# NEWS OF THE DAY IN BRIEF

## Four Thousand Dollars a Foot For Winnipeg Property.

## Early Abolition of Death Penalty in Spain Announced.

## Four Shots Fired at a St. John, N. B., Policeman.

Investigation shows that Toronto citizens are feeding on adulterated milk.

The Zionists of Canada will hold their convention this year in Toronto on Dec. 25.

Mr. William Symon, one of Warton's oldest and most respected business men, died on Thursday.

Col. Roosevelt has defined his new nationalism as the application of the same morality to conditions of to-day.

Saskatchewan farmers want more help and have asked the C. P. R. to run another series of harvesters' excursions from Toronto.

The Toronto Board of Education has appointed Dr. Helen MacMurchy and Dr. Wilnot A. Graham medical inspectors in the schools.

Rev. I. A. Watson, of Thameford, has accepted the appointment to Fairbank Presbyterian Church, and will begin his work on Oct. 9.

Ralph W. Rose, holder of the world's amateur shot-put championship, is seriously ill at his home at Healdsburg, Cal., of ptomaine poisoning.

A destructive forest fire that has been raging in the central part of Nova Scotia for some days has been brought under control by the timely rains.

A policeman Walter Coughlan was patrolling at St. John, N. B., four shots were fired from an alley. One hit him on the leg, another went through his coat at the shoulder.

The steamer Holland, while passing through Hay Lake on Thursday, dropped her propeller and was rendered helpless. A tug finally picked her up, and towed the Holland back to the "ho."

Wm. Young, aged 19 years, working at the new mill, at Port Colborne, fell sixty feet and is in a serious condition. In his fall he struck another laborer, cutting a deep gash in the latter's head.

The Democratic plurality given Frederick W. Plaxton for Governor by the voters of Maine at Monday's election was 5,114, according to complete returns available to-day for the first time.

Winnipeg is facing a serious shortage of firewood, which may develop into a famine within a few weeks. Already famine prices prevail, tamarac sawn and split costing the householder ten dollars a cord.

Rev. Griffith Thomas sailed from England for Canada to-day to take up his work on the staff of Wycliffe.

Before leaving he was presented with a purse of 1,500 guineas and six thousand dollars.

Mayor Frank, at St. John, N. B., cancelled the moving picture license of J. Armstrong, who proposed to show the Jeffries-Johnson fight pictures in his rink. Armstrong is going to make a test case of it.

Issac Glover, a negro, wanted for murder, was shot to death by a posse of citizens four miles south of Springfield, Ala., on Thursday evening. The negro wounded two members of the posse before he was killed.

The will of the late Mrs. John R. Melson, of Montreal, has not yet been filed, but it is understood that among other generous gifts, Mrs. Melson has given \$20,000 to the Church of the Messiah on Sherbrooke street.

A bacteriological examination at Dantz, Prussia, in three fatal cases has established that death in each instance was due to Asiatic cholera. Fifteen new suspected cases of cholera there have been placed under observation.

An oak pulpit, costing about \$1,000, has been presented by Mrs. Thomas Meaney and her daughter, to Right Rev. Monsignor McCann, pastor of St. Mary's Church, Toronto. The gift was made in memory of her late husband.

The schooner J. B. Newland struck on a reef off North Manitowish, in Lake Michigan, during a gale on Thursday and may prove a total wreck. The crew of four was taken off by revenue cutter, which saw the signals of distress.

Four thousand dollars a foot was paid to-day for property on the south side of Portage avenue, close by Main street, Winnipeg, formerly owned by the Trust & Loan Company of Canada, and now occupied by the Street Railway Company.

Edward McKay, a young man employed at McClary's, London, died from blood poisoning. The origin of the blood poisoning is somewhat of a mystery, though it is believed to have started with a slight injury to his knee, received at his work.

The officers of the 1st and 2nd and Bowling Clubs in London are for the granting of a license for a church street. The license holders are said to be a firm of automobile manufacturers.

