession of a bank-book is something not to be despised—no matter what your position or prospects.

A bank account eliminates worry and care—causes you to feel that you have something to fall back upon in an instance of emergency.

One Dollar will start an account.

J. A. CAMPBELL,  
Agent, Jarvis Branch

## FESS BROS.

Jarvis, Ont.

Excellent facilities for all kinds of Job Printing. Good presses, new type and experienced workmen. Orders by mail will receive prompt attention.

### NOTICE TO ADVERTISERS

Advertisers must remember that it is absolutely necessary for copy of change of ad. to be in the hands of the printer not later than Monday noon to insure insertion that week.

## The Jarvis Record

WEDNESDAY, NOV. 9, 1910.

### Distributing Trees.

To More Applicants than Ever Before

The report of the Superintendent of Forestry for 1909 (which forms part of the annual report of the Department of the Interior, just issued) reports further development in the work of tree distribution from the forest nursery at Indian Head, Sask.

For some years the number of trees sent out in the spring from the nursery has remained practically stationary at about two and a half million. The reason for this is that the capacity of the nursery is now almost, if not quite, reached, and if trees are to be distributed in greater number either an enlargement of the present nursery or the establishment of new ones will be necessary.

At the same time the number of applicant of trees has greatly increased. In 1908 trees were sent to 2,010 applicants in 1910 that number has increased to 3,173 an increase of considerably more than 50 per cent. In 1908 the average number of trees sent to each applicant was 1,400; in 1910 only 800 could be spared to each applicant.

In 1908 the number of new applications received was 2,235; in 1910 the number had increased to 3,832.

There is no reason why farmers in the west should not grow their own maple and ash trees, and to any who contemplate doing this the Forestry Branch will be glad to send advice and also seed as far as the means at their disposal will allow.

One point that must be carefully attended to, however, is the source from which the seed comes. If at all possible seed from trees growing in the western provinces should be secured. The Forestry Branch has had several experiences of failure, entire or partial, with certain sowings made from imported seed. For example, in 1906 the crop of Manitoba maple seed in the Canadian prairie provinces was a failure. Seed for sowing the following spring was got from Dakota and sown in the nursery in the spring of 1907, and in 1908 the trees from this seed were sent out. This particular lot of maples has been reported to have suffered very much from winter killing, in some cases the entire tree, top and roots, having been killed back. Usually the maple has been found hardy in almost every part of the West, and the loss of so many is no doubt due to the fact that the seed from which they originated was obtained from regions farther south. A similar failure occurred some years ago with elm seed imported from Eastern Canada.

Occasionally, however, when the local supply of seed fails, nothing else can be done but obtain seed elsewhere and take the risk.

Further interesting particulars regarding this work are given in the report referred to, copies of which can be obtained free of charge, by addressing R. H. Campbell, Superintendent of Forestry, Ottawa.

### Radiant Hair

New York Society Women's Hair Matched Only by Parisians.

While much attention is given to choice of gowns by New York society women, the turbulent fact just now is the care of the hair.

For many years the clever women of Paris have been famed for the magnificent beauty of their hair.

"Glorious hair," a Virginian calls it, so radiant and luxuriant that it not only attracts but fascinates and compels unstinted admiration.

But now that the elite of New York, ever anxious to improve their beauty, have learned that Parisian Sage, a remarkable and almost marvelous hair nourisher and beautifier, is almost entirely responsible for the charming hair of the ladies of France, the demand for it has become enormous.

Parisian Sage is now sold all over Canada and in Jarvis by T. E. Morrow, who is glad to guarantee it to eradicate dandruff, stop falling hair and itching scalp in two weeks or money back. Large bottle 50 cents.

## 60,000,000 Sheep, or More

What about the sheep situation in Canada? Farmer's Magazine, published by the MacLean Publishing Co., Toronto, has in its October issue an article by A. L. McCredie, containing some figures which will make us sit up and think. Here are a few paragraphs:

Last year 200,000 carcasses of Australian mutton were imported into Canada—Canada, the food-supply source for the Empire!

Last year 7,683,000 pounds of foreign-grown wool were imported into Canada—Canada, whose pure bred sheep have for years taken nearly all the prizes in international exhibitions!

The census statistics of 1901 are interesting. In that year Canada had 2,510,000 sheep. Germany, with a total area less than one-seventh the size of agricultural Canada, has about four times as many (9,600,000). Great Britain, upon one-twentieth the area of farming belt, carried 38,500,000 sheep, or fifteen times our little flock. In the Argentine Republic, which is only two-thirds the size of our farming belt, with only two thirds our population, there were 67,211,000 sheep or twenty-six times our number.

Let some one suggest that these may be especially sheep-raising countries, please note that Germany had two cattle and two hogs for every sheep; that Great Britain carries on all branches of farming in balanced proportions; and that in the Argentine there were five cattle for every inhabitant, while Canada had scarcely one!

