

# BANK OF HAMILTON

THRIFT is rightly described as "Economic Management." A shrewd business man is spoken of as thrifty because he saves. Perhaps only a dollar at a time—perhaps more—but the real secret of his success lies in the principle of saving. One dollar will start an account with the Bank of Hamilton.

J. A. CAMPBELL,  
Agent, Jarvis Branch

## The Jarvis Record

WEDNESDAY, SEPT. 21, 1910.

### Canada's Mission in the "Federation of the World."

(From the Canadian Textile Journal.)

Thanks to a good Providence that has guided them in time of threatened rupture, peace has been maintained between Great Britain and the United States for a hundred years, and in the closing years of this century of mutual good-will these nations have given new desire to perpetuate the peace by referring a century-old dispute—the Newfoundland fisheries difficulty—to arbitration by The Hague tribunal. These are among the first great nations to yield to this new international court the arbitrament of a grave and ancient controversy.

In the last conflict between Great Britain and the United States the carnage was Canada—a country in no way responsible for the trouble, but vicariously suffering the woes of a three years' war, which terminated without settling the cause of dispute, or even mentioning it in the treaty of peace. It was a war which, in its origin and ending, and in miseries it inflicted on an innocent people illustrated to the world the futility of wholesale butchery as a means of settling questions of equity or moral principles. It had its individual heroes, but as a war it had been regarded, from both sides, with shame and regret by the generations who have followed. This feeling of wholesome repentance is expressed in the sincere attempt to find new grounds on which the two nations may co-operate, and in seeking to win and to deserve each other's respect and good will.

It is proposed to commemorate the signing on Christmas Eve, 1814, of the peace that has been kept for a hundred years between the United States and Great Britain by such memorials as will help to prolong this peace through the ages and become a sign and example to all nations. Canadians are responding warmly to the advances made across the border, and the brightest minds of both countries realize that, taking this supreme occasion by the hand, it is possible to start the world on a new path whereby good-will and reason may be enthroned in the place of force as the arbiter of national disputes.

Cessation from war among the great nations does not mean that the world shall relapse into idle luxury or political or social stagnation, but that national energies shall be directed to turning the material resources of the earth into the services of all, and especially of the millions to whom life now brings little but misery, and that the thoughts of men shall be devoted to the reconstruction and not the destruction of national life.

The influences that are tending to this reconstruction of society are rapidly accumulating. The staggering burden of the armaments now maintained by the leading nations; the inevitable increase of this load by new inventions, which are constantly altering its conditions and adding to its cost; the undue pressure of this burden upon that part of the community least able to bear it; the growing willingness of the leaders of great nations to substitute some code of international law for the unrestrained will of any one nation, however powerful; the growing tendency when men meet in conventions and assemblies to expand these meetings from local or national ones into international ones, and to deal with subjects from the standpoint of their effect on the world and not merely upon the nation—these are among the influences that are leading all races to understand that they have more to gain by co-operation than by antagonism.

Within the last five years these various influences have led to the formation of peace societies, arbitration leagues, international clubs, international scientific and other organizations, more or less world embracing in their aims. As nations derive most of their antipathies from the ignorance due to separation, such movements as these will disarm suspicions and let in wholesome light. The interest taken throughout the United States in the question of the

world's peace, and especially the question of peaceful relations with the Anglo-Saxon people, is remarkable. During the last few weeks peace societies and arbitration leagues have been formed in various States, and much literature has been circulated and educational addresses given on the subject. In June last a resolution was adopted by Congress creating a Commission of five to advise upon the limitation of armaments and the turning of the navies of the world into an international force for the preservation of the world's peace. Other organizations have been formed for the specific purpose of celebrating the centenary of Anglo-Saxon American peace.

This happy result is in part a natural response to the friendship for the American people constantly shown by Queen Victoria and King Edward—a friendship which may well be said to be the keynote of the foreign policy of those great monarchs, and which we may be sure will consistently be maintained by King George. Canada, above all parts of the Empire, must now appreciate the immense service rendered to our race by these far-seeing rulers, whose regard for the American nation has been rewarded with such reciprocity of good will and esteem. The true Imperialism of our Empire, which places its power at the service of the whole world, must have the active sympathy and participation of the United States. Hence, Canada's high mission is to promote this "federation of the world" by extending the hand of welcome to both the mother and daughter nation to hasten their destined reconciliation.