In response to the Spanish Cortes, Valencia, the Minister of Justice, announced the early abolition of the death penalty, and said that numerous modifications would be adopted for the purpose of simplifying the civil and military codes.

Carmona Montrose, an eighteen-year-old Italian youth, was convicted by a jury in the Toronto Sessions of the crime of shooting a woman. She was wounded for sentence until the end of the session.

Man Who Married Matt Green's Daughter is Impoverished

Newport, R. I., Sept. 19.—Mathew Astor Wilkes, who married the daughter of Mrs. Hetty Green, has been in ever since he arrived at Riggs' Cottage, where he spent over a quarter of a century before he met and wooed the daughter of the richest woman in America.

Mr. Wilkes has for years been looked upon as a member of the Riggs family, and his apartments have always been kept intact.

He bought his wife here for the first time last summer and is now spending his second season at his modest rooms with his wife.

His physicians state that he is able to walk out daily. Mrs. Wilkes is expecting a visit from her mother.

Mr. Wilkes is a brother of Miss Wilkes, of Galt, Ont., and his honeymoon was spent at his sister's stock farm near that town.

St. Petersburg, Sept. 19.—The cholera epidemic, which originated in Southern Russia, has claimed already upwards of 100,000 victims, is stretching its way across Asiatic Russia and to-day was officially declared to threaten the Province of Amur in Southeast Siberia, and separated by the Amur River from Manchuria.

The reports now in possession of the Sanitary Bureau show a total for the season of 182,327 cases with 83,813 deaths. These include the early returns for the week ending September 10th, and the revised figures for the preceding week.

The total for the preceding week was 13,330 cases with 6,187 deaths.

There were 47 new cases and 19 deaths in the city of St. Petersburg yesterday. This brings the total in the capital to 3,750 cases with 1,310 deaths.

The totals in the aggregate show a falling off of cases and deaths.

# MANUFACTURERS AT REGINA

## Automobile Trip Through Wheat Fields of Saskatchewan.

## Canadian Goods Preferred to All Others if Prices Were Equal.

## Lower Freight Rates Gave U.S. Manufacturers an Advantage.

Moose Jaw, Sask., despatch: The fifth day of the Canadian manufacturers' excursion opened with the usual automobile trip. Regina and its beautiful wheat fields were covered early in the morning, after which the party was officially welcomed at the Opera House by Mayor Williams, P. McAra, Jun., President of the Board of Trade; F. F. Bole, M. P. P., and others. Luncheon was served at the City Hall, the Mayor in the chair. Wm. Martin, M. P., expressed appreciation of the manufacturers' fairness in organizing a trip to the west to gather information first-hand for the mutual benefit of the western farmers and themselves.

He said that if the Canadian manufacturers pushed their goods as much as the United States manufacturers did they would have no complaint that the west preferred American products. He cited traction engines as an example. Canadian goods always got the preference, if the price was equal. Freight rates, however, favored United States manufacturers. The Canadian Manufacturers' Association should study the question of whether the railways did not secure the benefit of the tariff protection accorded Canadian manufacturers through high freight rates. There had been improvement in this respect, but there was still room for many more reductions. The Grand Trunk Pacific would help Canadian goods wonderfully. Already it had resulted in better conditions for shippers.

## MUST STAND TOGETHER.

On the whole, the west was loyal to Canadian goods, and willing to sacrifice itself to build up a strong, united Canada. The manufacturers must be imbued with the same spirit if the great problems to be solved in this country in the next ten years are to work for the best interests of all. The eastern producer must stand up with the western consumer for the benefit of the whole of Canada.

## MR. HAULTAIN.

Hon. F. W. G. Haultain, leader of the Opposition, spoke along the same lines. He said all true Canadians were broader than any Province or sectional interests. The manufacturers must not be sacrificed for the farmers nor must the farmers be unnecessarily tied to help the manufacturers. He could not say that the farmers so tended now, but a thorough investigation should be made to get at the facts.

