Distressing Headaches

Headaches are largely the result of disordered kidneys.

Mrs. Hall, 84 Flora St., St. Thomas, Ont., says, "I suffered for years with headaches of a most distressing nature. They would come on me suddenly, and would last for days at a time. These were usually accompanied by spells of dizziness that would leave me unable to attend to any household duties. My back was weak and caused much suffering thru the night, I had doctor's for years, but all to no avail. Nothing benefited me and my condition was gradually becoming worse. I learned of Booth's Kidney Pills. One box gave me complete and lasting cure. I have not had a headache or dizzy spell since and I feel like a new person."

Booth's Kidney Pills are sold by all druggists, 50c. box, under a guarantee to refund your money if they fail to relieve any disease having its origin in the kidneys or bladder. Postpaid from the R. T. Booth Co., Ltd., Fort Erie, Ont. Sold and guaranteed by T. E. Morrow.

Prospects

A field manager tells an excellent story which illustrates possibilities for business. He believes that a careful and systematic investigation of the field will reveal to those endeavoring to cultivate it unknown and unthought-of possibilities for business. He illustrates his point thus:

Two "hobos" were once passing a set of farm buildings by night. Pointing to a chicken house one of them said to the other, "It's long past our supper time; there is where I propose to obtain the necessary supplies." "But," responded the other, "you do not even know there is one chicken there." Very true, but I know the chicken house is there, the chicken ought to be there, presumably he is there, and I shall never know unless I investigate. I'm going to investigate and explore the interior of that building."

The hobo was more of a philosopher and showed greater wisdom in his practical intentions than many deputies show in their legitimate business. He who confines his canvas to his special friends and business acquaintances soon exhausts his available territory. He who carefully explores every possible opening for prospects will succeed.
