VICTIMS OF CONSUMPTION.

MOTHER AND TWO CHILDREN AT MUSKOKA FREE HOSPITAL.

Are Now Under Treatment—Husband, Too, Had Been a Patient-A Tragedy in Real Life-Heavy Debt on

A story from the Muskoka Free Hospital for Consumptives tells of a mother who, with her two children, is now under treatment in that institution. The husband had been a patient, but the case was an advanced one when the patient entered, and he has since passed away. There is little doubt but that the wife was infected as a result of caring for her husband, and now she is in the Muskoka Hospital. Her little girl, about five years of age, and a boy of ten are with her, both being afflicted with this dread disease.

The words of the mother are pathetic. She writes: "I went to a doctor and got him to examine my lungs to see whether there was anything wrong with them, and he said that the right lung was affected. A little rest, he hoped, would build me up. I have a little girl, about five years old, and the doctor says that if I could take her up with me it would do her ever so much good, as she is not very strong. I have three more children, and one of these, a bey of ten, seems also to be afflicted, and it is advisable that he should enter the hos-

pital."

These three are of the 104 patients who These three are of the 104 patients who are residents in this deserving institution and being cared for without money and without price. The sorry part of it is that the trustees are carrying a debt of something like \$40,000, incurred largely through the additions that have been made within the past year, and that have more than doubled the accommodation of the institution, together with the heavy cost of mainaining so large a number of free patients.

Renders who desire to help this great

Telephone Users and Abus-

A few things to remember, in connecnion with the telephone, which occupies such an important place in our every day life, at the present time:

Remember, first, that the company, the operator and yourself, go to make a sucessful service: with this in view each must do their part.

Remember that the operator is just human like yourself. Don't expect too much. Remember to give numbers; you have more time to look them up than the operator: help all you can.

Remember not to speak cross to the operator. You are only one of the hundreds that they are doing for every hour; a pleasant tone to your voice will cheer

Remember that talking from the switchboard is contrary to operating rules, so then, don't take any unnecessary time of the operator, while you are doing this some one else maybe neglected. Remember to answer your telephone

promptly. Think how trying it is to wait or someone else to answer their telephone. Remember, while you are having one of those visit (long talks) many others may be waiting for the lines very urgently, these people may be cursing the operator for neglect of duty, or one of many other thing. Just think, it may be you next.

Remember young man and young woman, that the telephone is not the place to make love. You know time passess quickly, and you may be a long time. While this is being done you may be driving business away from yourself, or your employer, by the line being reported busy too often, besides being very annoying to others on the same line. Make a date

Some people marry because it is contagiouse. Others because they cant work in single harness. But most marry because they fall in love and can't fall out. Illinois produces an annual crop of some-

thing over 3,000,000 bushels of corn and it is believed that fully half of this is shipped out of the state. A movement shipped out of the state. A movement has been on foot for some time which has for its object inducing the farmers of the state to feed more of this corn at home. It is believed that the annual crops of the state could be increased in value by \$15,-000,000 if this plan were adopted.