## WEST WANTS MANUFACTURERS.

Speaking for the association, R. J. Younge, of Montreal, said that without protection there would be no manufacturers, either east or west. Western cities were endeavoring to induce manufacturers to come in, and the west should bear this in mind. The difference between the manufacturer and the farmer were only on the surface. All were equally united in the best interests of Canada. At heart all were protectionists, because any study of actual conditions would show that such a tariff is necessary if industries of all kinds, including farming, are to develop in this country. He asked that the west let well enough alone. Under present conditions Canada was thriving as never before. No one was really suffering through the tariff, therefore go carefully about altering it.

## AT MOOSE JAW.

Vice-President Howley, who followed, stated that the manufacturers were only beginning to learn the west. Manufacturers and farmers must go hand in hand if the west wants factories to locate there. The more manufacturers the better for Canada all round.

Moose Jaw was reached at 3.30 p. m., and a short stop was made. An automobile drive was followed by refreshments and speeches on the C. P. R. lawn. Mayor Mathews welcomed the guests with the president of the Board of Trade. He said manufacturers and western farmers must stand together for a united Canada. The west realized this, as did also the manufacturers, he was sure.

# WHOLESALE DEATH

## 100,000 Persons Die of Cholera Scourge in Russia.

## Nearly 200,000 Cases of Sickness—Progress of the Disease.

St. Petersburg, Sept. 19.—The cholera epidemic, which originated in Southern Russia, has claimed already upwards of 100,000 victims, is stretching its way across Asiatic Russia and to-day was officially declared to threaten the Province of Amur in Southeast Siberia, and separated by the Amur River from Manchuria.

His physicians state that he is able to walk out daily. Mrs. Wilkes is expecting a visit from her mother.

Mr. Wilkes is a brother of Miss Wilkes, of Galt, Ont., and his honeymoon was spent at his sister's stock farm near that town.

# PREMIER BOTHA

## First General Elections of South African Union Against Him

## "I Shall Go My Utmost to Stamp Out Racism."—Gen. Botha.

## Dr. Jameson Elected—Botha's Party Likely Will Be Returned

Johannesburg, Sept. 19.—The standing of the parties in the Federal elections in South Africa, which took place to-day, was at midnight as follows:

Nationalists	23
Unionists	26
Independents	1
Labor	1

Sir Percy Fitzpatrick defeated Premier Botha in East Pretoria and Sir G. Farrar defeated the Minister of Finance, Hon. H. C. Hull, in Cape Town.

Dr. Jameson beat the Nationalist candidate in Cape Town by 1,414 to 62.

Premier Botha, addressing a crowd at Pretoria after his defeat, said: "I shall do my utmost to stamp out racism."

Smuts, Nationalist, carried Pretoria West.

The probable result of the final elections will be:

Nationalists	23
Unionists	26
Independents	1
Labor	1

Through the entire campaign the Premier has set his face against all attempts to stir up race trouble. He severely condemned a reference made by the Opposition leader in a speech at Durban to the Jameson raid and expressed the hope that neither side would attempt to make capital out of unfortunate differences that arose before the war.

The issue of the election, he said, was not between race and race, but whether the elections were prepared to hand over the management of affairs to the heads of the mining houses, who were the Unionist leaders.

Elections were also held yesterday for the Cape and Transvaal Provincial Councils, but returns are not sufficiently complete to give any indication of the results.

The constitution of the Union of South Africa, which went into force on May 31 last, provides for a House of Assembly of 150 members, to be composed of the Cape of Good Hope 51 members, the Transvaal 35 and Natal and Orange Free State 64 members.

The Senate consists of eight members, elected by the Legislature of each Province and eight nominated by the Governor. Only persons of European descent may sit in either House.

It is expected that the end of Union will be the first Union Parliament should be opened by King George. The death of King Edward made the carrying out of the plan impossible and the duty has been delegated to the Duke of Connaught.

General Botha, it will be remembered, became Commander-in-Chief of the Boer forces after the death of General Joubert in the South African war, and fought valiantly against the British to the close of the war. Dr. Jameson, leader of the Unionists, is best remembered as leader of the famous "Jameson raid" which most brought Britain to war at the time with the Transvaal and with Germany, too. He fought in the South African war, with the British forces, of course.

