No Trouble To Show Goods

MILLER, MACFARLANE & CO.,

Men's Fall Suits

The character of these Fall Suits shows that every detail has been cared for to a degree, unusual in low priced clothing. It is the splendid satisfaction our Fall Suits afford that has made this section so widely known for unequalled worth of our inexpensive clothing. The tailoring of these garments is quite often a surprise to intending customers.

Our Ready-to-Wear Clothing

From \$7.50 to \$15 can not be equalled in the make, finish and quality. If you have not been a customer of ours it is to your own benefit to procure one this fall.

PENMAN'S extra heavy, all wool, fine ribbed, worth \$1.50, our price..... \$1.37 1/2

Men's Fur Coats and Caps

Never in the history of Furs have the Bishop Coats been better. We went direct to the factory and picked our Coats out of hundreds of coats, and our selection is far better than any we can get again, so the early buyer will be sure to get the best coat. Do not wait till all are picked over and take the leavings and yet pay the same price as others.

Cement Business in Good Hands.

The well-known trade paper "Construction" is of the opinion that the merging of the cement interests is going to work out well from the view-point of the general public. "When the cement merger was formed," says this paper, "the news was received with some misgivings. The incorporators, on the other hand, declared emphatically that there was absolutely no ground for any alarm, but that the merger had been formed only for the purpose of effecting economies in management, manufacture, sales and freights, together with the object of increasing the consumption of cement through a systematic educational campaign, as to where, how and when, cement may be profitably used. In addition to this, the merger frankly declared, that it proposed to bring to an end the ruinous competition, that up to the time of its birth, was eating the very vitals out of the industry. The merger, in this manner, committed itself to a constructive policy and disclaimed any intention to adopt any method or undertake any procedure that would demoralize the market either from the standpoint of the consumer or the independent manufacturer.

"One year has passed, and it is gratifying to note that the merger has made good its promises and kept faith with both consumer and independent manufacturer alike. "The consumer will get his cement for 1910 at an average price of \$1.25 per barrel at the mill—a price lower than has heretofore prevailed in Canada, with the exception of the short interval during 1909, when cement was being sold below actual cost of production, a condition that could not continue for any length of time.

"As long as the cement interests continue to develop the industry along these lines, as long as their policy continues to be constructive, they are deserving of the good will and support of the Canadian building public."

Julia Ward Howe Dead

Newport, R. I., Oct. 17.—Mrs. Julia Ward Howe, authoress of "The Battle Hymn of the Republic" died to-day of pneumonia, aged 91. Mrs. Howe's name will live as that of one of the most generous and brilliant women the world has ever known. Before the civil war she and her husband worked for emancipation. After seeing her efforts crowned with success she became interested in woman's suffrage, prison reform and the cause of peace. She was born in New York on May 27, 1819, and was christened Julia Ward. In 1843 she married Dr. Samuel G. Howe, the eminent philanthropist. In Boston she was affectionately known as the "Queen of Clubs" because so many clubs owed their existence to her active efforts.

Canned Goods go up.

Canned corn and peas will cost 25 per cent. more this year than last year and canned tomatoes 50 per cent. The grocers have received their notice of the increase from the Canadian Cannery Association. This will mean that corn, peas and beans which was sold last year at three and in some cases four for a quarter will sell this year for 10 cents straight. Canned tomatoes, which sold three cents for a quarter last year will now be sold two for a quarter. The canners' combine claim, according to the grocers; that the increase in price is due to the shortage of the crops.

Weeds

It is reported that a would-be benefactor of mankind is endeavoring to find out some useful purpose to which the ubiquitous thistle can be put. He reasons that if the thistle can be adapted to some useful purpose, it will cease to grow, and eventually be gotten rid of. There is a pervasiveness about thistles and these things called weeds, that would seem to bear out this 'benefactor's' contention. If weeds could be put to some useful purpose, there would be some reason for their existence. But as soon as they enter the realm of the useful, they put on airs and cease to grow, without special care and attention.

New Post Office Rules

A postmaster formulates the following rules for the benefit of his patrons and that you may know what you may expect: No letters given out until they have been received. If you don't get a letter or paper on the day you expect it have the postmaster look through all the boxes and down the cellar also. It ought to be there somewhere and he likes to hunt for it just to please you. If your friend don't write rave at the postmaster. He is to blame. He tells you no, put on a grieved look and say there ought to be some. He is probably hiding your mail for the pleasure of having you call for it. Ask him to look again. If you are buying stamps make him lick them and put them on, that is his business.

William H. Montgomery was found guilty of manslaughter at the North Bay Assizes, with a recommendation to mercy. He fatally injured Elmer Kline in ejecting him from his hotel.

Good weather for Simcoe Fair. Large crowd from here attending.

If weather is disagreeable sale will be held under cover.
J. HODGES, W. R. BRENNAN, Auctioneers, Prop.

The Census Office published a bulletin last week on the condition of crops in Canada at the end of September. The reports show lower averages of condition for the whole of Canada than those of a year ago, but the reduction applies chiefly to the Northwest provinces. In the eastern provinces a high percent. is maintained for nearly all the crops, and quantity and quality are nearly as good as a year ago and better than two years ago.

In Manitoba, Saskatchewan and Alberta there is a drop of about twenty per cent. in the quality of grain and roots, but the threshings indicate that the yield will be larger for wheat, oats and barley than was promised at the end of August. For the whole of Canada the condition of rye at the end of September was 82.50, which is ten per cent. better than two years ago and 2.30 better than last year. Peas and beans are nearly eight per cent. lower in condition than a year ago, but nearly ten per cent. higher than in 1908. Buckwheat is about the same as last year, and 12 per cent. better than in 1908, while mixed grains are better by five per cent. than last year and by 19.47 per cent. better than two years ago. Corn for husking compared for the three years 1910, 1909 1908 shows percentages of 85.12, 86.87 and 82, and corn for fodder of 89.82, 87.18 and 92 for the respective years. The condition of potatoes is 78.08 at the end of September compared with 90.37 last year, of turnips 82.09 to 83.34 and of sugar beets 83.13 to 71.02, whilst in 1908 their condition ranged from 68 to 74. Alfalfa has a condition of 83.30 for the end of September, and it exceeds 90 in the Maritime and Ontario. In Quebec and the North west provinces it is not more than 70 per cent, and in British Columbia it is 88.33. All field grains in the province last named exceed 82 per cent in quality. The estimated yield of rye this year for Canada is 1,634,000 bushels, peas 6,444,500 bushels, beans 1,099,800 bushels, buckwheat 7,302,000 bushels, mixed grains 20,103,000 bushels, flax 4,314,000 bushels and of corn for husking 17,881,000 bushels. The average bushels per acre of these crops is 19.43 for rye, 16.09 for peas, 20.54 for beans, 23.98 for buckwheat, 34.91 for mixed grains, 9.04 for flax and 53.82 for corn. Better averages for wheat, oats and barley are assured when the final returns are made in December than the reports for the end of August gave.

Country schoolmasters have peculiar experiences unlike their city cousins. A rural pedagogue relates that one day he received from a small boy a slip of paper which was supposed to contain an excuse for his nonattendance. He found thereon the word, "Copotomogotaturing" Utterly unable to decipher the puzzle he appealed to the small boy, who explained that it meant "kept at home to go to taturing—that is, to dig potatoes!