### Crop Report.

The Bulletin of the Census and Statistics Office, issued to-day, says that the reports on field crops at the end of August are more certain than at the end of July, and that the situation during the month has improved. In the older provinces the grains have matured well and have been harvested and saved in fine condition. The estimate for wheat, oats and barley is 445,450,000 bushels, which is 129,189,000 bushels less than the final estimate for last year. Spring wheat is less by 45,808,000 bushels, oats by 70,216,000 bushels and barley by 18,010,000 bushels; but fall wheat shows an increase of 1,649,000 bushels. The eastern provinces show grains in each one of these crops. The increase of wheat there is 3,633,000 bushels, of oats 23,219,000 bushels and of barley 625,000 bushels. The loss in the western provinces, exclusive of British Columbia, is a result of the great drought of July, which reduced the area harvested by 22 per cent. for wheat, by 24 per cent. for oats and by 31.5 per cent. for barley. The estimated production of wheat for the whole of Canada is 122,785,000 bushels, of oats 283,247,000 bushels and of barley 39,398,000 bushels, as compared with 166,744,000 bushels wheat, 353,466,000 bushels oats and 55,398,000 bushels barley in the final estimate for last year. The estimate for Manitoba, Saskatchewan and Alberta is 99,890,000 bushels wheat, 92,201,000 bushels oats and 14,723,000 bushels barley, being an average of 11.89 bushels of wheat, of 20.98 bushels for oats and of 14.49 bushels for barley on the area sown, but of 15.24 bushels wheat, 27.91 bushels oats and 21.22 bushels barley on the area reaped. Compared with the same period last year for the Dominion the average condition of spring wheat on August 31 was 79.05 to 84.30, of oats 80.03 to 84.89 and of barley 80.51 to 83.54; but compared with the compared with the condition at the end of July it was 79.02 to 77.05 for spring wheat, 80.03 to 79.57 for oats and 80.51 to 79.62 for barley. Peas, beans, buckwheat, mixed grain, flax, corn for fodder, potatoes and alfalfa have declined in condition, but peas, mixed grains and flax only appreciably; whilst corn for husking, turnips, mangolds, carrots, sugar beets and pastures have improved.

### News in Brief.

The Department of Mines will sell peat for fuel in Ottawa this fall at \$3.25 a ton delivered.

For keeping 36 head of cattle confined in a car for 48 hours without food or water the C.P.R. was Friday fined \$75 and costs, after entering a plea of guilty to the charge of cruelty to animals.

At the farm of his brother near Grimsby Robert Russ, aged 76, committed suicide by shooting himself. A letter was found in his pocket stating that he could no longer bear the bodily torture he was called upon to undergo.

The McLaughlin tragedy of last October at Uxbridge was recalled when about 8.30 o'clock Friday evening the home which the McLaughlin family resided in at the time of the tragedy was discovered on fire. It was being repaired for occupancy and how the fire started a mystery.

Alfred W. Young, aged 18 years, employed in construction work on Mr. Hedley Shaw's mill at Port Colborne, fell 60 feet Friday morning, striking a pile of stone. He was hurled to Welland in a steam launch, where it was found that both arms were broken and his head badly smashed. He died the same evening.

A double fatality occurred on the G.T.R. tracks at Lyn Station, five miles west of Brockville, Friday morning, when Geo. East, aged 55, and David Graham, aged 40, two sectionmen, were instantly killed by being struck by an eastbound freight train. They were replacing ties but owing to the heavy fog did not notice the train.

## Does not Color the Hair

### AYER'S HAIR VIGOR

Stops Falling Hair  
Destroys Dandruff

An Elegant Dressing  
Makes Hair Grow

Ingredients: Sassafras, Cassia, Quinine, Sulfur, Castor Oil, Glycerine, Water, Perfume.

A hair preparation made from this formula is harmless, yet possesses positive merit. A hair food, a hair tonic, a hair dressing. Consult your doctor about these hair problems. J. C. AYER & CO., Lowell, Mass.

## DRS. KENNEDY & KENNEDY CURE DISEASES OF MEN

PATIENTS TREATED THROUGHOUT CANADA FOR 20 YEARS

Dr. Kennedy, Medical Director of Drs. K. & K.

CONSULTATION FREE. Books Free on Diseases of Men. If unable to call, write for a Question Blank for HOME TREATMENT.

Drs. K. & K. are favorably known throughout Canada where they have done business for over 20 years. Thousands of patients have been treated and cured by their great skill and through the virtues of their "Method Treatment." When you treat with them you know you are dealing with responsible physicians as they own and occupy their own office building in Detroit, valued at \$100,000. When they decide your case is curable, all your worry is removed for you know they will not deceive you. They guarantee to cure all curable cases. No matter how many doctors have failed to benefit you; no matter how much money you have spent in vain; no matter how disheartened you may be, don't give up in despair until you get a few capsules from these master specialists. If you are at present within the clutches of any secret habit which is sapping your life by degrees, if you are suffering from the results of past indiscretions; if your blood has been tainted from any private disease, and you dare not marry; if you are married and live in dread of symptoms breaking out and exposing your past; if you are suffering from the result of a life-long life—Drs. K. & K. are your Saviors. Lay your case before them confidentially and they will tell you honestly if you are curable.

### YOU CAN PAY WHEN CURED