# THREATEN BRITAIN

## Elaborate Maneuvers Are Held to Test Ease of a Hostile Invasion.

Dublin, Sept. 19.—At 12 o'clock to-night mimic war was declared in Ireland, and for about two weeks the country will be in a state of siege.

Invaders are supposed to have landed at Sligo Bay, in North Connaught, and to have marched steadily southward toward a point within striking distance of England by sea. The conflict will rage over an extraordinary large section of territory, embracing most of the southern Leinster and a large slice of West Munster, around the city of Waterford.

As soon as the invaders reach the zone of conflict, which has been carefully mapped out, war will begin. Every branch of the service is engaged—artillery, cavalry, infantry, transport and supply columns, hospital corps, signalers—practically all drawn from the fifth and sixth divisions of the regular army. It is an illuminating feature of the campaign that the countryside is supposed to be friendly to the invaders, rather than the home forces.

The "Reds," or invaders, were encamped along the line of defence at midnight started in an attempt to break the "Blues" battle line and penetrate to the coast. If they can do that it will be an illuminating commentary on what a foreign force could accomplish under actual conditions of warfare—especially on a friendly countryside.

# AVIATION MEET.

Cleveland, O., Sept. 19.—A score of the more important aviators in America have entered as contestants for Cleveland's aviation week, which will form part of the Cuyahoga County annual festival next month. The meet will continue from October 10 to October 15, and will include several flights over Lake Erie.

# FROM MONTREAL

## Births, Deaths and Marriages Registered in That City Last Year.

Montreal, Sept. 19.—Dr. Louis LeBeau, in an address presented at the City Hall this morning, stated that 3,670 births had been registered in 1909, or one per thousand inhabitants, which was a decrease of 29 per thousand on the number registered during 1908, and of 21 per thousand compared with the average of the last twenty-five years. The weddings were as follows: French-Canadians, 1,947; other Catholics, 412; Protestants, 1,084; and Jews, 186.

There were 14,678 deaths, or 37.15 per thousand, which is a decrease of 1.29 per thousand on the year 1908. The proportions were: French-Canadians, 10,195; other Catholics, 1,709; Protestants, 1,977; and Jews, 797.

Deaths reached 3,703, or 22.03 per thousand of the population; 92 less than in 1908. The deaths among children under five years old were 4,570, or 54.92 per cent of the total deaths, which is a decrease of 15 per cent on last year.

# QUEEN'S OWN

## Officers Dined With the Officers of Honorable Artillery Company.

## Guests of the Corporation of London at a Luncheon To-day.

London, Sept. 19.—The officers of the Queen's Own Rifles dined to-night with the officers of the Honorable Artillery Company on the occasion of the election of the King as a member and Captain-General and Colonel of the Company, in succession to King Edward.

Lieut. Colonel the Earl of Denbigh (who commands the company), in proposing the toast to the Queen's Own Rifles, bade the regiment a hearty welcome. He was glad, he said, to see that Canada realized the necessity for war. Incidentally he referred feelingly to the kindly welcome extended him on the occasion of his visit to Toronto.

Sir Harry Pellatt, in replying, after expressing appreciation of the sentiments expressed, said there were tens of thousands of men in Canada ready to answer the call of the mother country.

A large party of officers and men to-day visited a shipbuilding yard on the Thames, and watched the construction work on a super-Dreadnought.

To-morrow Secretary of War Haldane and Lord Roberts will inspect the Queen's Own. The regiment will also march to the Guildhall, where officers and men will be entertained to luncheon as the guests of the Corporation of London.—Jeffrey Bates in Globe.

# FELL NINE FEET.

## Aylmer Man Strikes Pointed Stake in Drop From a Wall.

Aylmer despatch: Charles Bee, an Englishman, about 35 years of age, met death in a horrible fashion, falling nine feet onto the pointed end of a stake constructed from scantlings. Bee was working on a cement wall at a barn of Pierce & Son, one mile west of the town. He was pushing against the stake with a stick, and the stick slipped. Falling, he turned and alighted on the sharp end of the stake.