With the same number of sheep per acre as Germany, Canada, in 1910, would have had 67,000,000 sheep. Compared with the Mother Country similarly, we should have had 456,000,000. And compared with the Argentine, Canada's flock would have shown 86,000,000 sheep.

It seems then absolutely certain that Canada could carry at least 60,000,000 without lessening her other farming activities in the least, provided our soil and climate would give the sheep a fair show. No one doubts this.

### Apple Pulp for Cattle Food

A reader has made an inquiry as to the value of apple pulp from a cider mill as a food for live stock. At this season of the year, cider mills are in steady operation, or they would be if the apple crop were not so light. Apple pulp has been fed with success and is a splendid conditioner but it must be fed in light quantities, as it will scour most animals if they are given all of it they would eat. It will impart a glossy coat and fine condition to horses, and is particularly valuable to milking cows and gives good satisfaction when fed to hogs. Most animals show great fondness for it, but some are to be found that will not eat it at first. For such, a little bit of salt sprinkled over it will generally start them. Under no circumstances feed too much, but just enough to keep the animal hungry for it. Apple pulp, as compared with corn meal, contains about three times as much fibre, one third as much starch, sugar as fat, the protein value standing at 1.08 as compared to 9.2. It has been estimated that a ton of apple pulp contains as much feeding value approximately, as a ton of corn silage or of turnips. But if fed carefully, it is a better conditioner than either of them.

### The Drawback

There is one great drawback to taking up a more intensive system of farming in Canada, even in the older provinces, and that is the scarcity of efficient farm help. It is all very well to argue that because the farmer does not use his help well, he finds it hard to get a sufficient supply. It used to be that a vacancy on a farm found almost as many applicants for the position as for a vacancy in an office or store. But there has been a radical change. The farmer is the seeker to-day, and a man willing to work on a farm will have a score or more farmers seeking his services. It is not at all a question of treatment, although there are farmers here and there who do not give their hired help decent treatment. The farmer must perforce use his hired help well, or he stands a chance of not getting any at all. The one great need on the farms of Canada to-day is more and efficient help. Unless this is supplied, it is hard to see how the output from the land is to increase, and especially increase per acre. The bringing of new areas under cultivation will increase the sum total of the country's output from the land. And it is largely because there is new land to be cultivated that the help problem has become so acute. The desire to have a farm of his own, and it is a very laudable desire, has taken many a farm laborer away from the older provinces and drained the country of its best farm help. The vacancies thus created must be filled from some other source.

### School Reports

The following is the report of Sr. classes of S.S. No. 1, Walpole, for the month of October. \* indicates examinations missed. V., total 250.—Isabel Leake 150, \*Francis Evans 146. Sr. IV., total 250.—Eva Thompson 174, Lillie Truckell 161, Helena Leake 150, Wallace Corrigan 150, \*Norman Vokes 64. Jr. IV., total 250. Olive Ward 157, Evelyn Walker 144, \*Maggie Evans 101, Nina Truckell 77, 111., total 300.—Verne Davis 251, \*Pearl Cooper 229, Jennie Ward 164, Ernie Dwyer 159, Harry Evans 125, Hugh Brown 114, \*Rhea Harris 106, \*Clara Vokes 53. \*Honora.

Miss I. M. FRANKFURTH, Teacher.

## Ayer's Hair Vigor

STOPS FALLING HAIR DESTROYS DANDRUFF

AN ELEGANT DRESSING MAKES HAIR GROW

Ingredients: Sassafras, Glycerin, Castor Oil, Sulfur, Chloride, Capsicum, Soap, Alcohol, Water, Perfum.

## YOU PAY WHEN CURED

Drs. K. & K. TAKE ALL RISKS

Cured by the New Method Treatment

NO NAMES OR PHOTOS USED WITHOUT WRITTEN CONSENT

### NERVOUS DEBILITY

Thousands of young and middle-aged men are annually swept to a premature grave through Early Indiscretions, Excesses and Blood Diseases. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent and gloomy, species before the eyes, with dark circles under them, weak back, kidneys irritable, palpitations of the heart, basilar dreams and losses, sediments in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, listless, distrustful, lack energy and strength, tired nerves, restless nights, changeable moods, weak manhood, premature decay, bone pains, hair loose, sore throat, etc.

Our New Method Treatment can cure you and make a man of you. Under its influence the brain becomes active, the blood purified, so that all pimples, blotches and skin eruptions vanish, the eyes become bright, the face full and clear, energy returns to the more vital waste from the system. Don't let quicks and fakirs rob you of your hard earned dollars. We will cure you or no pay.

EVERYTHING PRIVATE AND CONFIDENTIAL. Reader: No matter what has troubled you, write for an honest opinion free of charge. Books Free—"The Golden Monitor" (Illustrated) or Secret Diseases of Men. QUESTION LIST FOR HOME TREATMENT SENT ON REQUEST.