The man was conscious, and a rig and stretcher were brought to take him to his home here. When nearly at the house he was seized with a fit of vomiting, and died in about a minute. The physician called said that death was caused by the blow on the stomach soon after a meal; the lining actually burst.

# TWO MEN KILLED.

## Two Trackmen Lose Their Lives by Being Struck by Train.

Lynn, Ont., despatch.—Geo. East and David Graham, employed as trackmen on a section of the Grand Trunk Railway, were struck by a freight train while working on the track near Lynn station, about 7 o'clock this morning, and instantly killed. The men, on account of the heavy fog, did not see the train until it was close on to them and did not have time to get off the track.

The rest of the section had narrow escapes. East had both legs broken and his head was badly cut, while Graham was badly cut about the face and head. East was about 50 years old and leaves a widow, while Graham was about 23 years of age and leaves a widow and one child.

## Mother and Children Safe.

Vancouver, Sept. 19.—Latest reports from the fire-swept district south of the Fraser River are reassuring. Provincial Fire Warden Gladwin returned this morning and says fears for the safety of Mrs. Morrison and her children, previously reported perished, were allayed by the reappearance of the missing woman and children. The fire was still furious in places, but are gradually coming under control.

# \$2,000,000 HOTEL.

Winnipeg, Man., Sept. 19.—The Canadian Northern Railway will begin shortly to build the proposed hotel in Winnipeg to cost \$2,000,000. President William Mackenzie, who arrived from the West to-day, intimated as much. The location for the building, Mr. Mackenzie stated, was the corner of Water and Main streets, where the old Northern Pacific former stood.

# BROKEN IN SPIRIT.

## Hop Broker Declines Services of Lawyer and Welcomes Jail.

New York, Sept. 19.—Broken in spirit, Adolph Rothbarth, representative in America of the hop-leasing firm of Rothbarth & Co., who confessed to swindling banks out of nearly \$150,000, sent word from his cell in the Tombs prison to-day that he didn't want a lawyer, and that the sooner his trial was over the quicker he would see the inside of the penitentiary.

"All I want is a quick trial," said Rothbarth, who confessed that by means of false representations of credit he had obtained many thousands of dollars from banks to further an unsuccessful stock speculation.

# GOT POISON IN BODY

## So Swears Analyst in Crippen Trial—Ladies Watch Trembling Girl in the Dock.

London cable: Dr. William Henry Willcox, scientific analyst to the home office, who discovered a deadly drug in the body found in the home of Dr. Hawley H. Crippen, took the stand when the trial of the doctor and his typist, Ethel Clare Leneve, for the murder of the former's wife, was continued to-day, and swore unqualifiedly that death was due to poison.

The physician described the nature of the medium used and said that from a quarter to half a grain would prove fatal. He had found two-sevenths of a grain after a lapse of from four to eight months, and judged that more than half a grain had been administered. He found no other cause of death, and expressed the opinion that the victim survived the dose an hour or more. Before Dr. Willcox was called the Crown introduced medical testimony to corroborate that given on Wednesday by Prof. Augustus W. Pepper, the pathologist of the University of London, who swore that the body had been dismembered by one individual with the aid of an anatomy.

The grossness exhibits and the unpleasant character of the testimony all the ladies did not deter the curious from straggling to get into the Bow street Police Court to-day, and the section appropriated to the public was again crowded. The spectators included the usual array of fashionably dressed women, and these thoughtfully removed their hats that those seated behind them might not miss a move of the trembling girl as she sat on the witness box in answer to the jury's only bid to survive the dose an hour or more. Before Dr. Willcox was called the Crown introduced medical testimony to corroborate that given on Wednesday by Prof. Augustus W. Pepper, the pathologist of the University of London, who swore that the body had been dismembered by one individual with the aid of an anatomy.
